Dear Parents,

Inside this book is a safe space for creativity. Encourage your children to scrawl funny doodles, sketch silly squiggles, and jot multicolored blobs. They can use the coloring images as jumping-off points, or make unrelated illustrations using crayons, markers, paints, pens, or pencils. Don't forget to ask your kids to describe their drawings!

We've gathered together many familiar, beloved characters, and we'll introduce new friends too. They will present exciting activity pages that will challenge and entertain with puzzles, games, brainteasers, and suggestions for craft projects and rainy-day pastimes.

We will also offer thrilling extras with each book, such as crayons, stickers, cut-out crafts on the back covers, or other items we know your kids will love.

When you spot our spiral logo, you can be sure you're purchasing an enthralling coloring and activity book that will engage, enlighten, and entertain for hours. So sit down with your children . . . and watch them start scribbling!

Have fun!

A long time ago, someplace far, far away, there lived two brave space explorers.

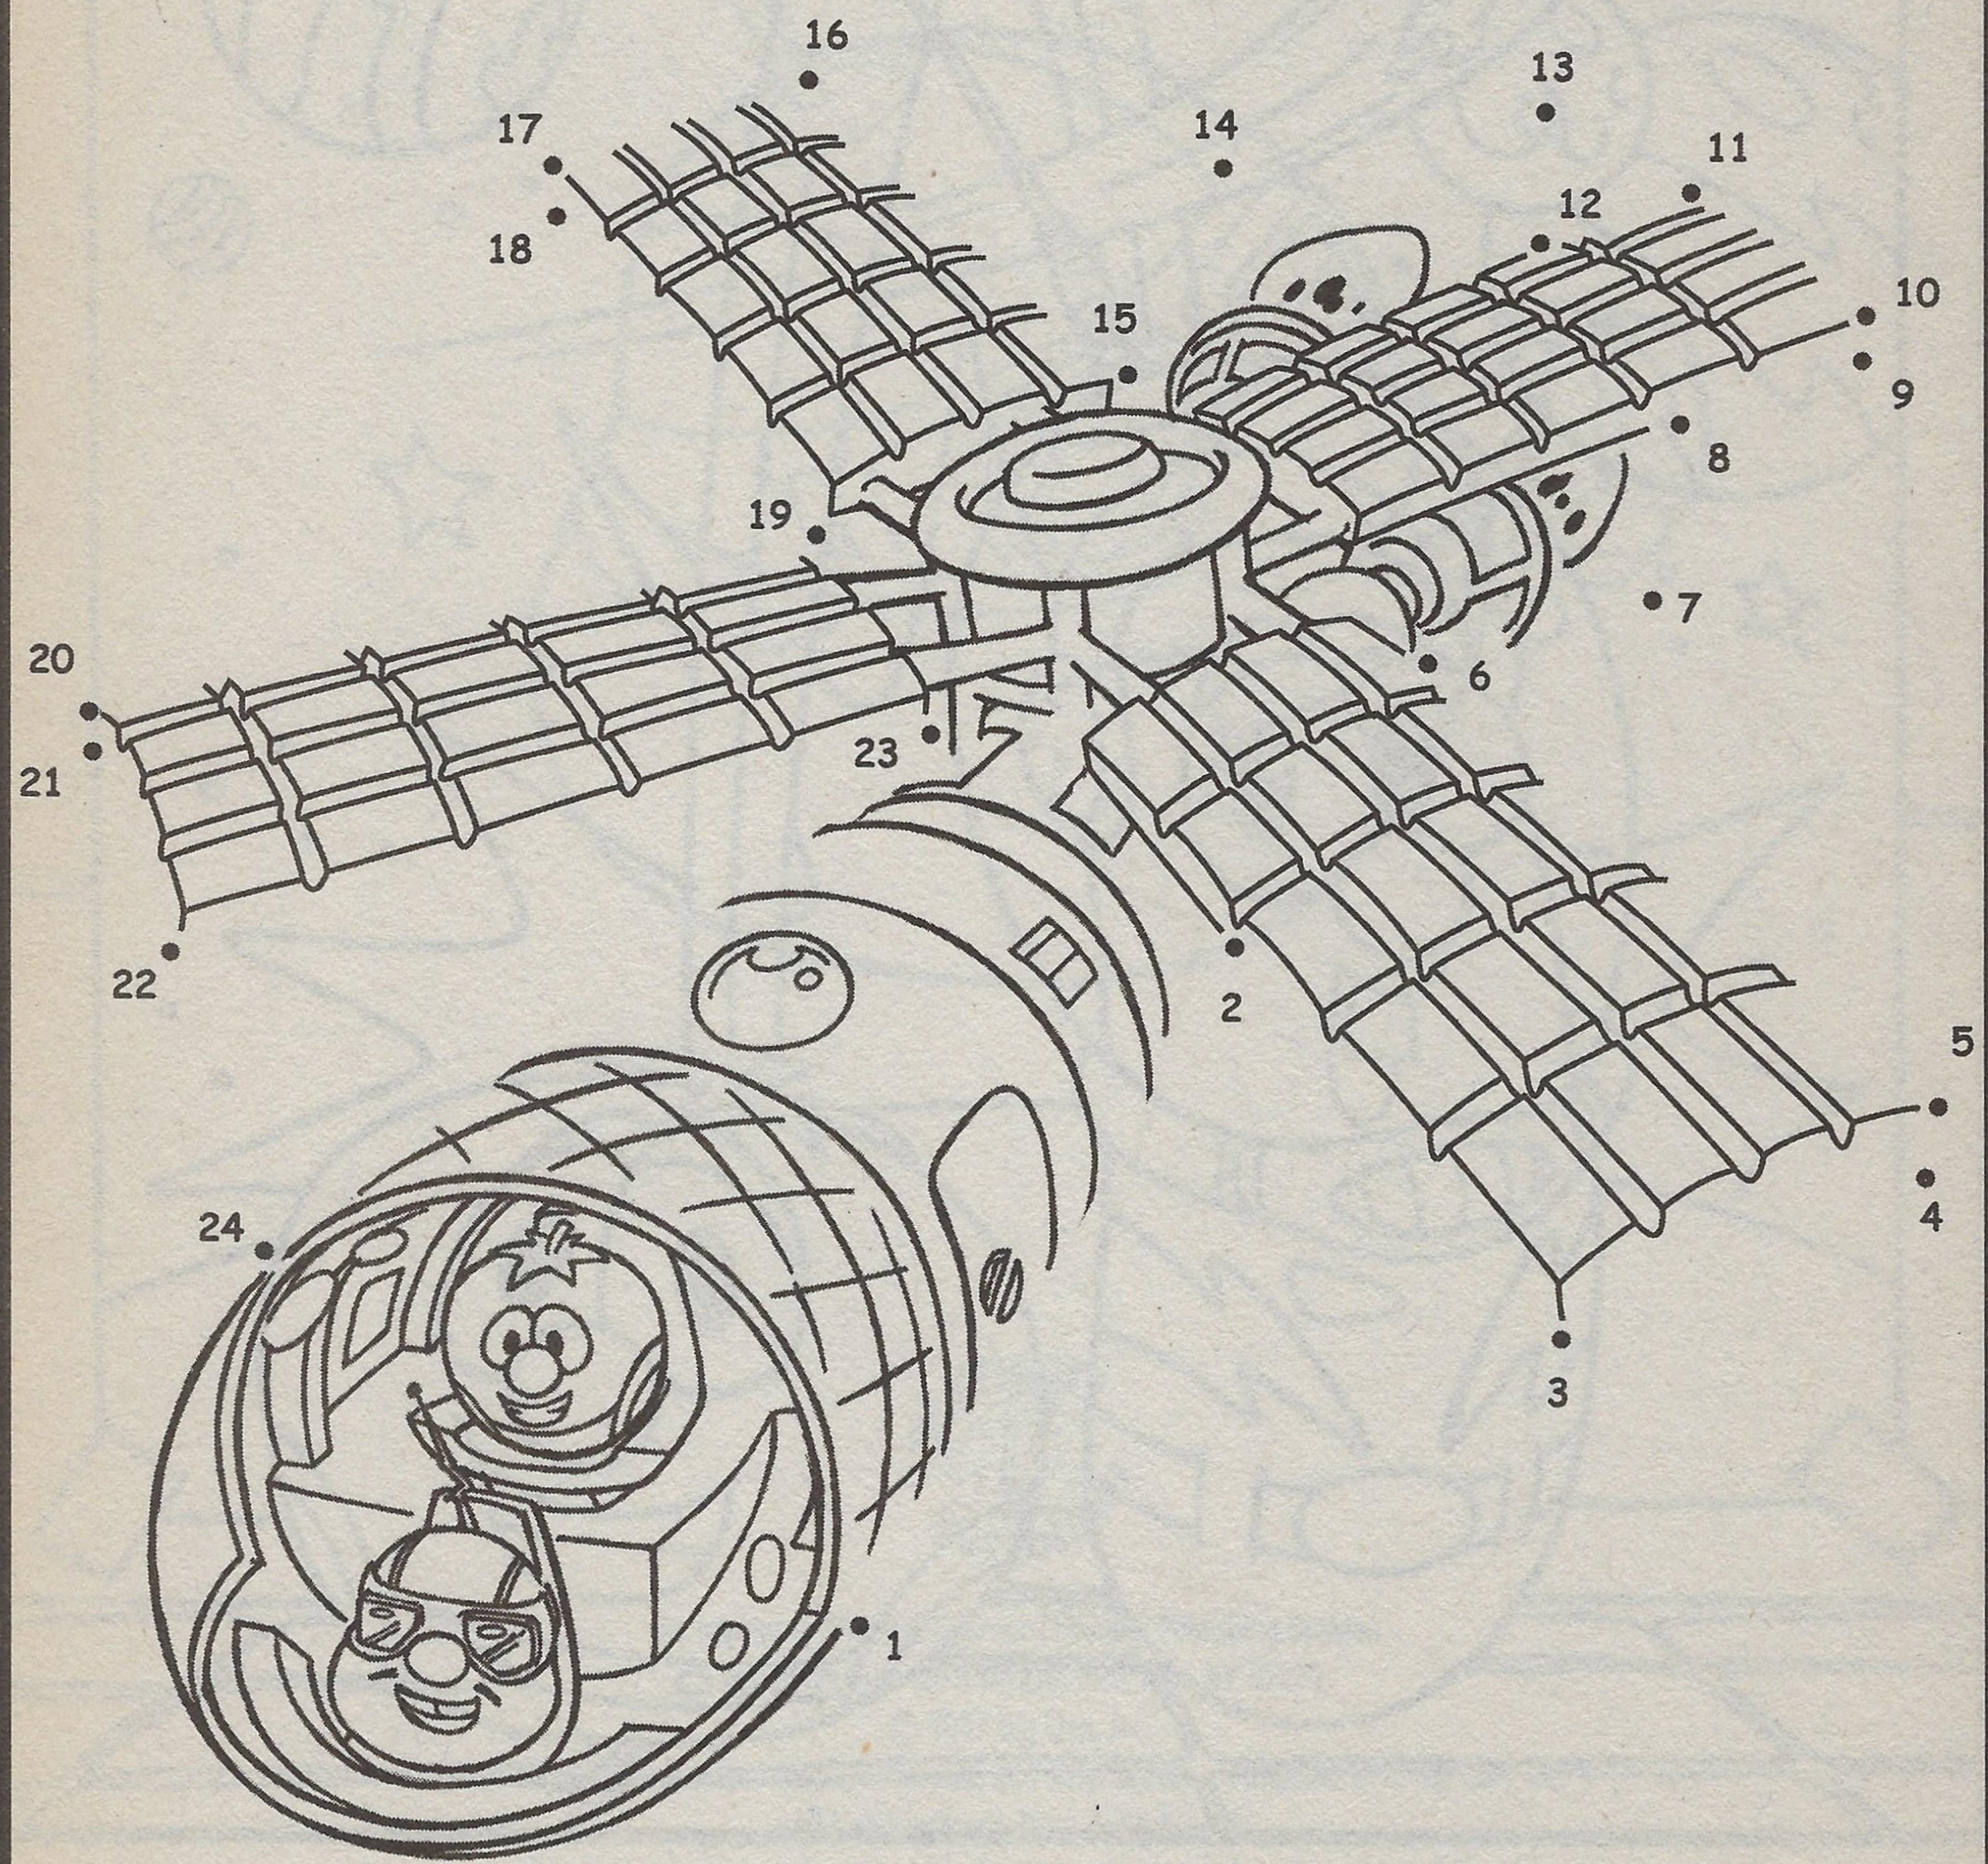
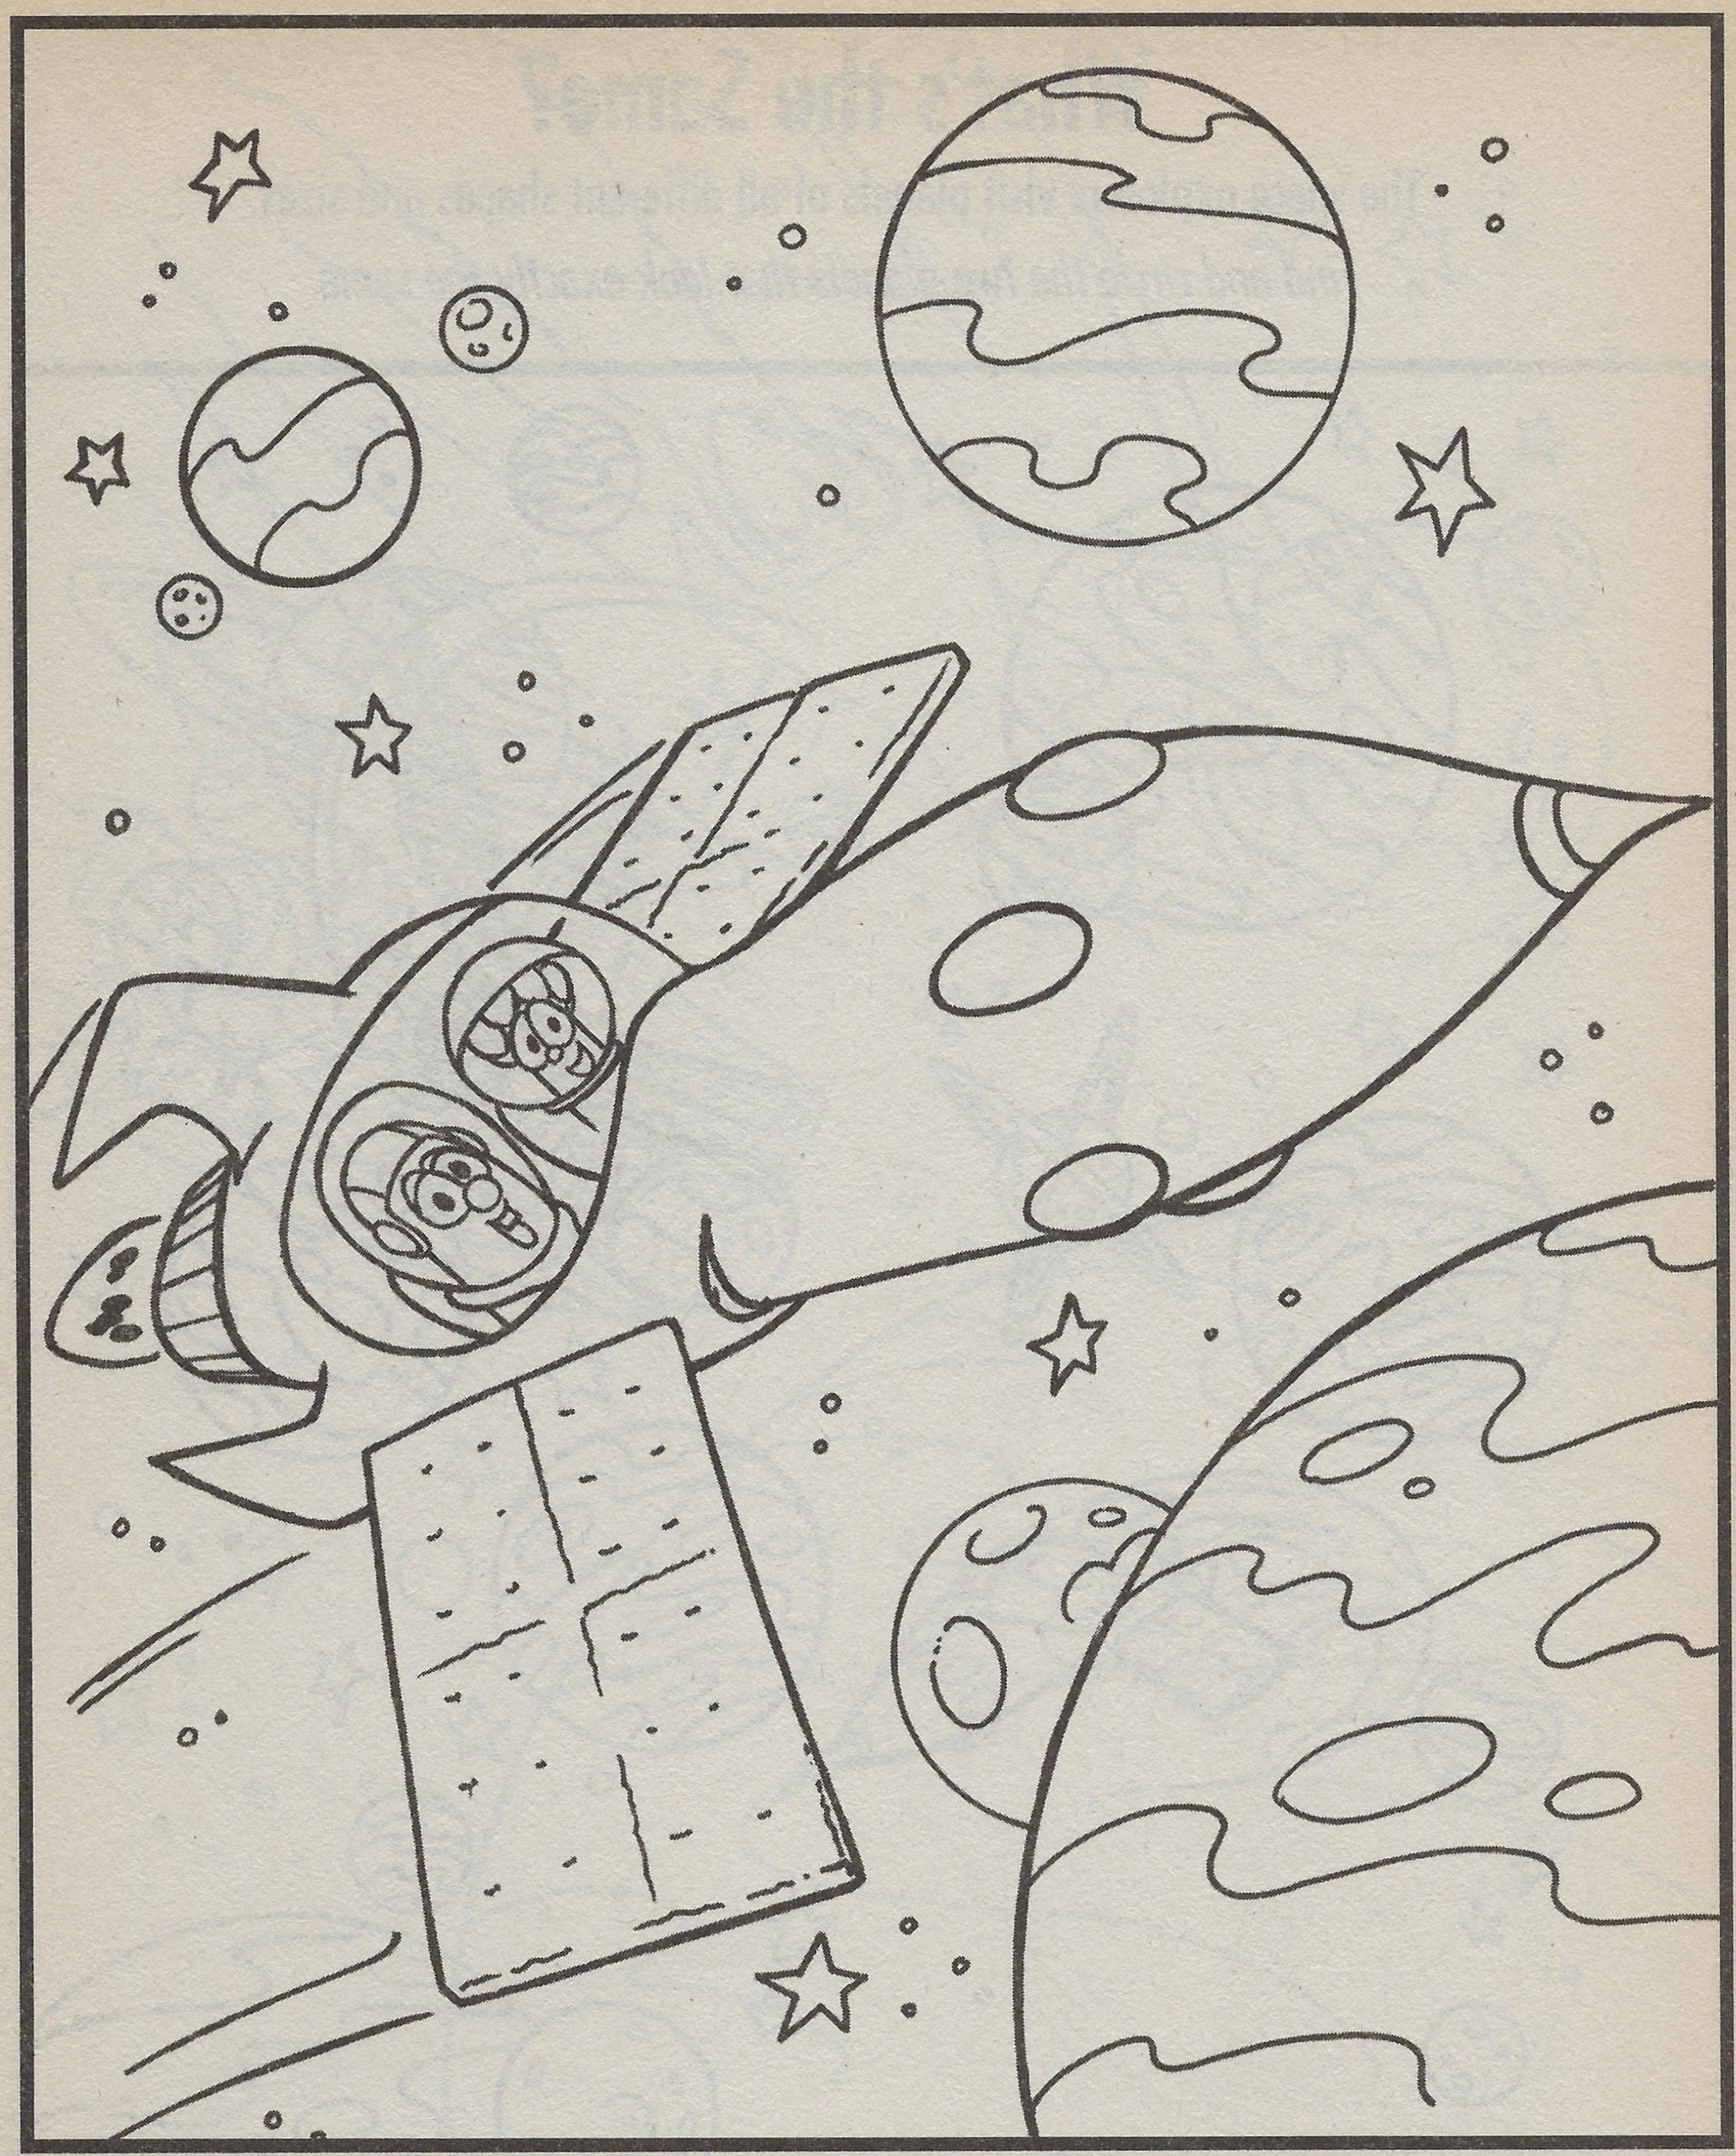
Connect the Dots

Captain Bob was the leader of the floating space station, the Chocolate Lab.

Connect the dots to see it.





Lunar Larry, with his trusty sidekick Cadet Asparagus, flew in a space fighter called the Galactic Graham.

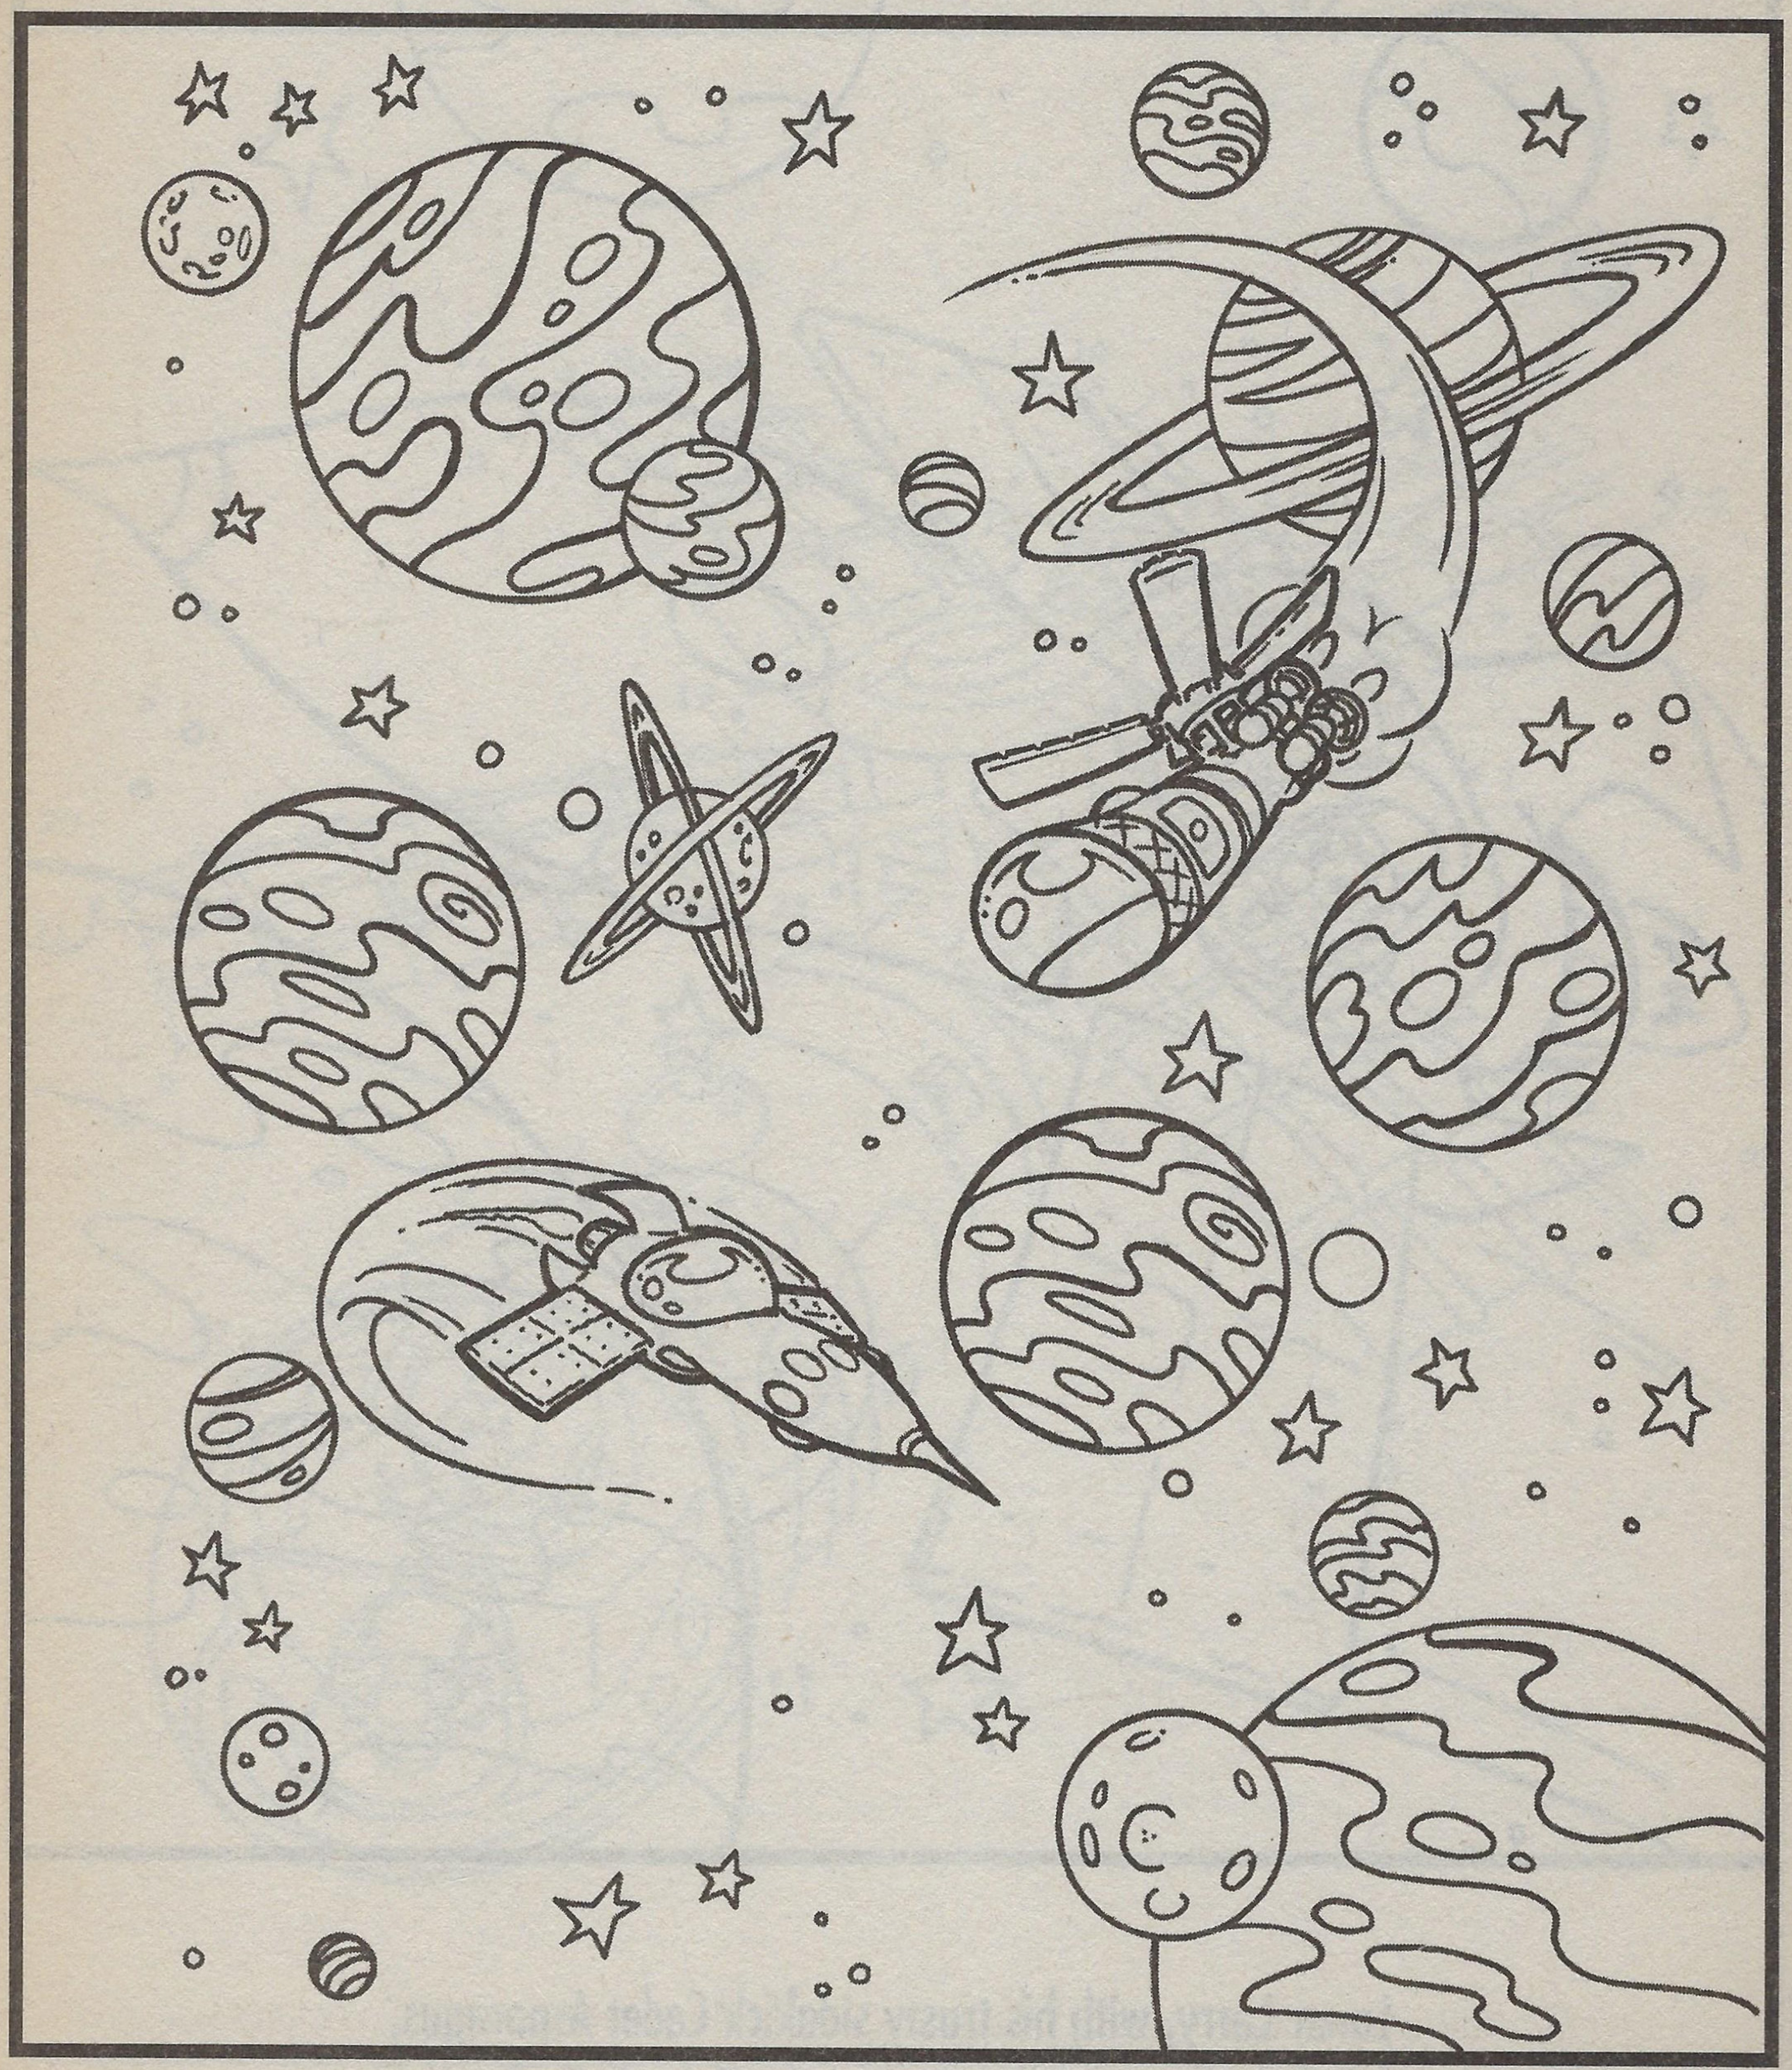
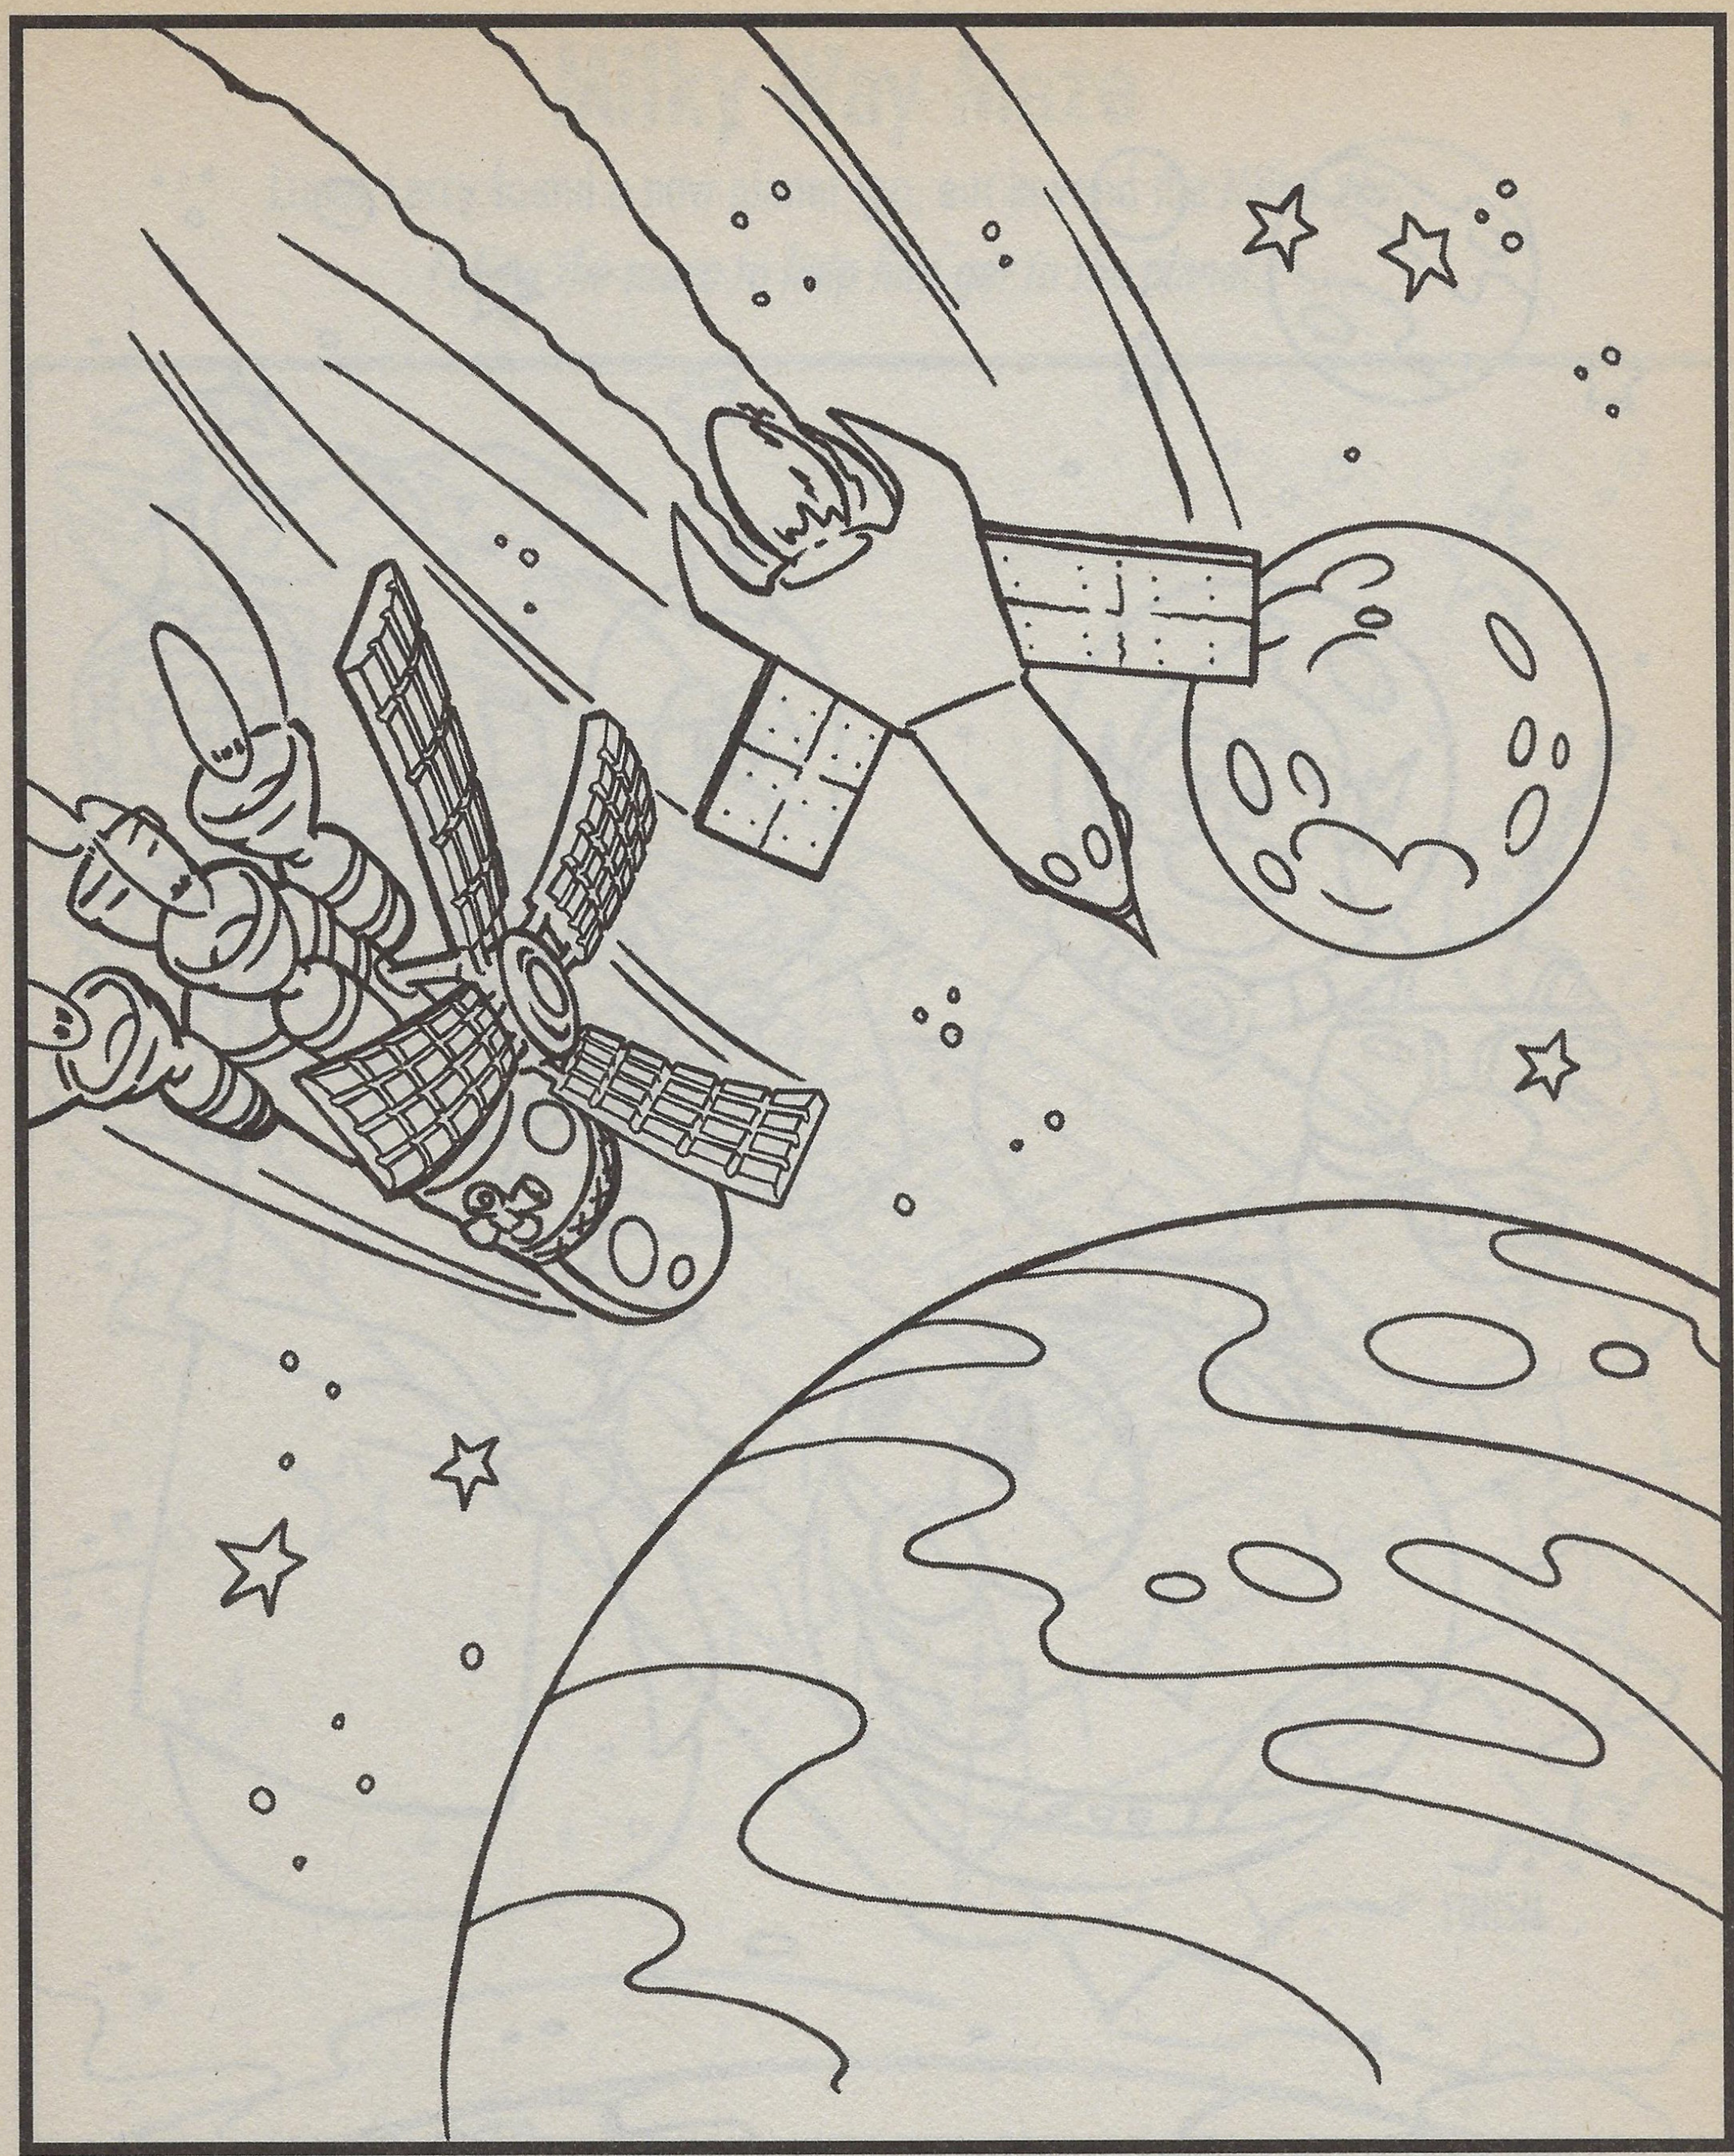
What's the Same?

The space explorers visit planets of all different shapes and sizes.

Find and circle the two planets that look exactly the same.





Captain Bob and Lunar Larry both wanted to go where no space explorers had gone before, but both also wanted to get there FIRST!

The crew of the Chocolate Lab discovered the Egg Planet, where the aliens were purple and loved parmesan cheese.

Milky Way Maze

Lunar Larry found a new planet too, out beyond the Milky Way.

Follow the maze to help him get to the planet.

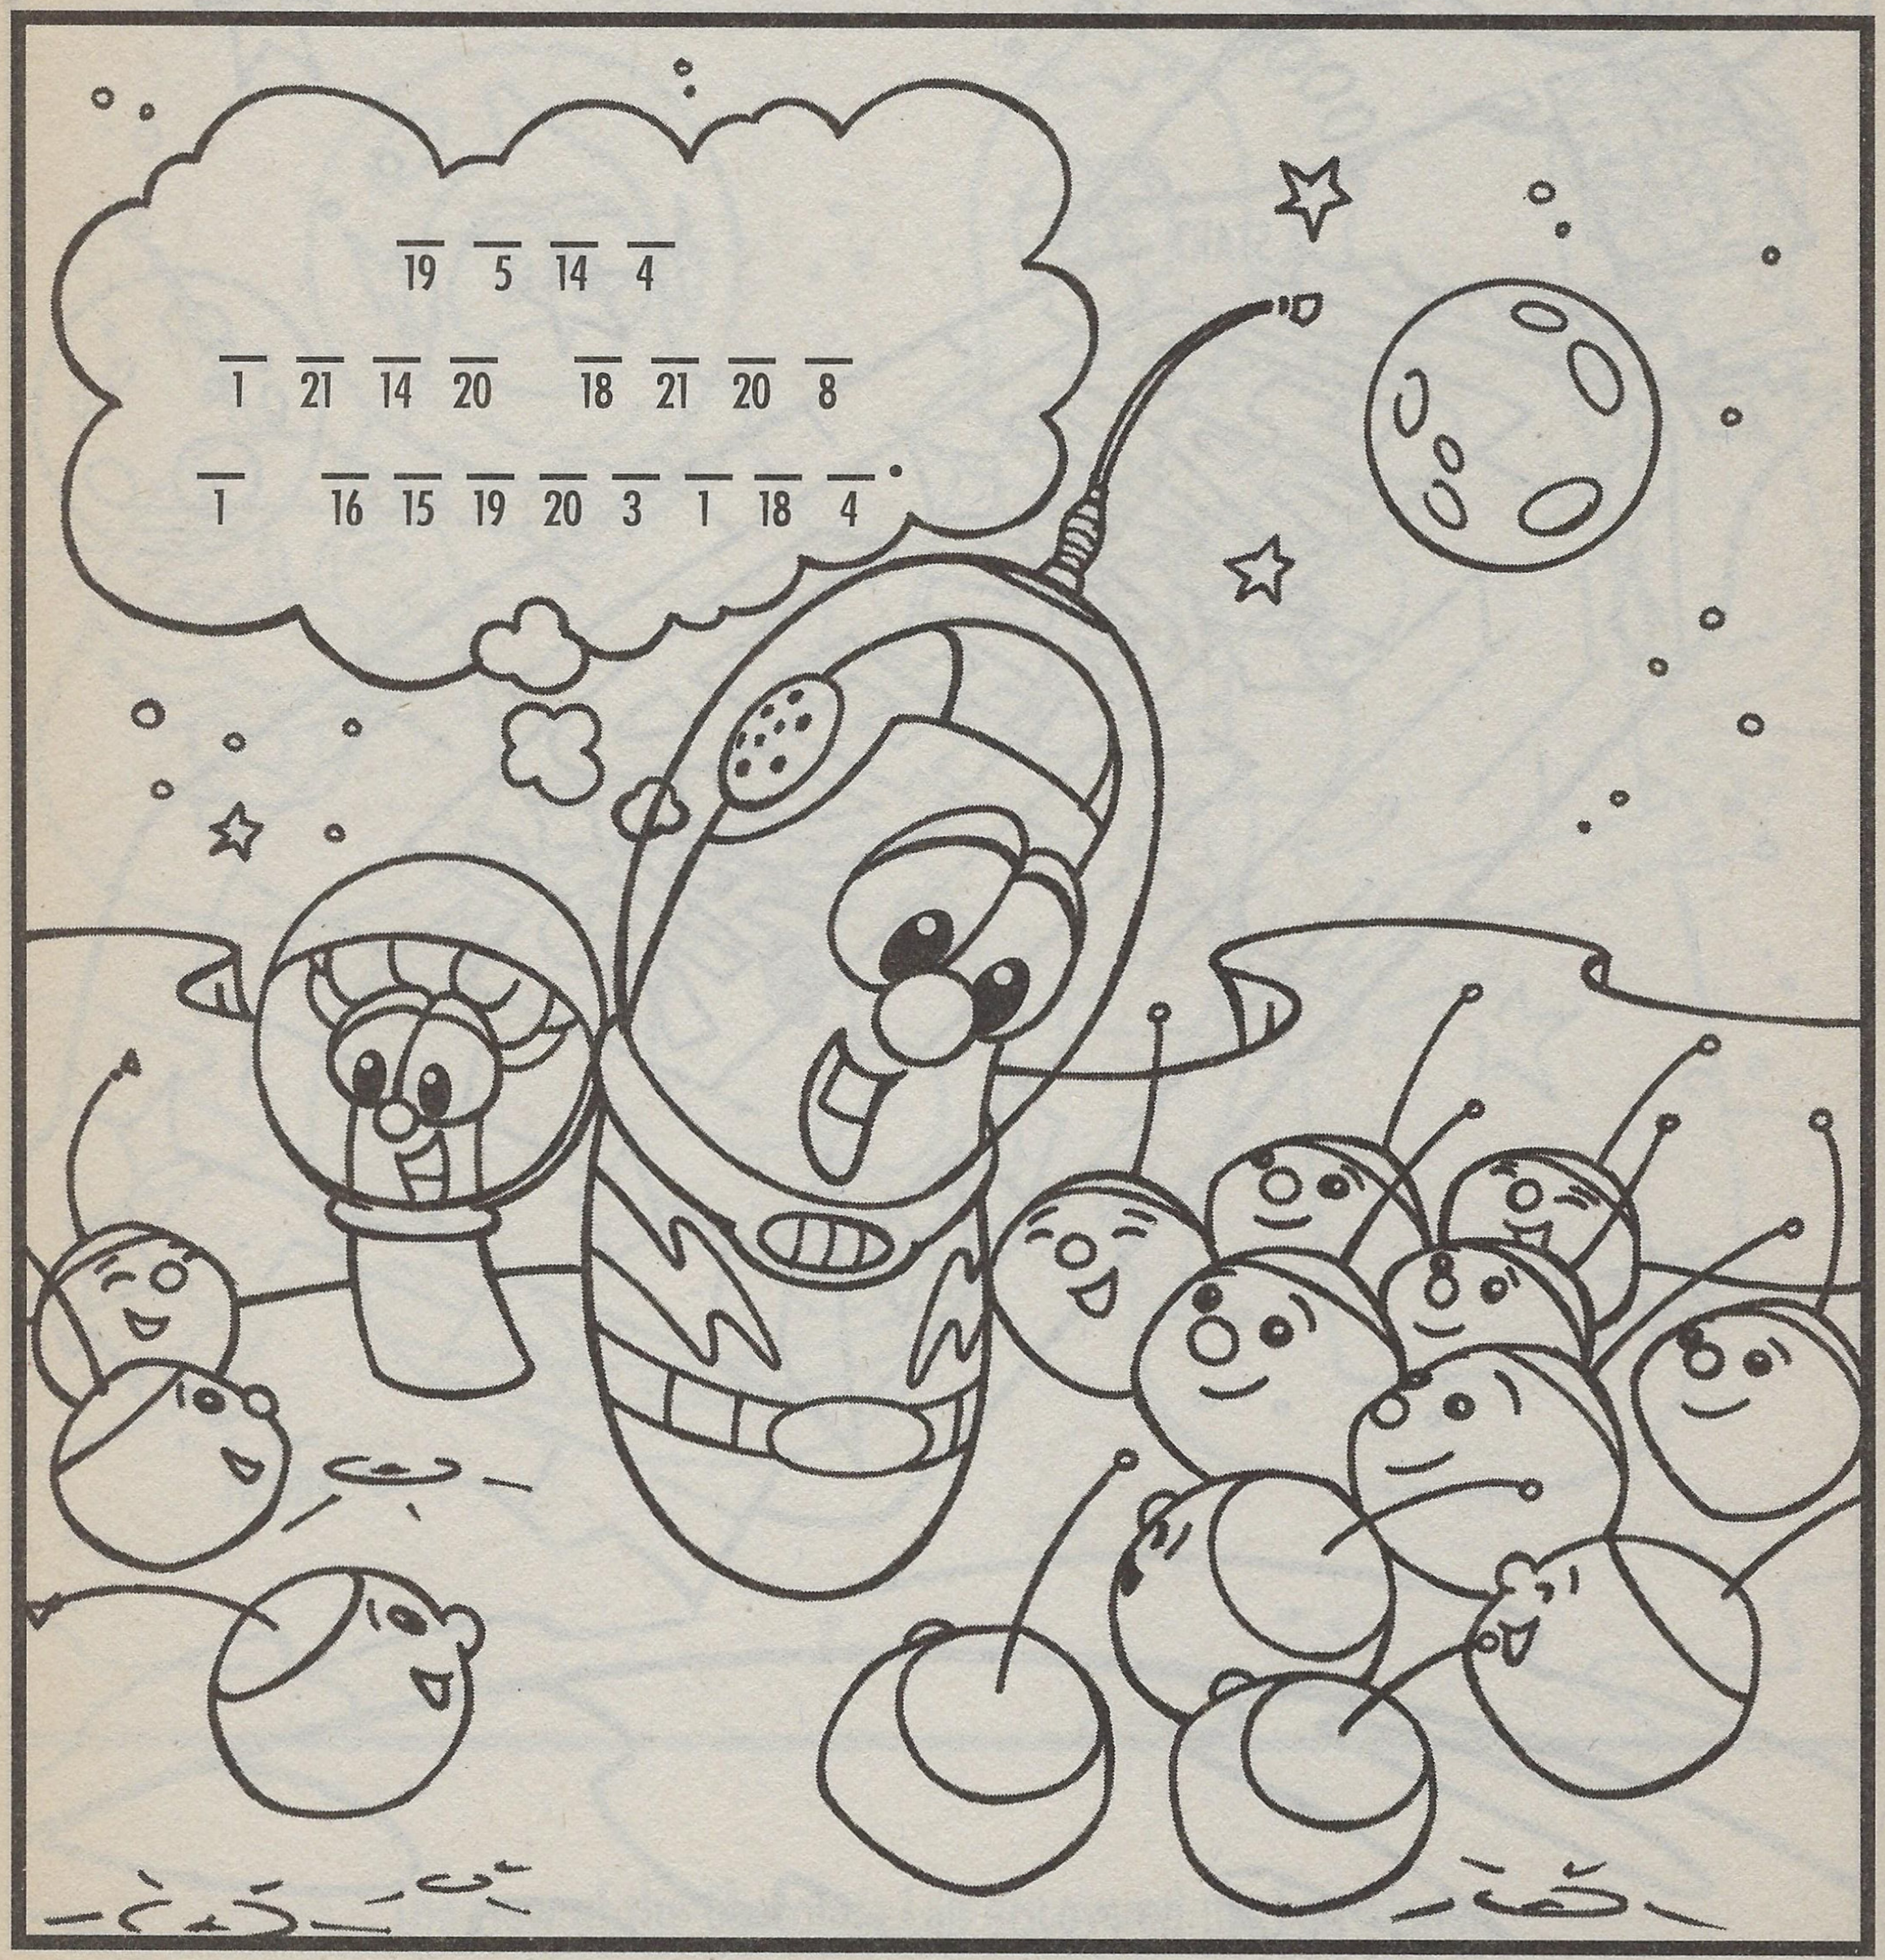
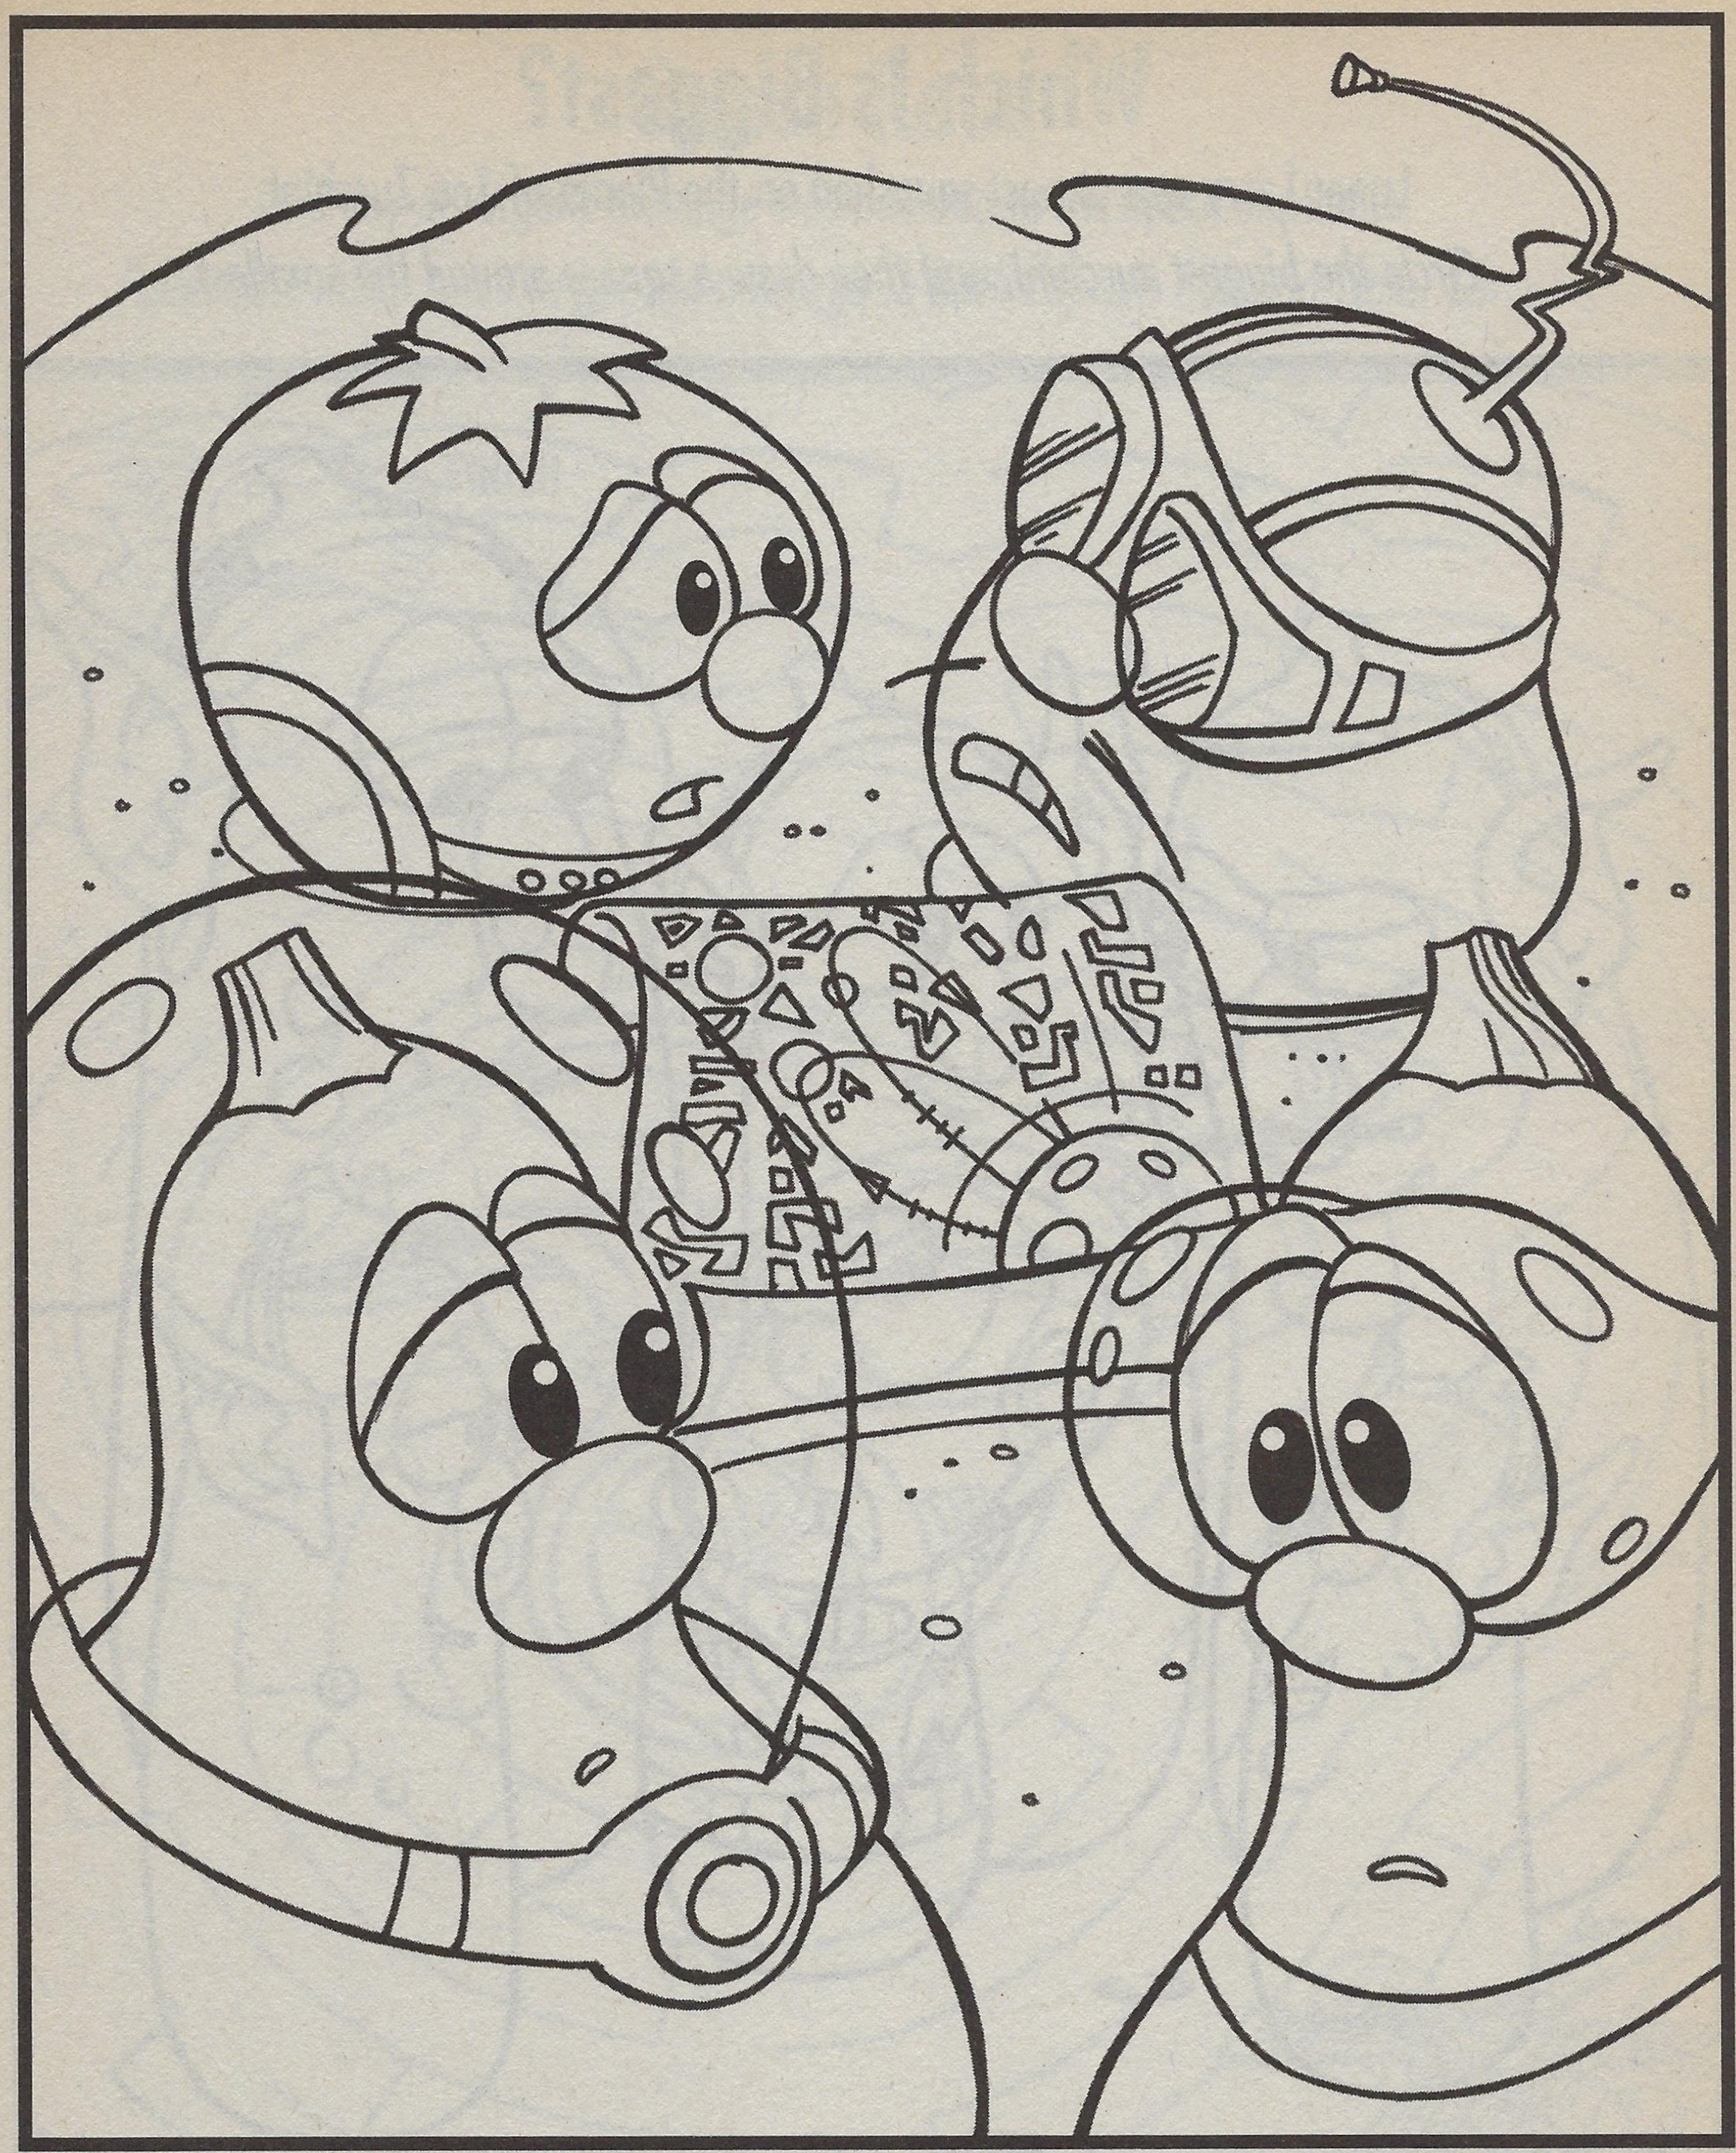
Break the Code

On this planet, Lunar Larry found tiny, green aliens that could read his mind.

Break the code to find out what Larry is thinking.

1-A, 2-B, 3-C, 4-D, 5-E, 6-F, 7-G, 8-H, 9-I, 10-J, 11-K, 12-L, 13-M,
14-N, 15-O, 16-P, 17-Q, 18-R, 19-S, 20-T, 21-U, 22-V, 23-W, 24-X, 25-Y, 26-Z





The crew of the Chocolate Lab stumbled upon a blue moon once, but couldn't find it again.

Which Is Biggest?

Lunar Larry was almost squashed on the Planet of Zoo Zucchini.

Circle the biggest zucchini, and then draw a square around the smallest.

Space Race

One day an urgent message was beamed to the space explorers.

Follow the maze twice to get the message to both Captain Bob and Lunar Larry.

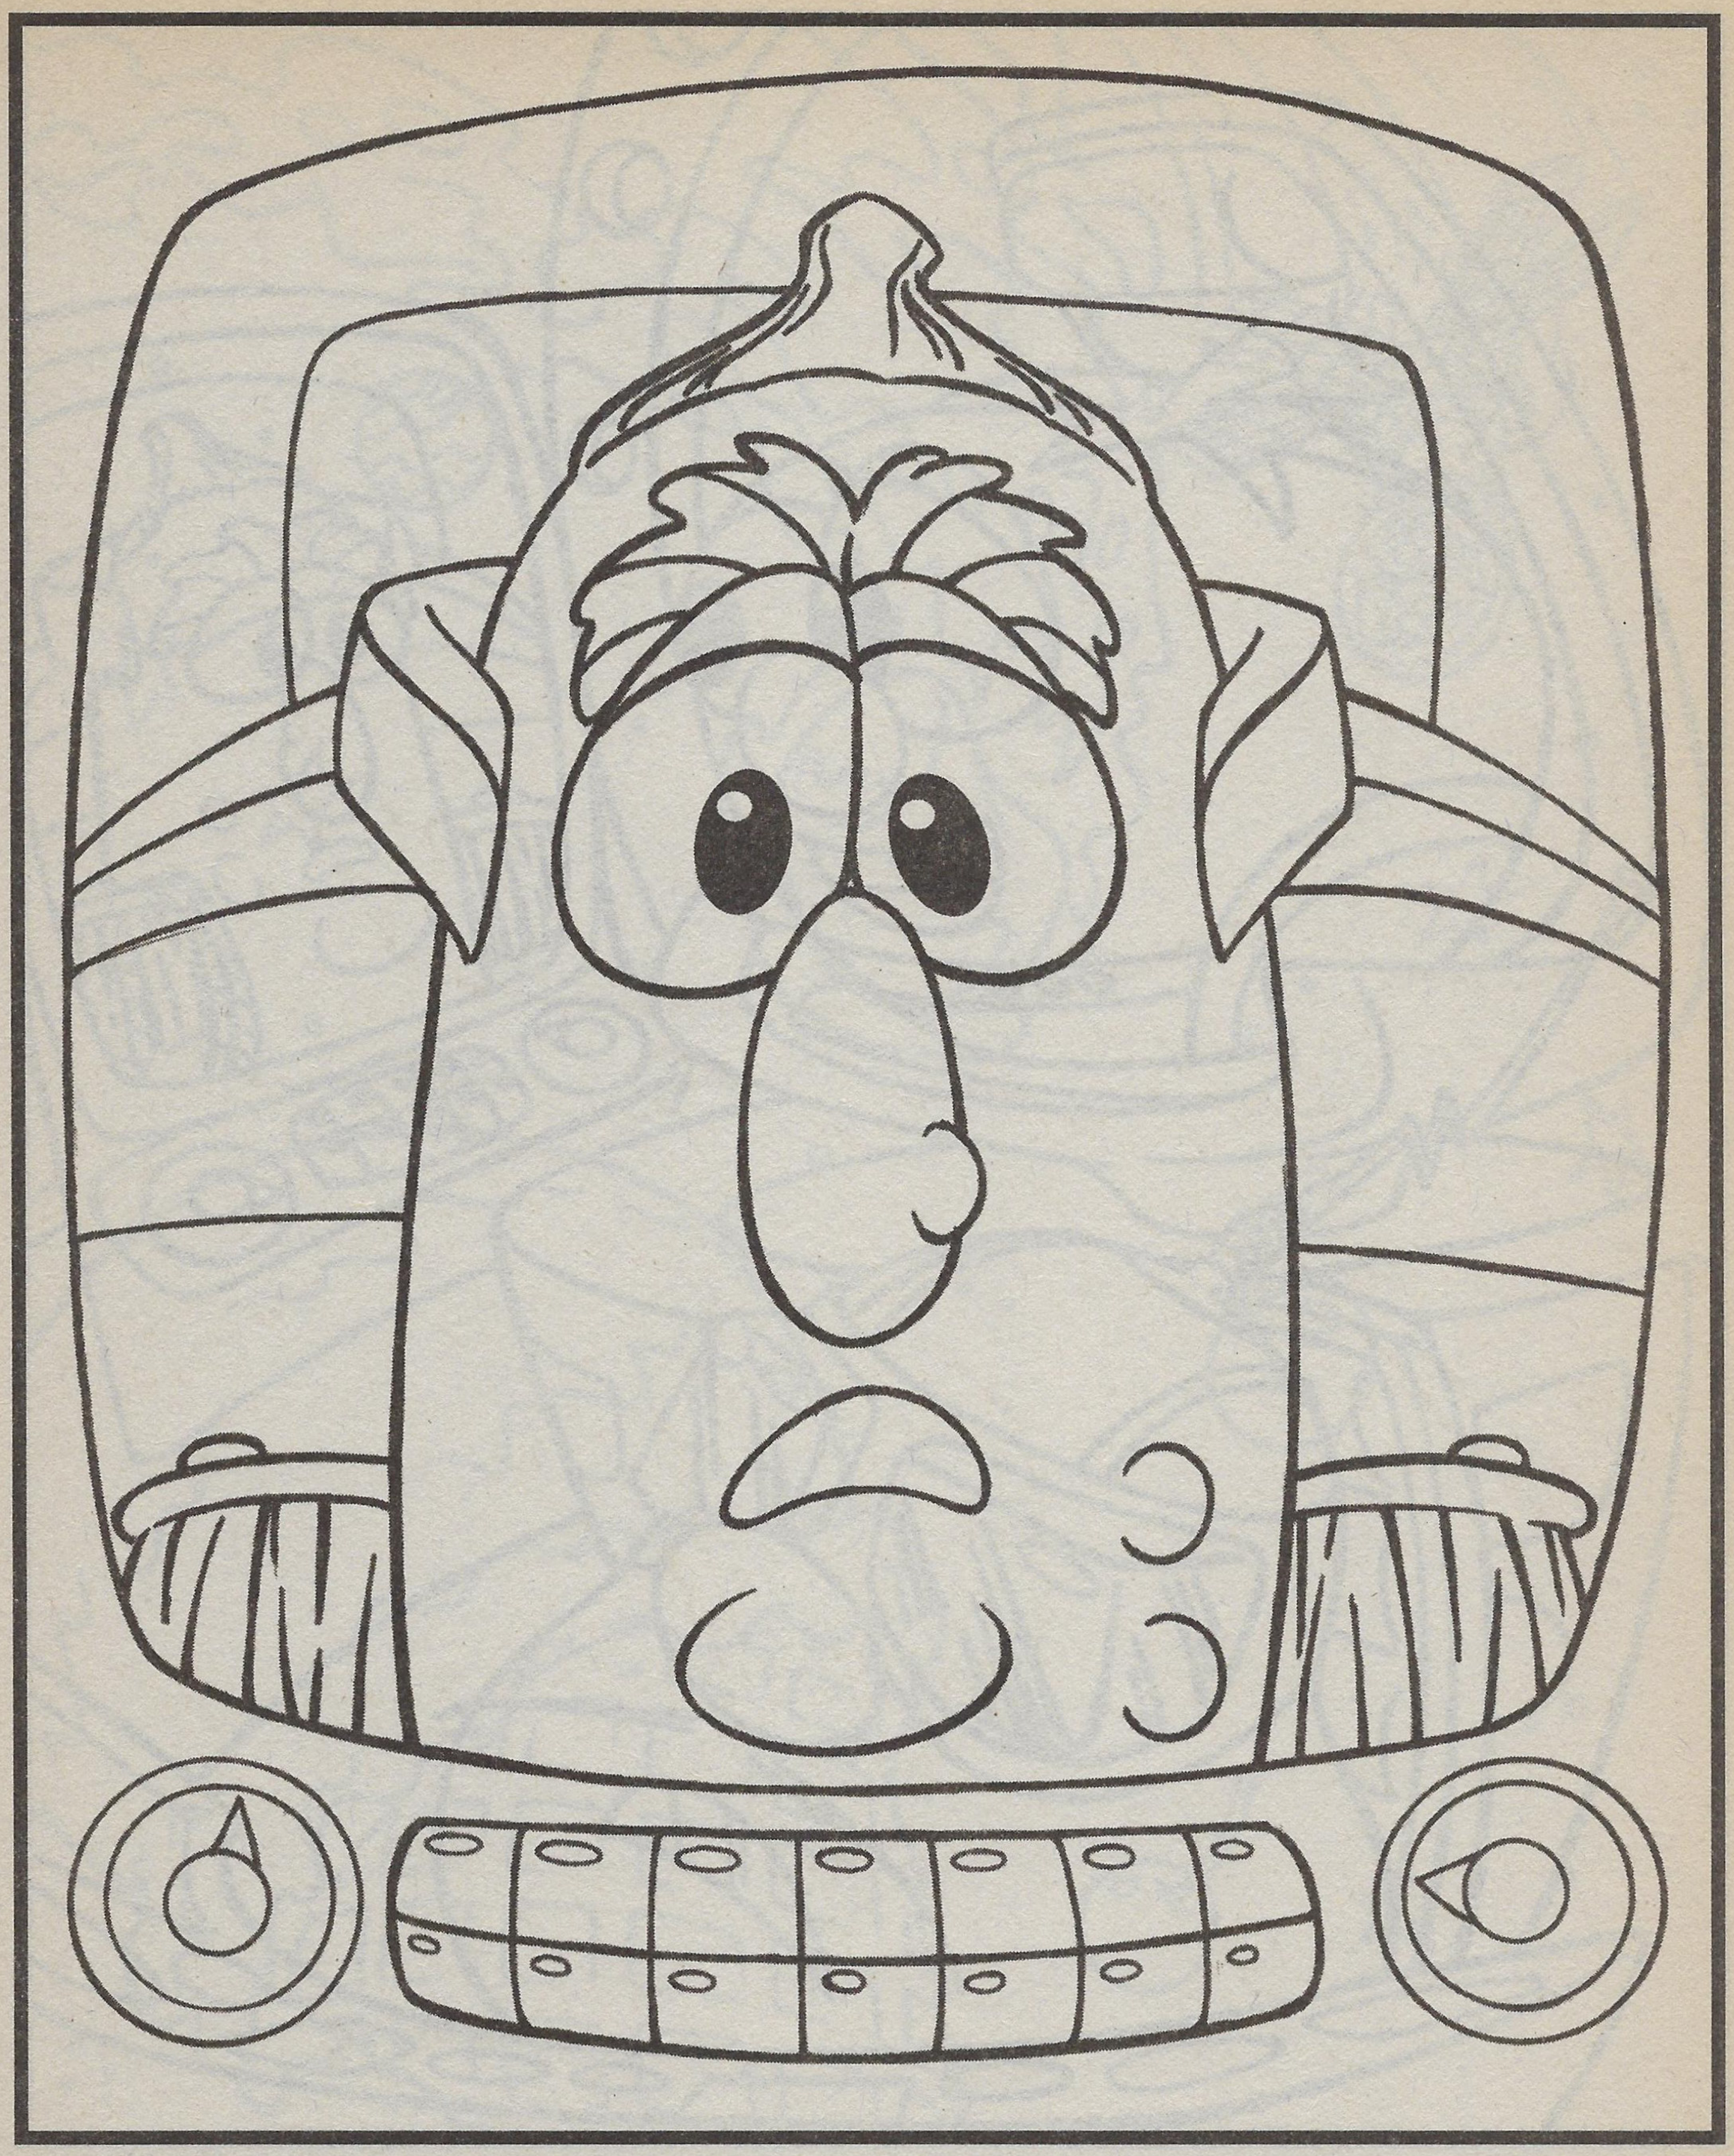
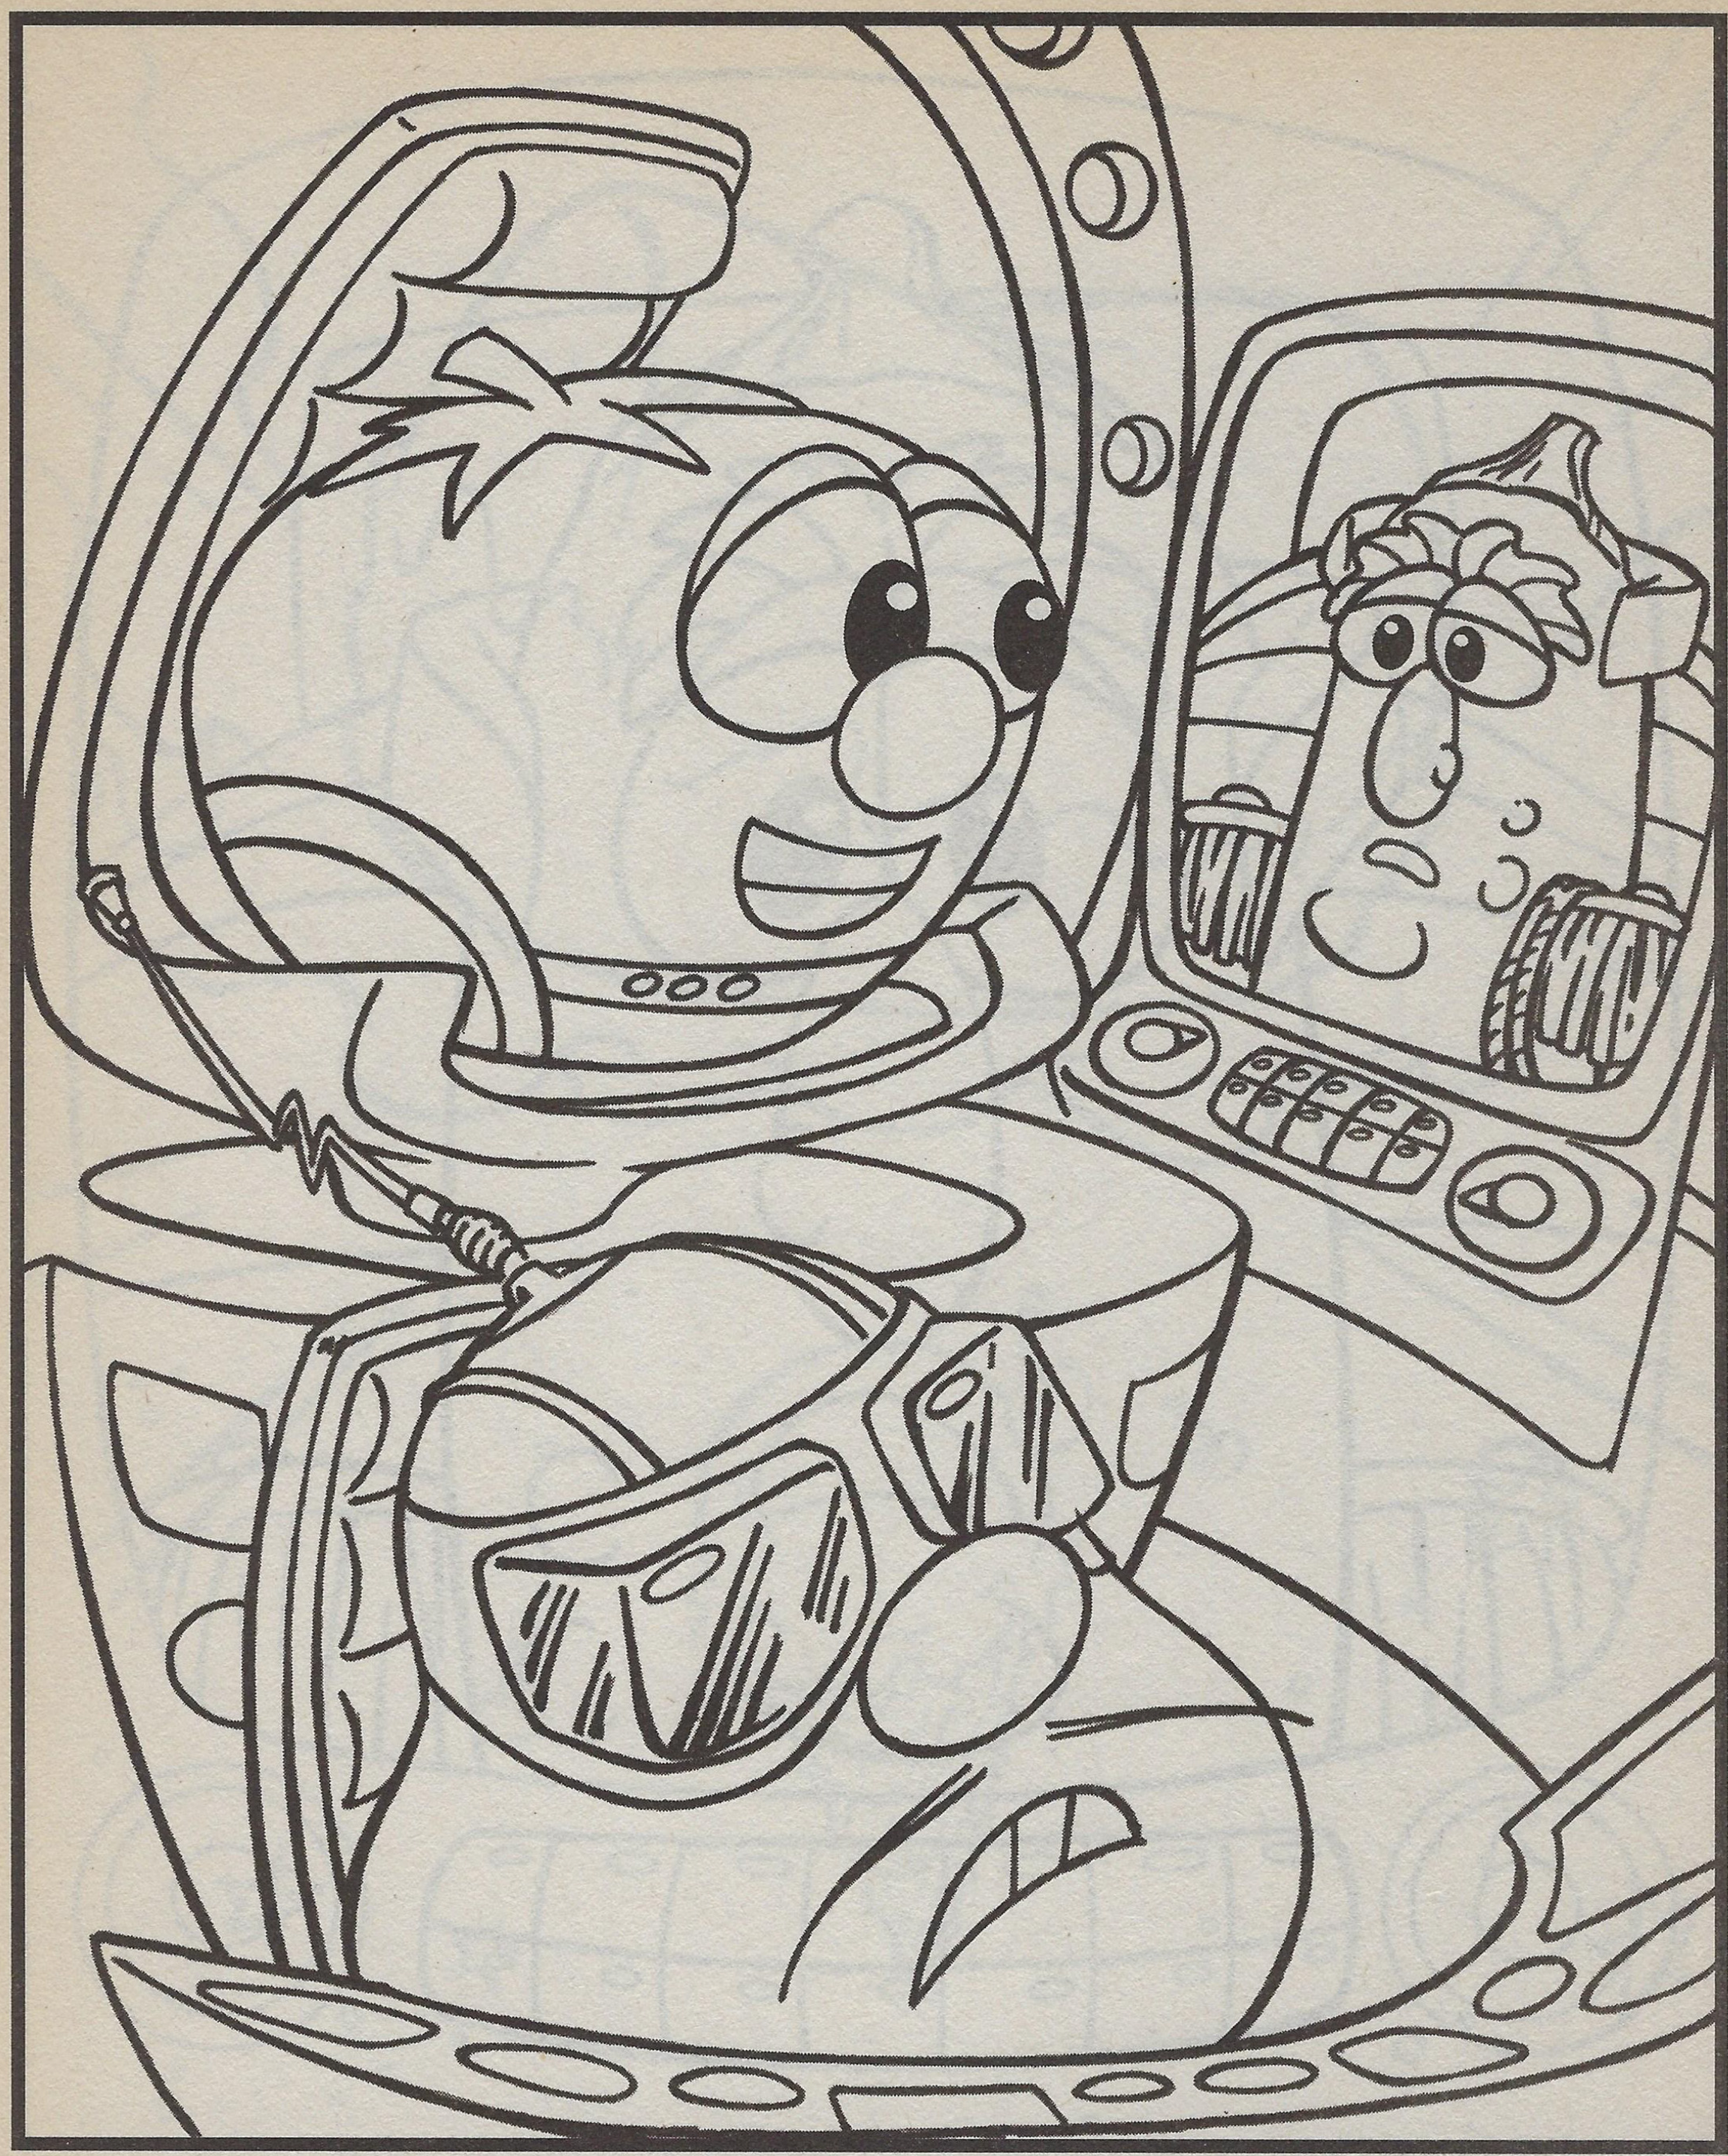
A giant marshmallow meteor was racing toward the tiny planet of Cone!

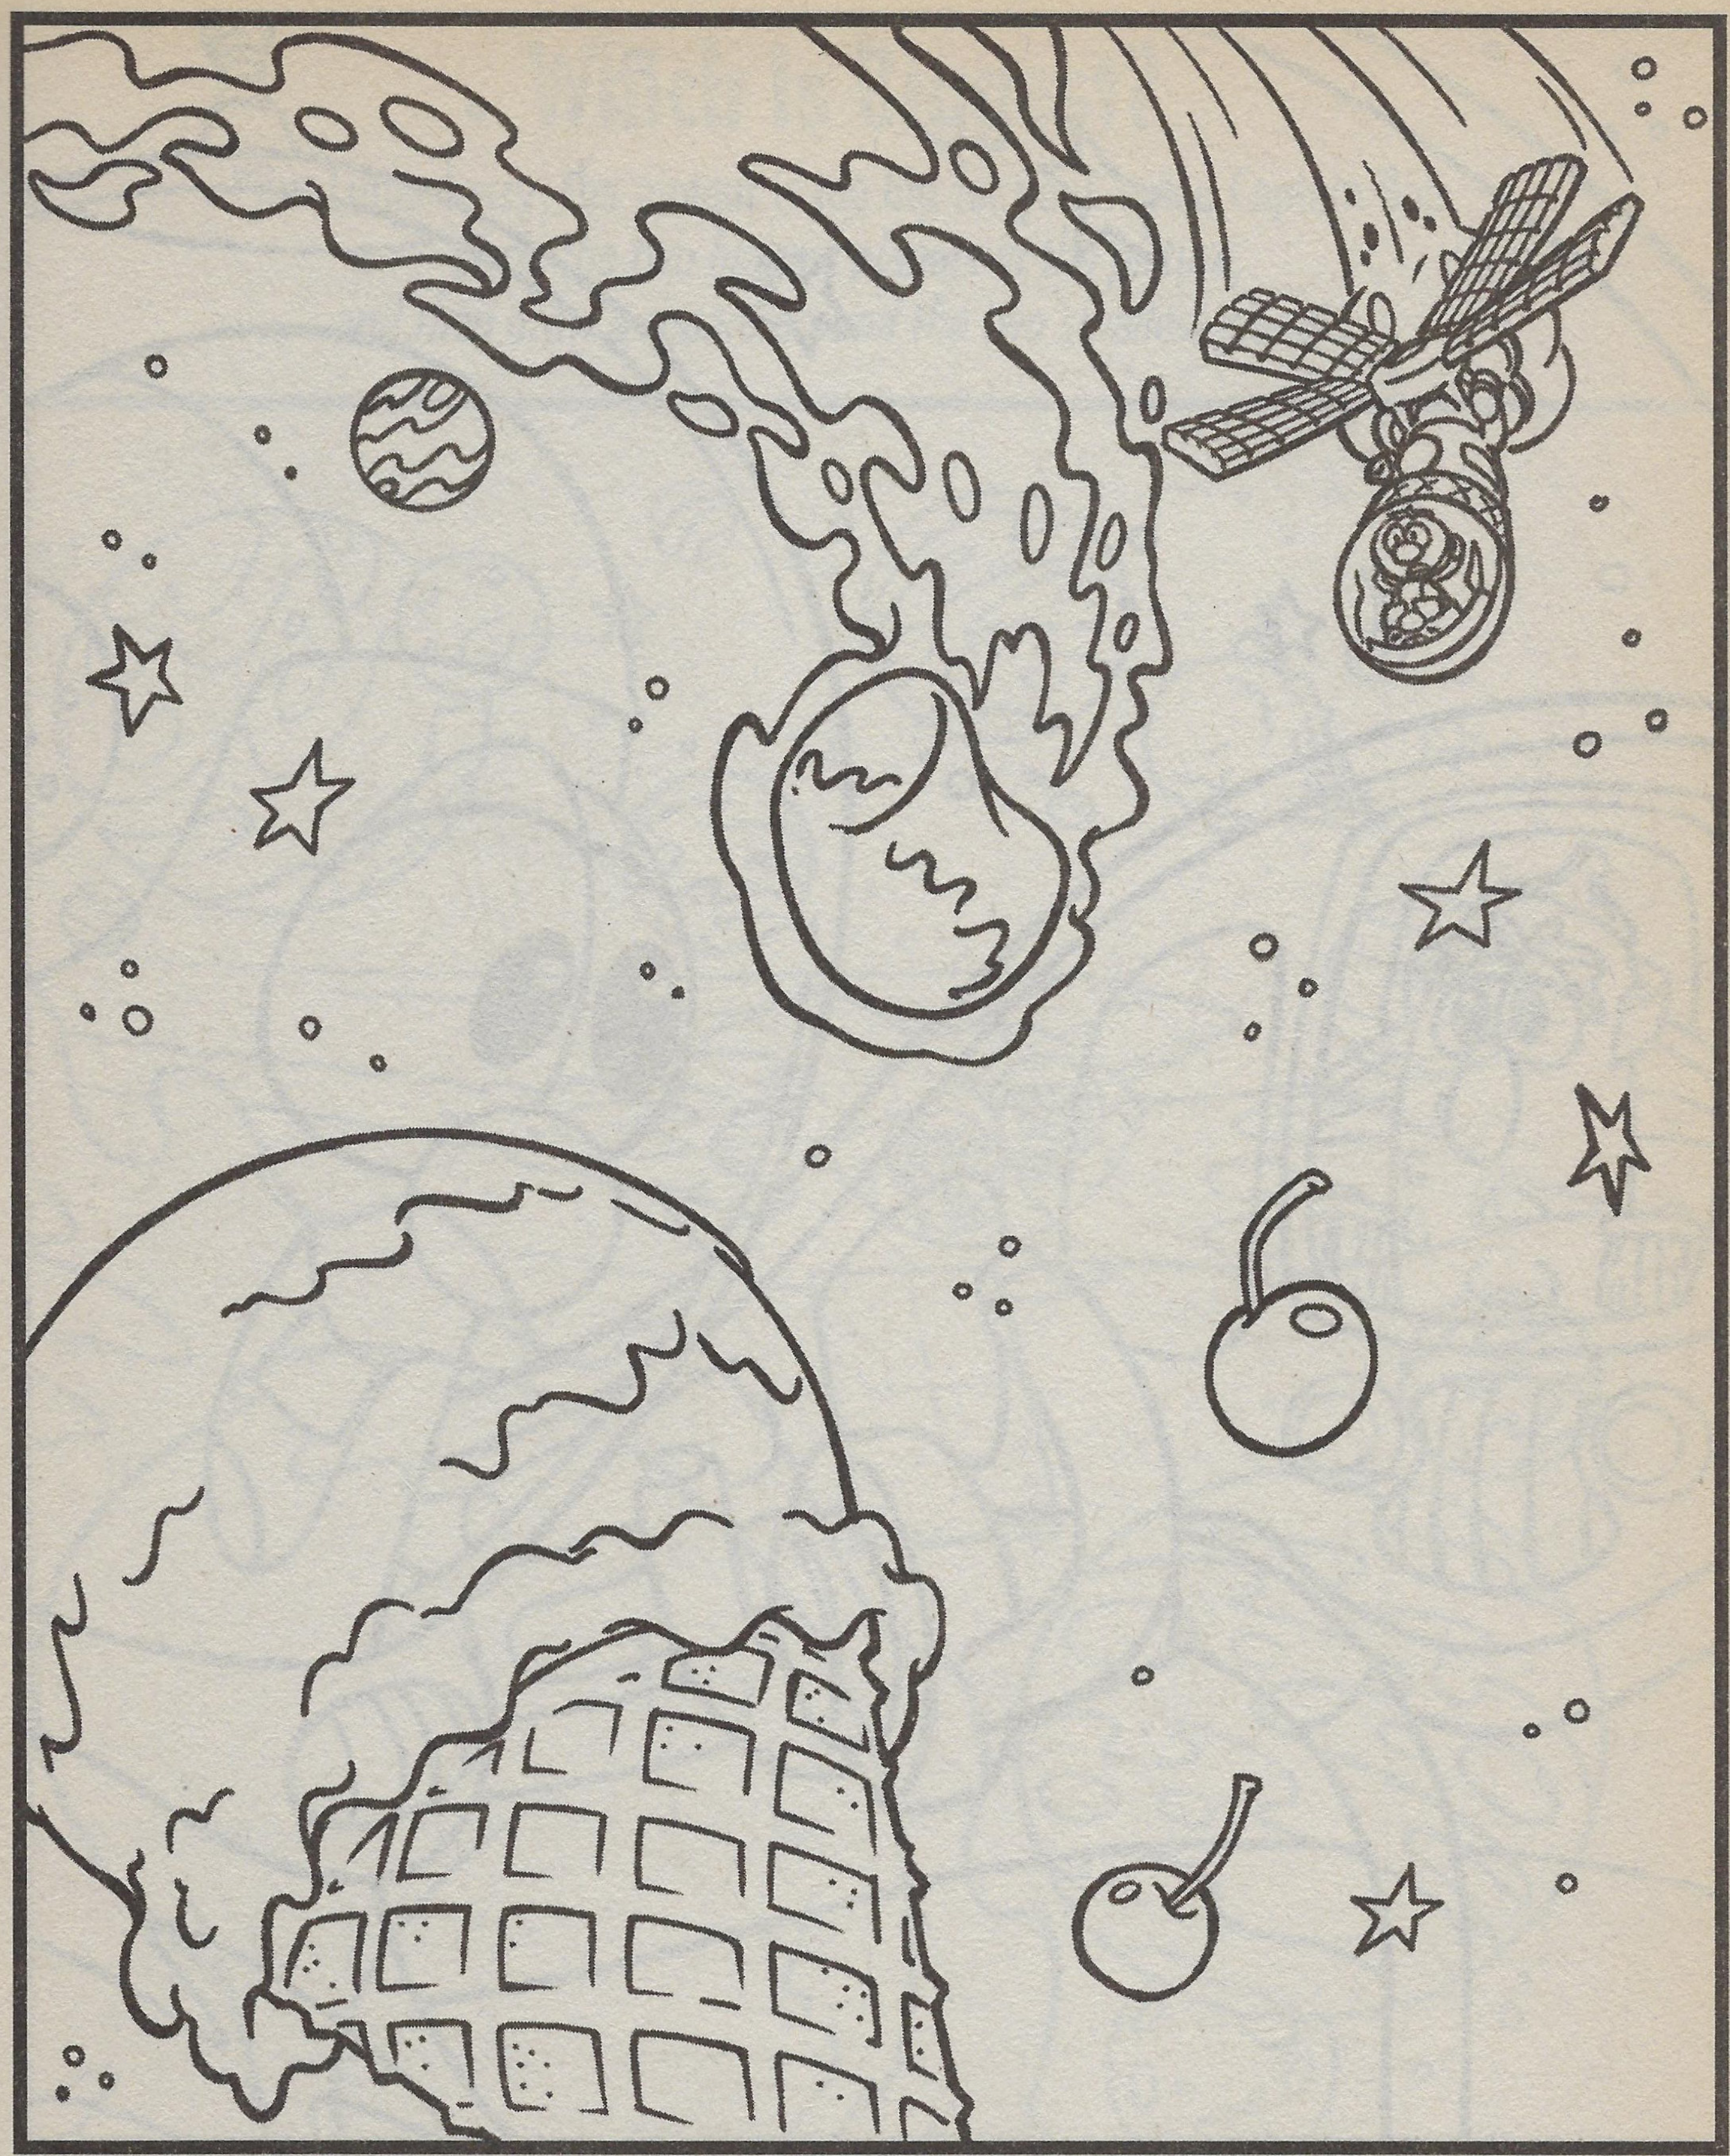


"If you don't stop the meteor, they'll be *scooped* . . . I mean, *DOOMED!*" shouted Admiral Nezzer.

© 2007 Big Idea, Inc.

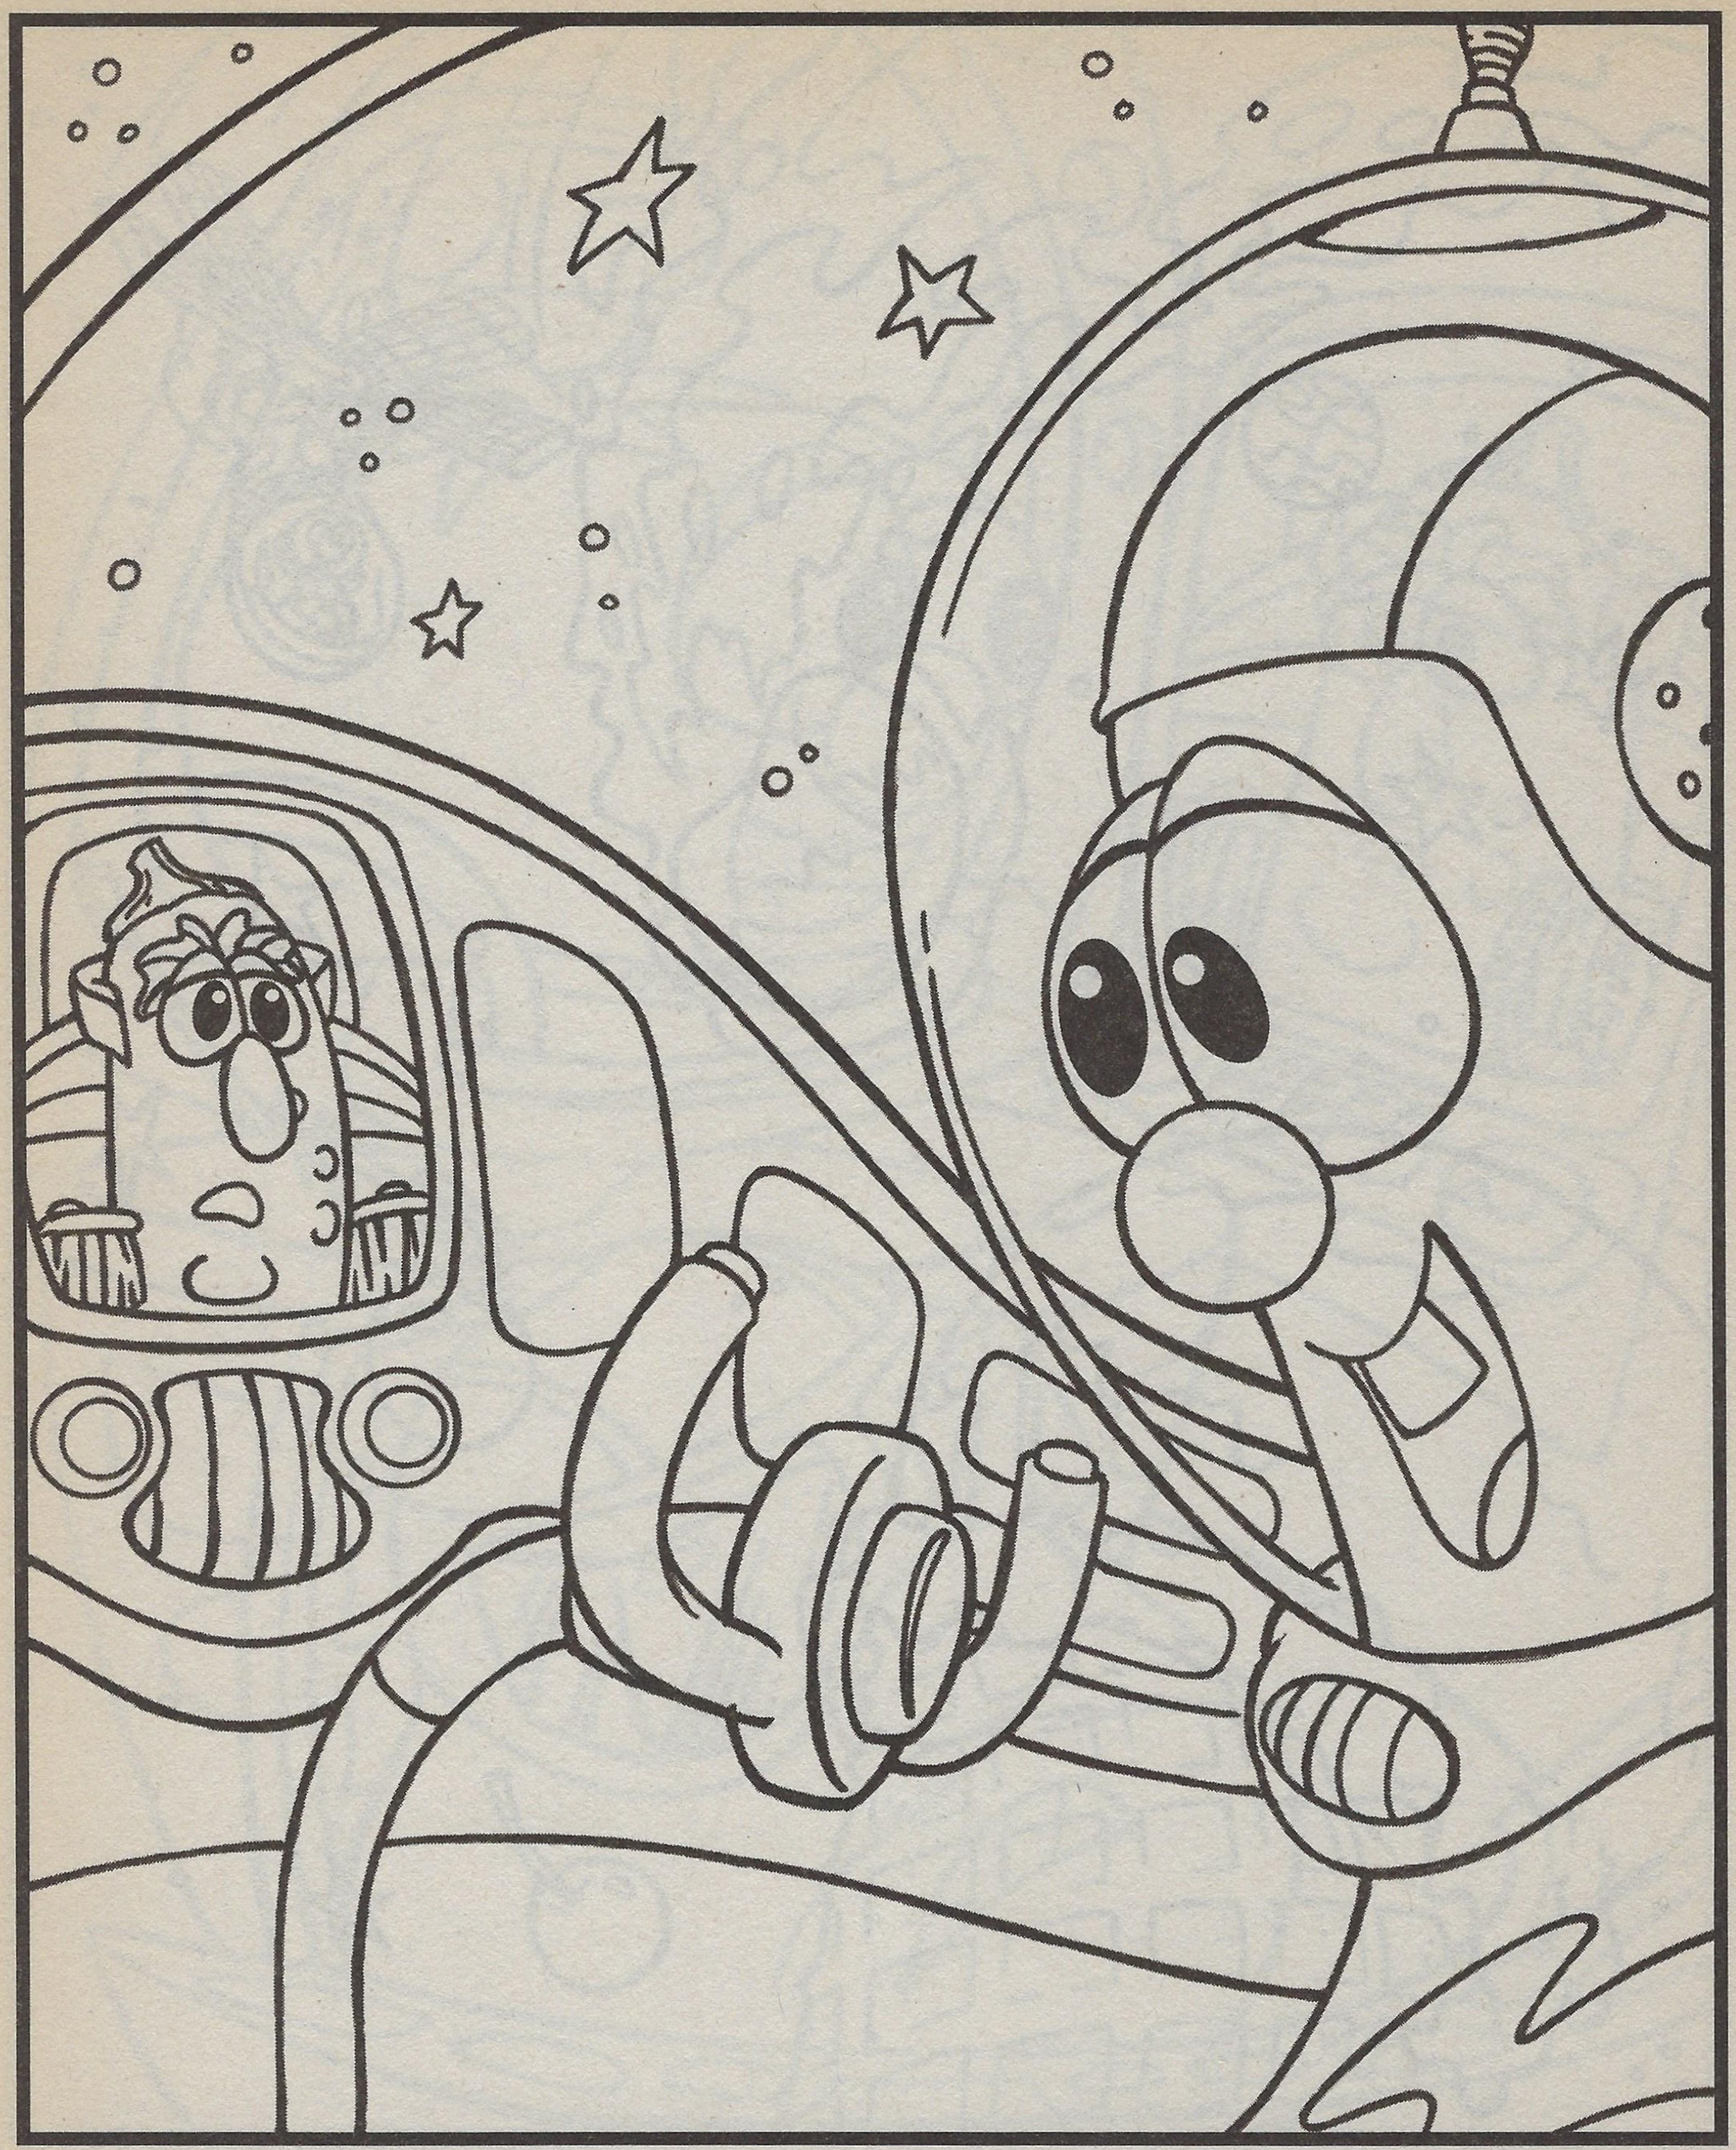


"Don't worry, Admiral Nezzer, I'll take care of it," said Captain Bob.
"Warp speed, Mr. Lunt!"



"We have a problem, Captain," replied Mr. Lunt.
"The meteor is too fast for our floating lab of chocolate!"

© 2007 Big Idea, Inc.



"Then I'll stop it!" offered Lunar Larry. "No flaming marshmallow is too fast for me."

Which Is Biggest?

"But Lunar Larry, the meteor is too big for you!" cried Captain Bob.
Circle the two biggest planets in the picture,
and then draw a square around the two smallest planets.

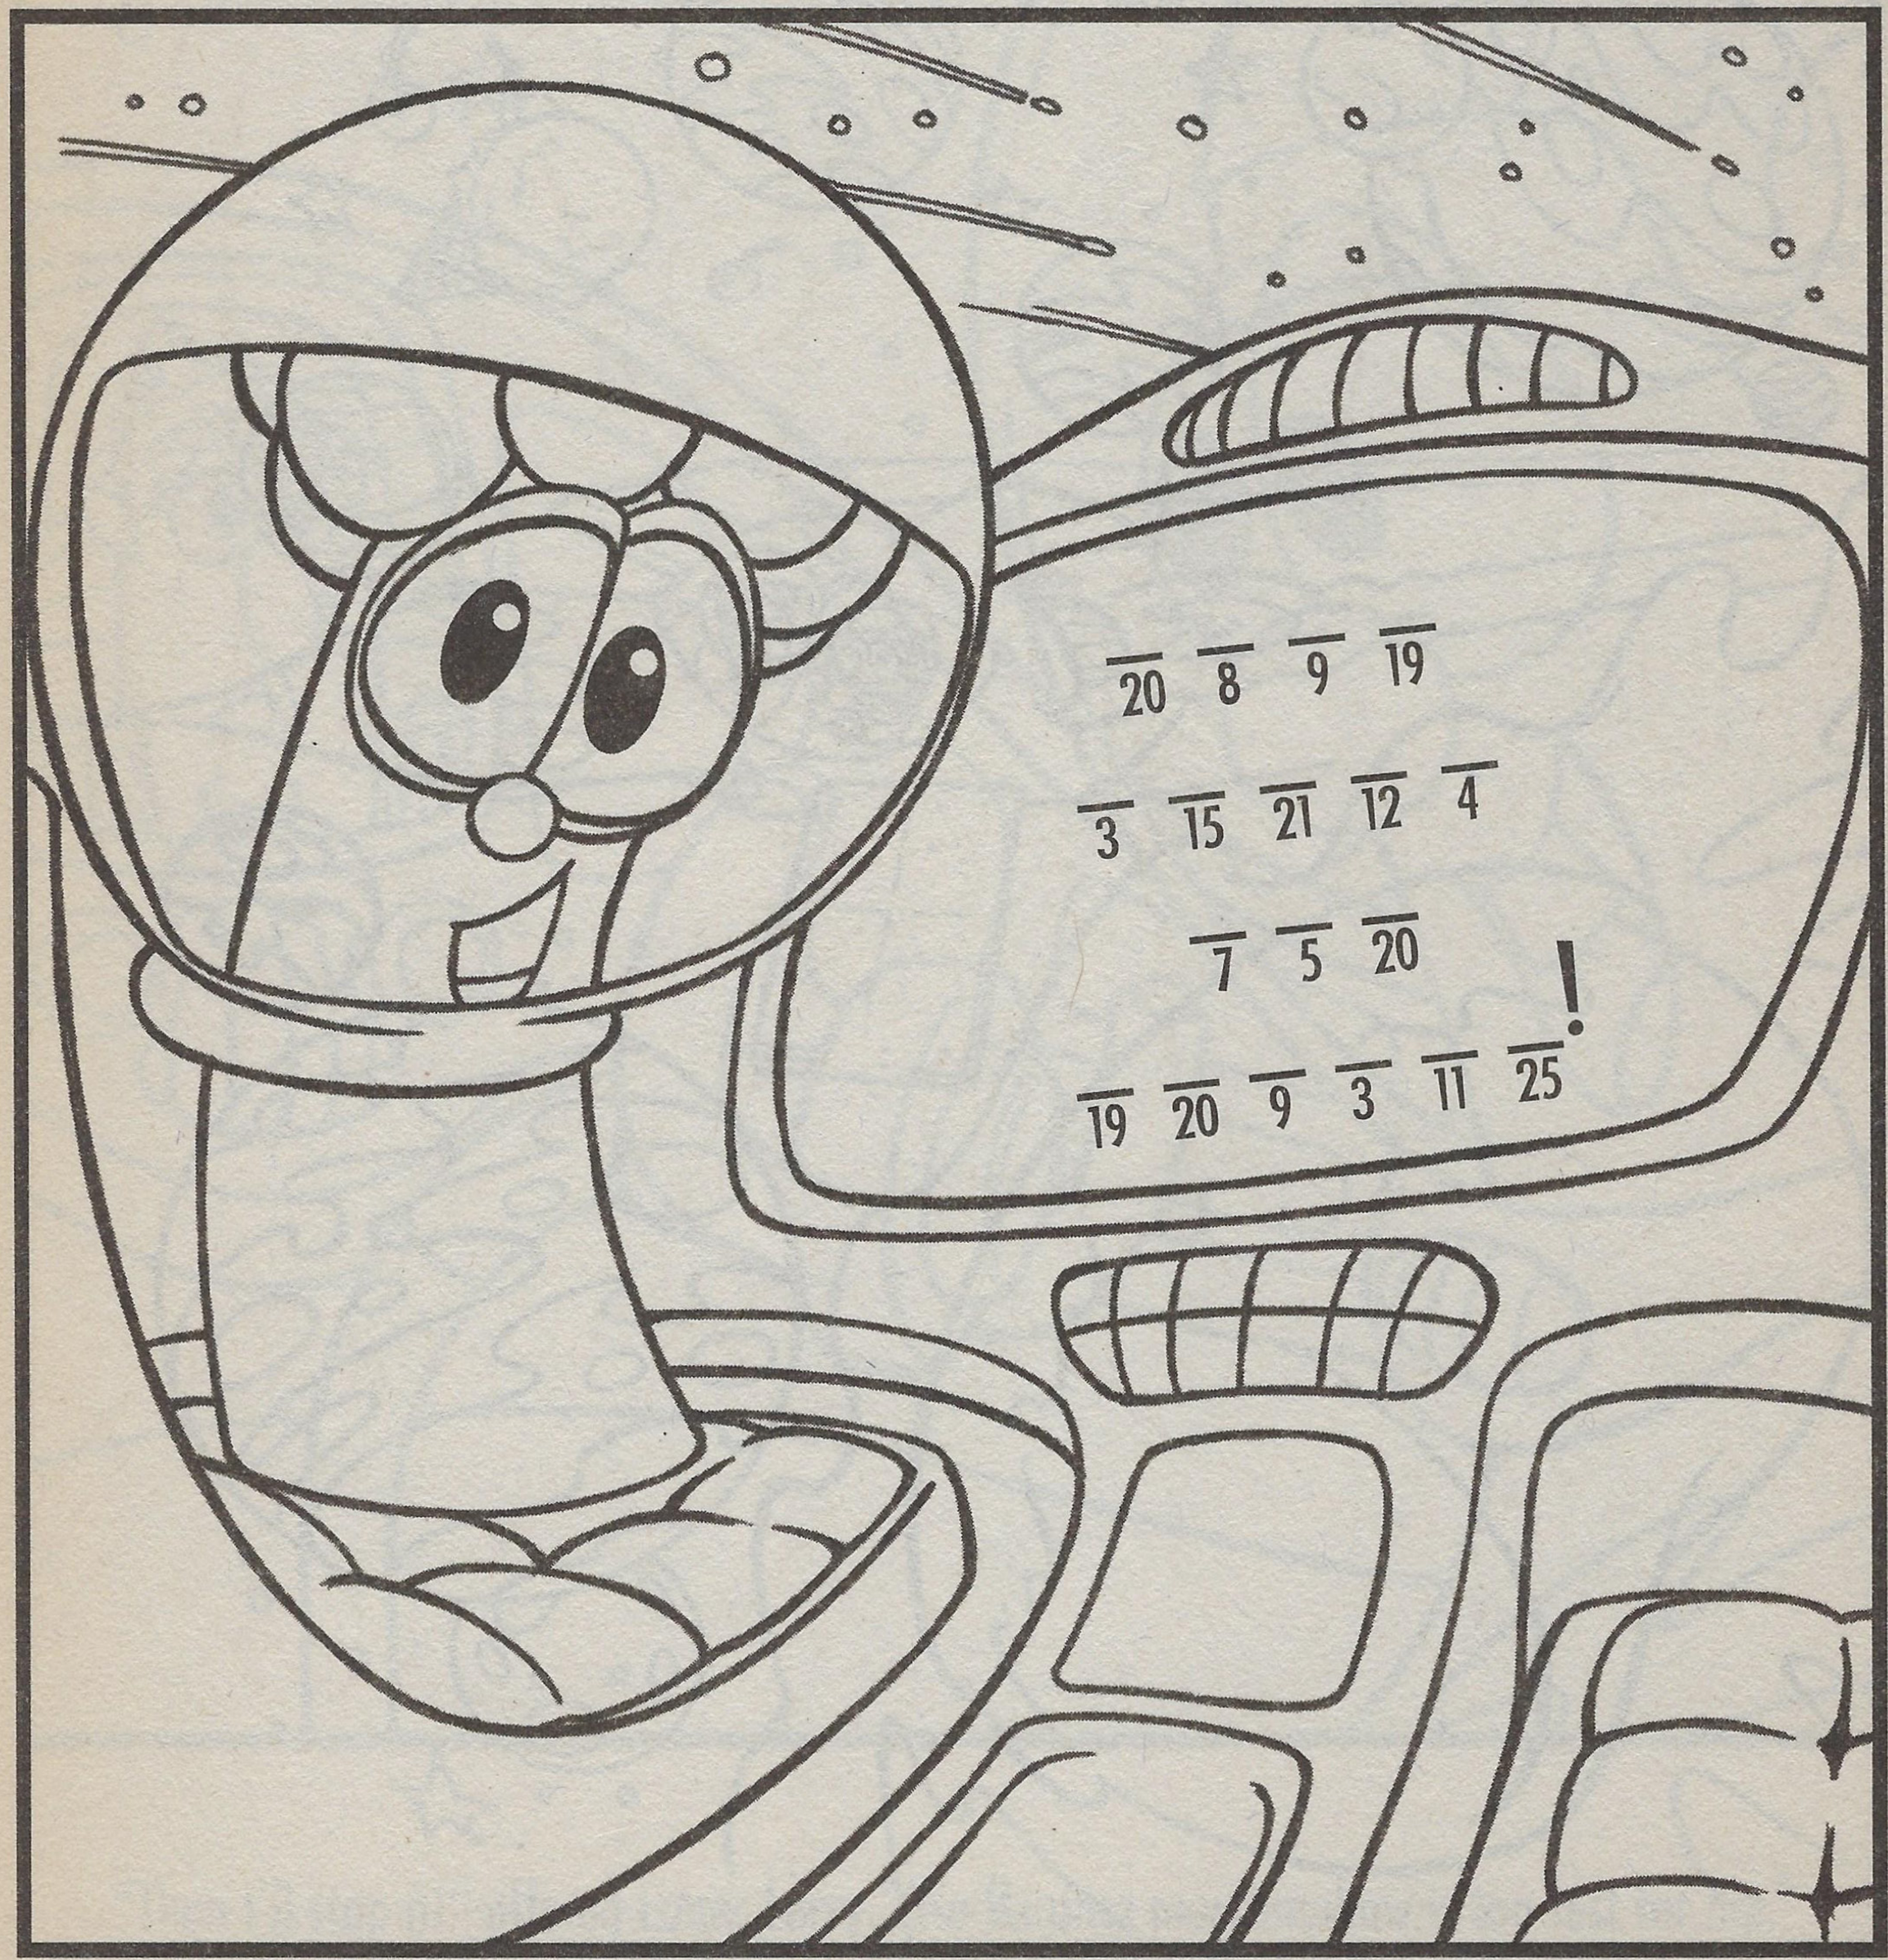
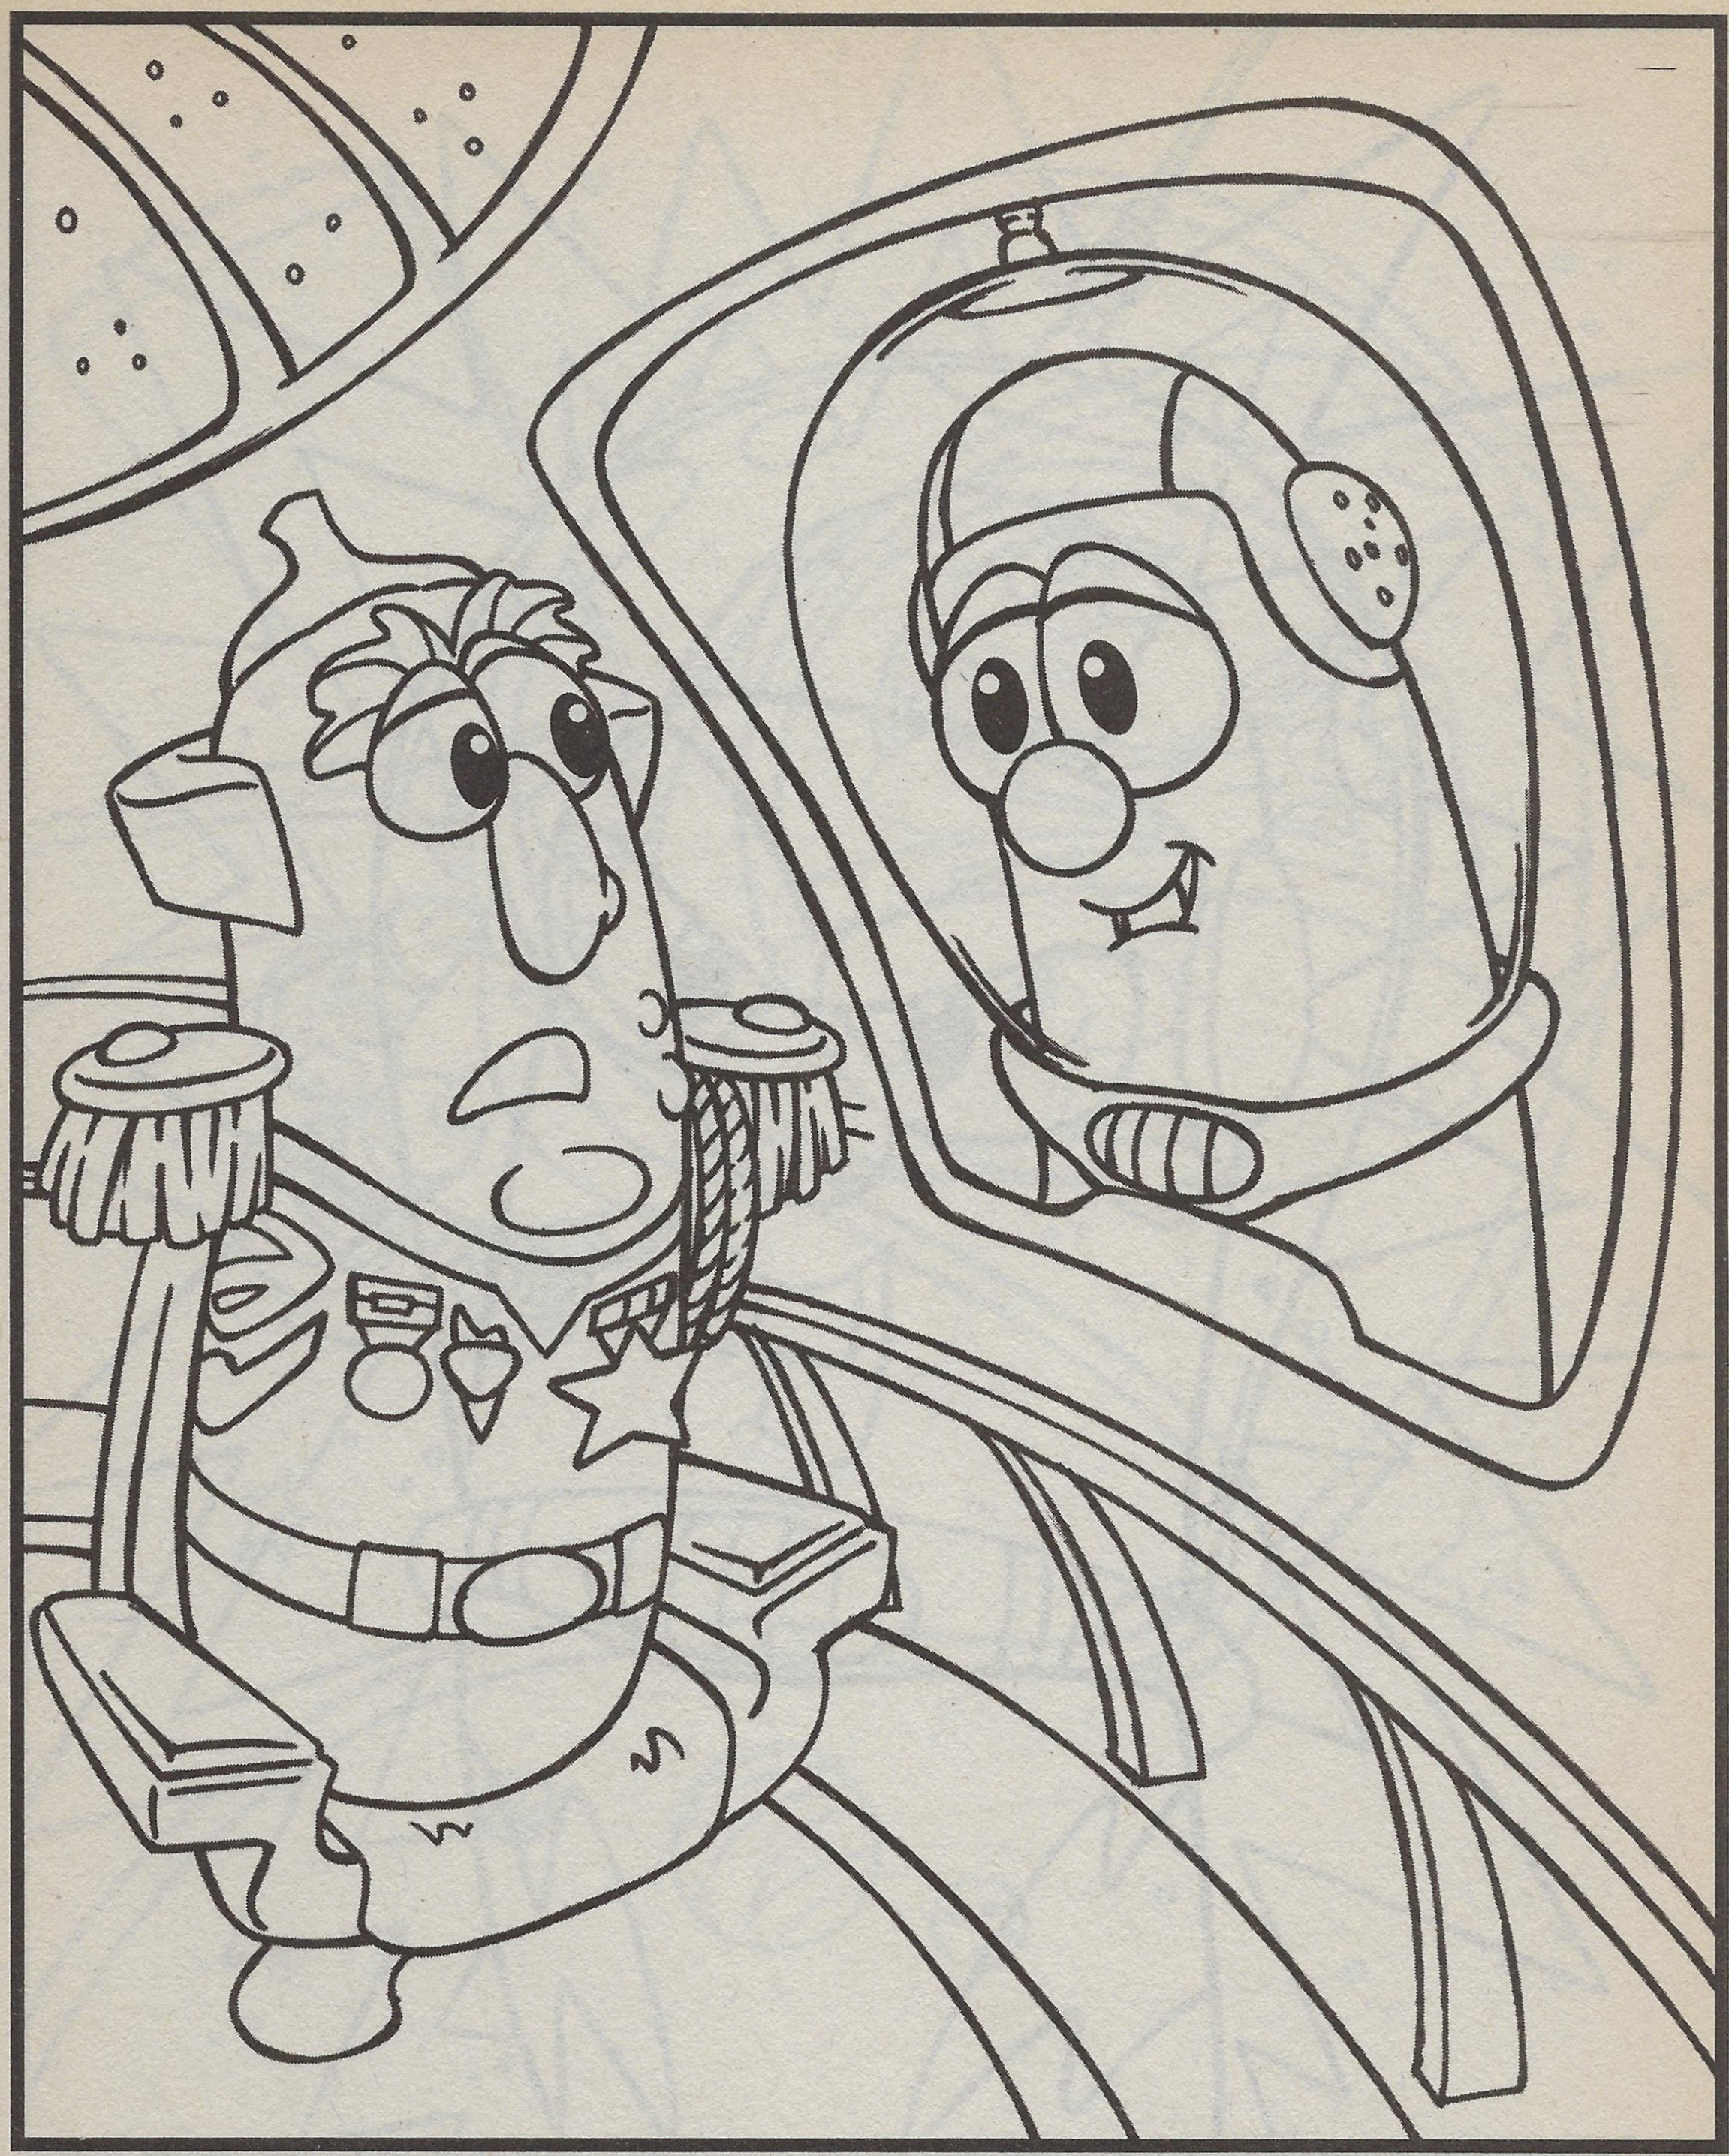
Break the Code

"Beep, beep, beep, BEEBEEP!"

Use the code key to see what the computer said to Cadet Asparagus.

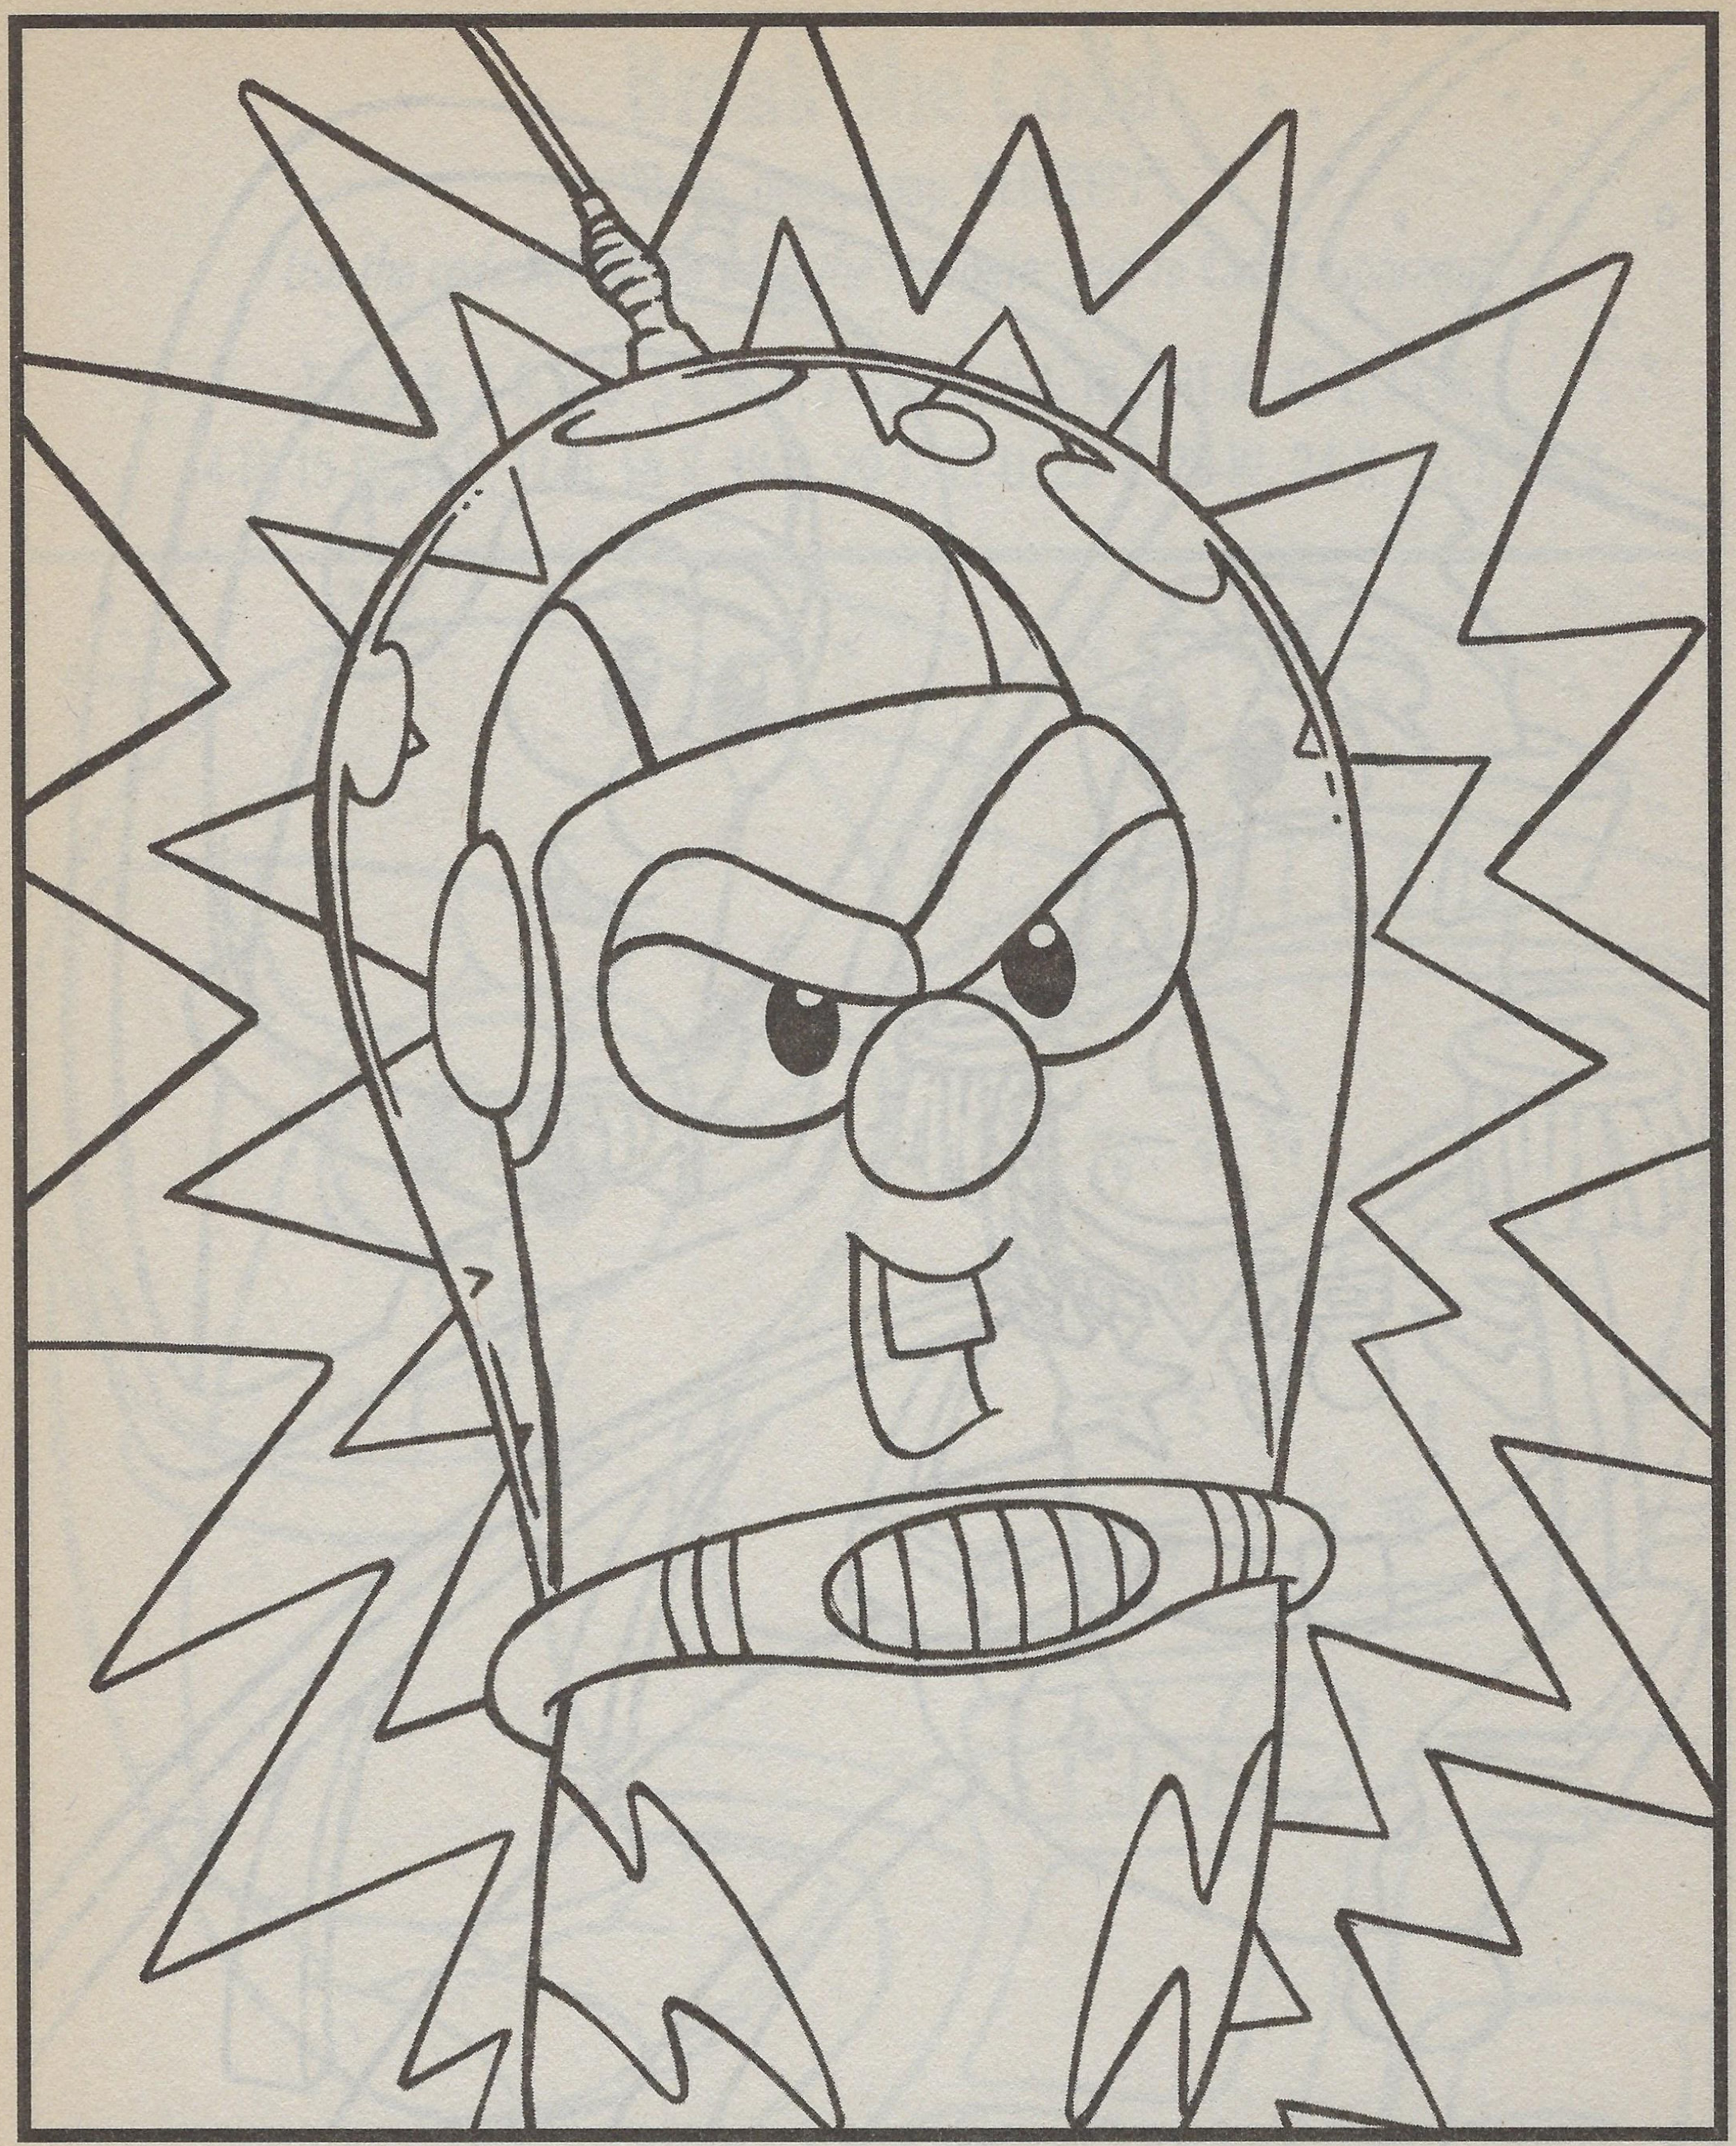
1-A, 2-B, 3-C, 4-D, 5-E, 6-F, 7-G, 8-H, 9-I, 10-J, 11-K, 12-L, 13-M,
14-N, 15-O, 16-P, 17-Q, 18-R, 19-S, 20-T, 21-U, 22-V, 23-W, 24-X, 25-Y, 26-Z



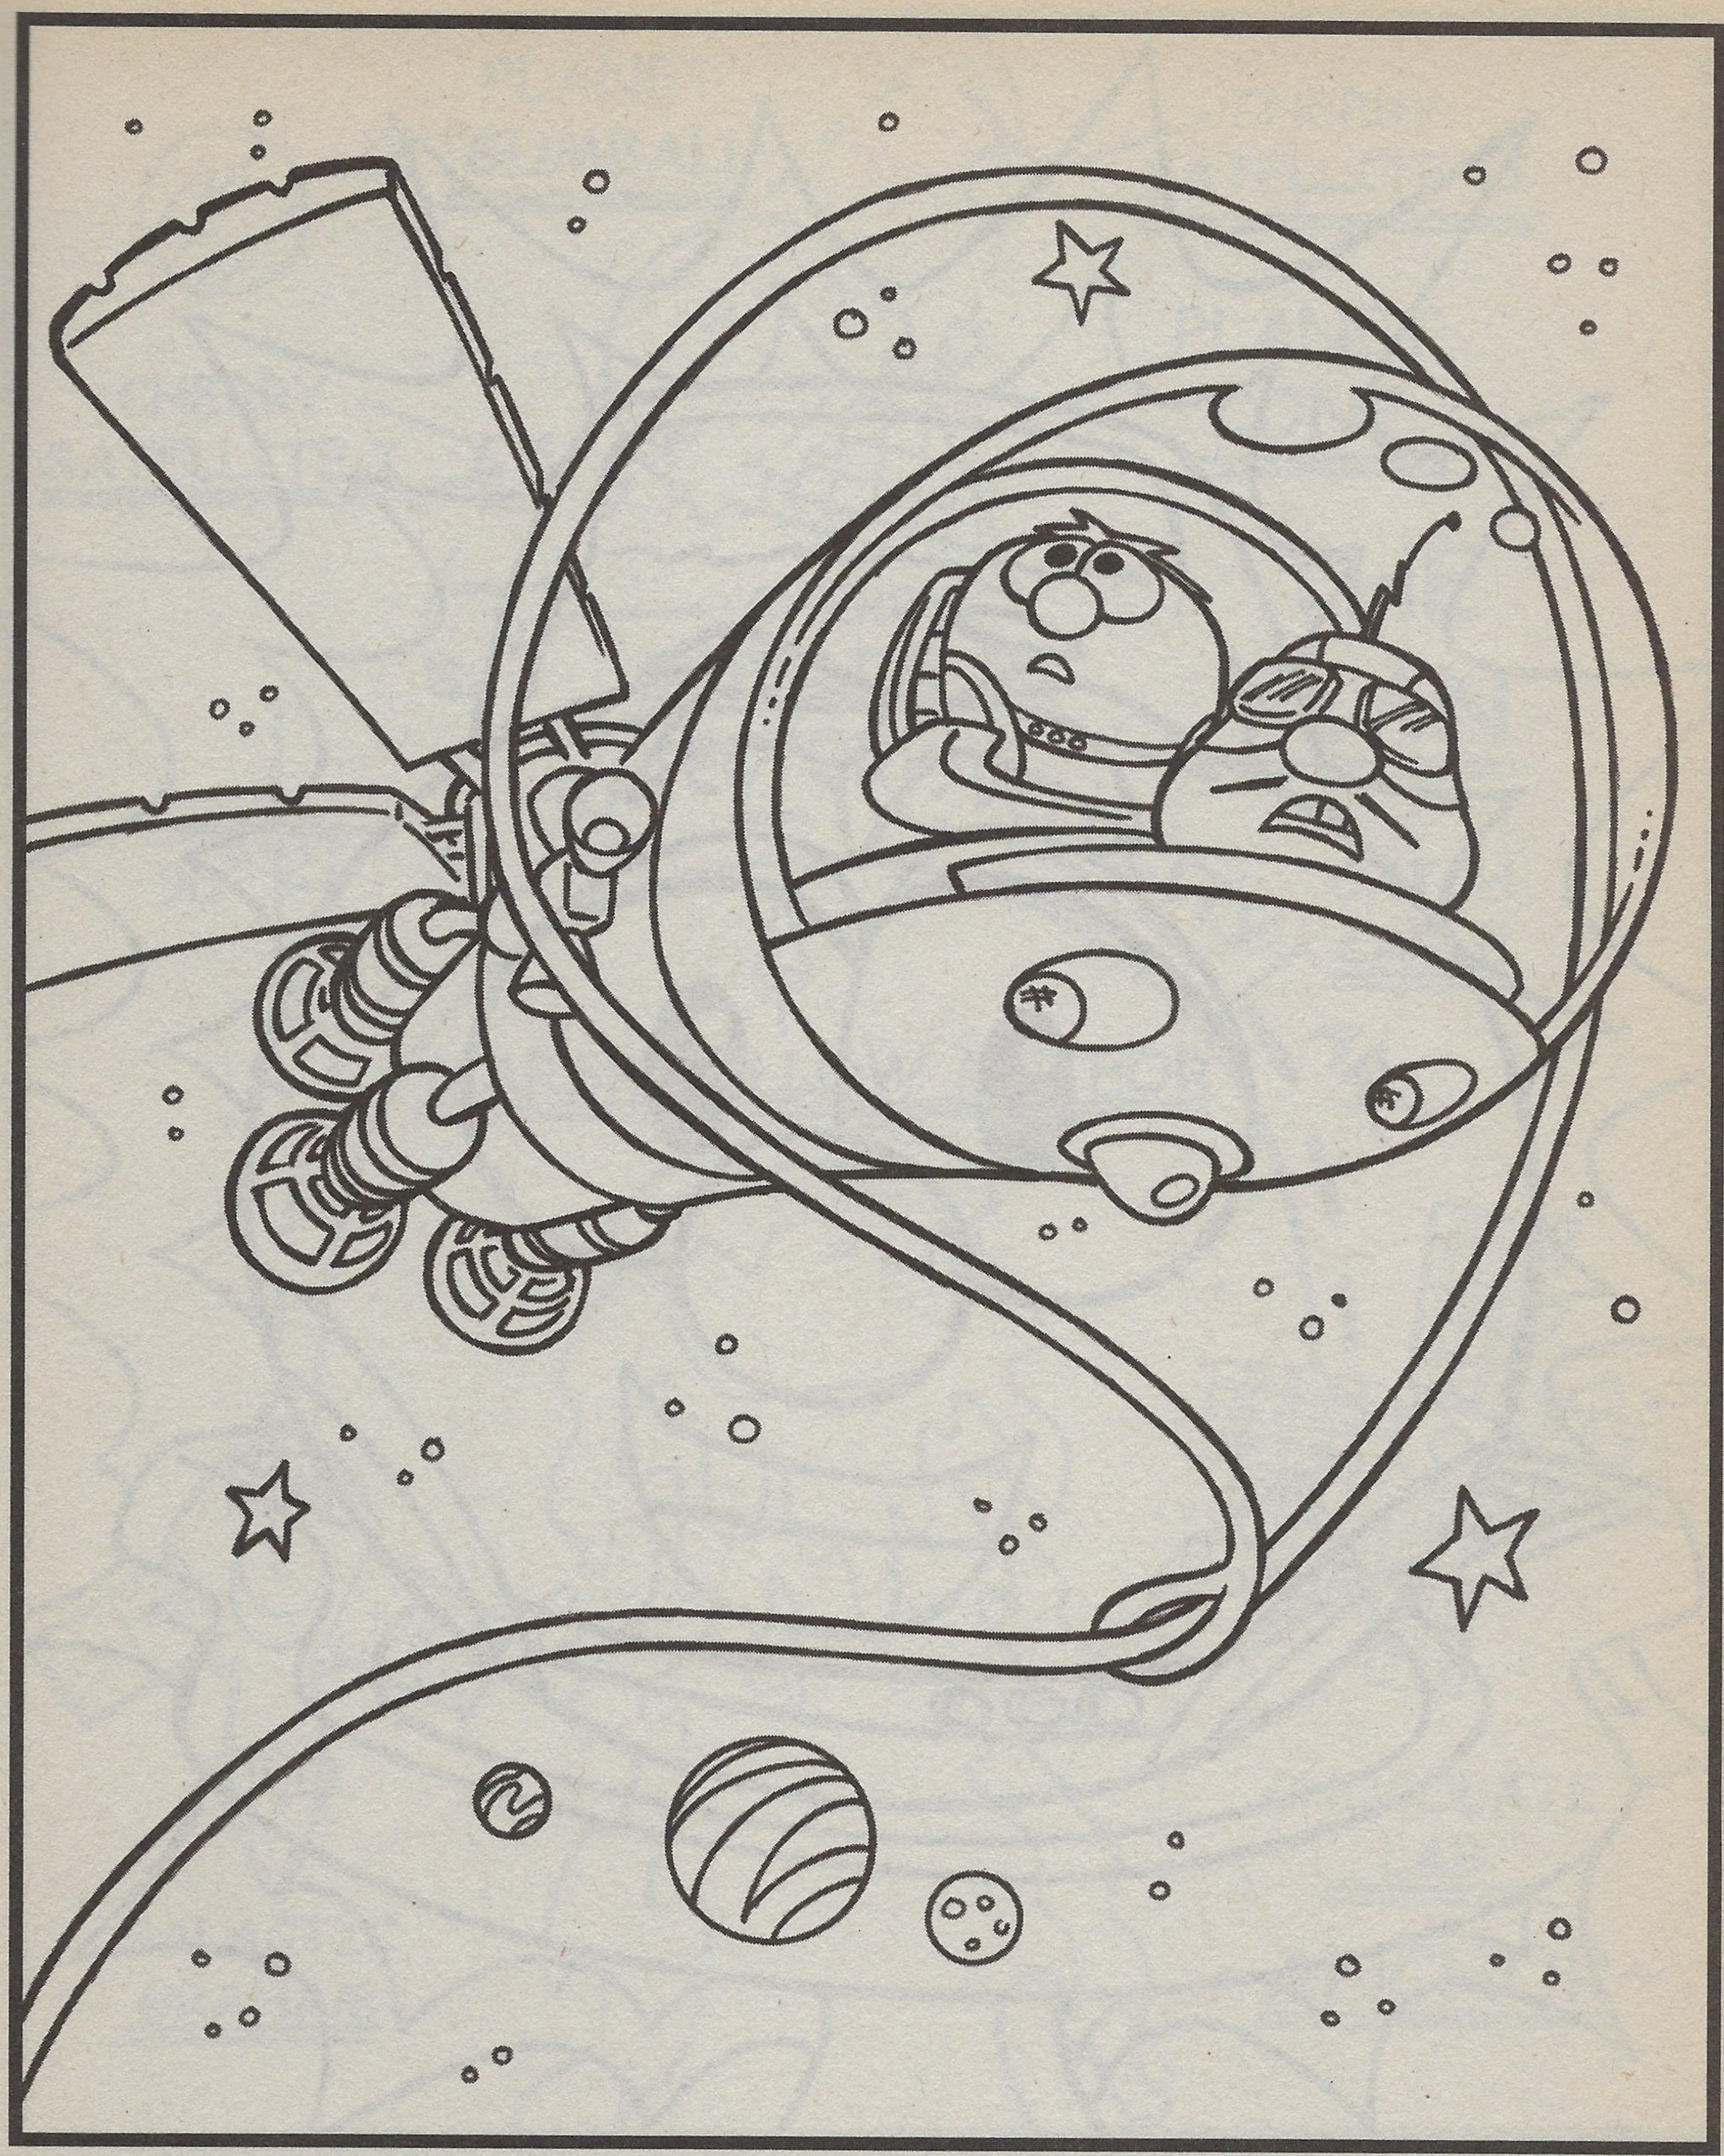


"You must lasso the meteor to stop it, Lunar Larry!" said Admiral Nezzer.

© 2007 Big Idea, Inc.

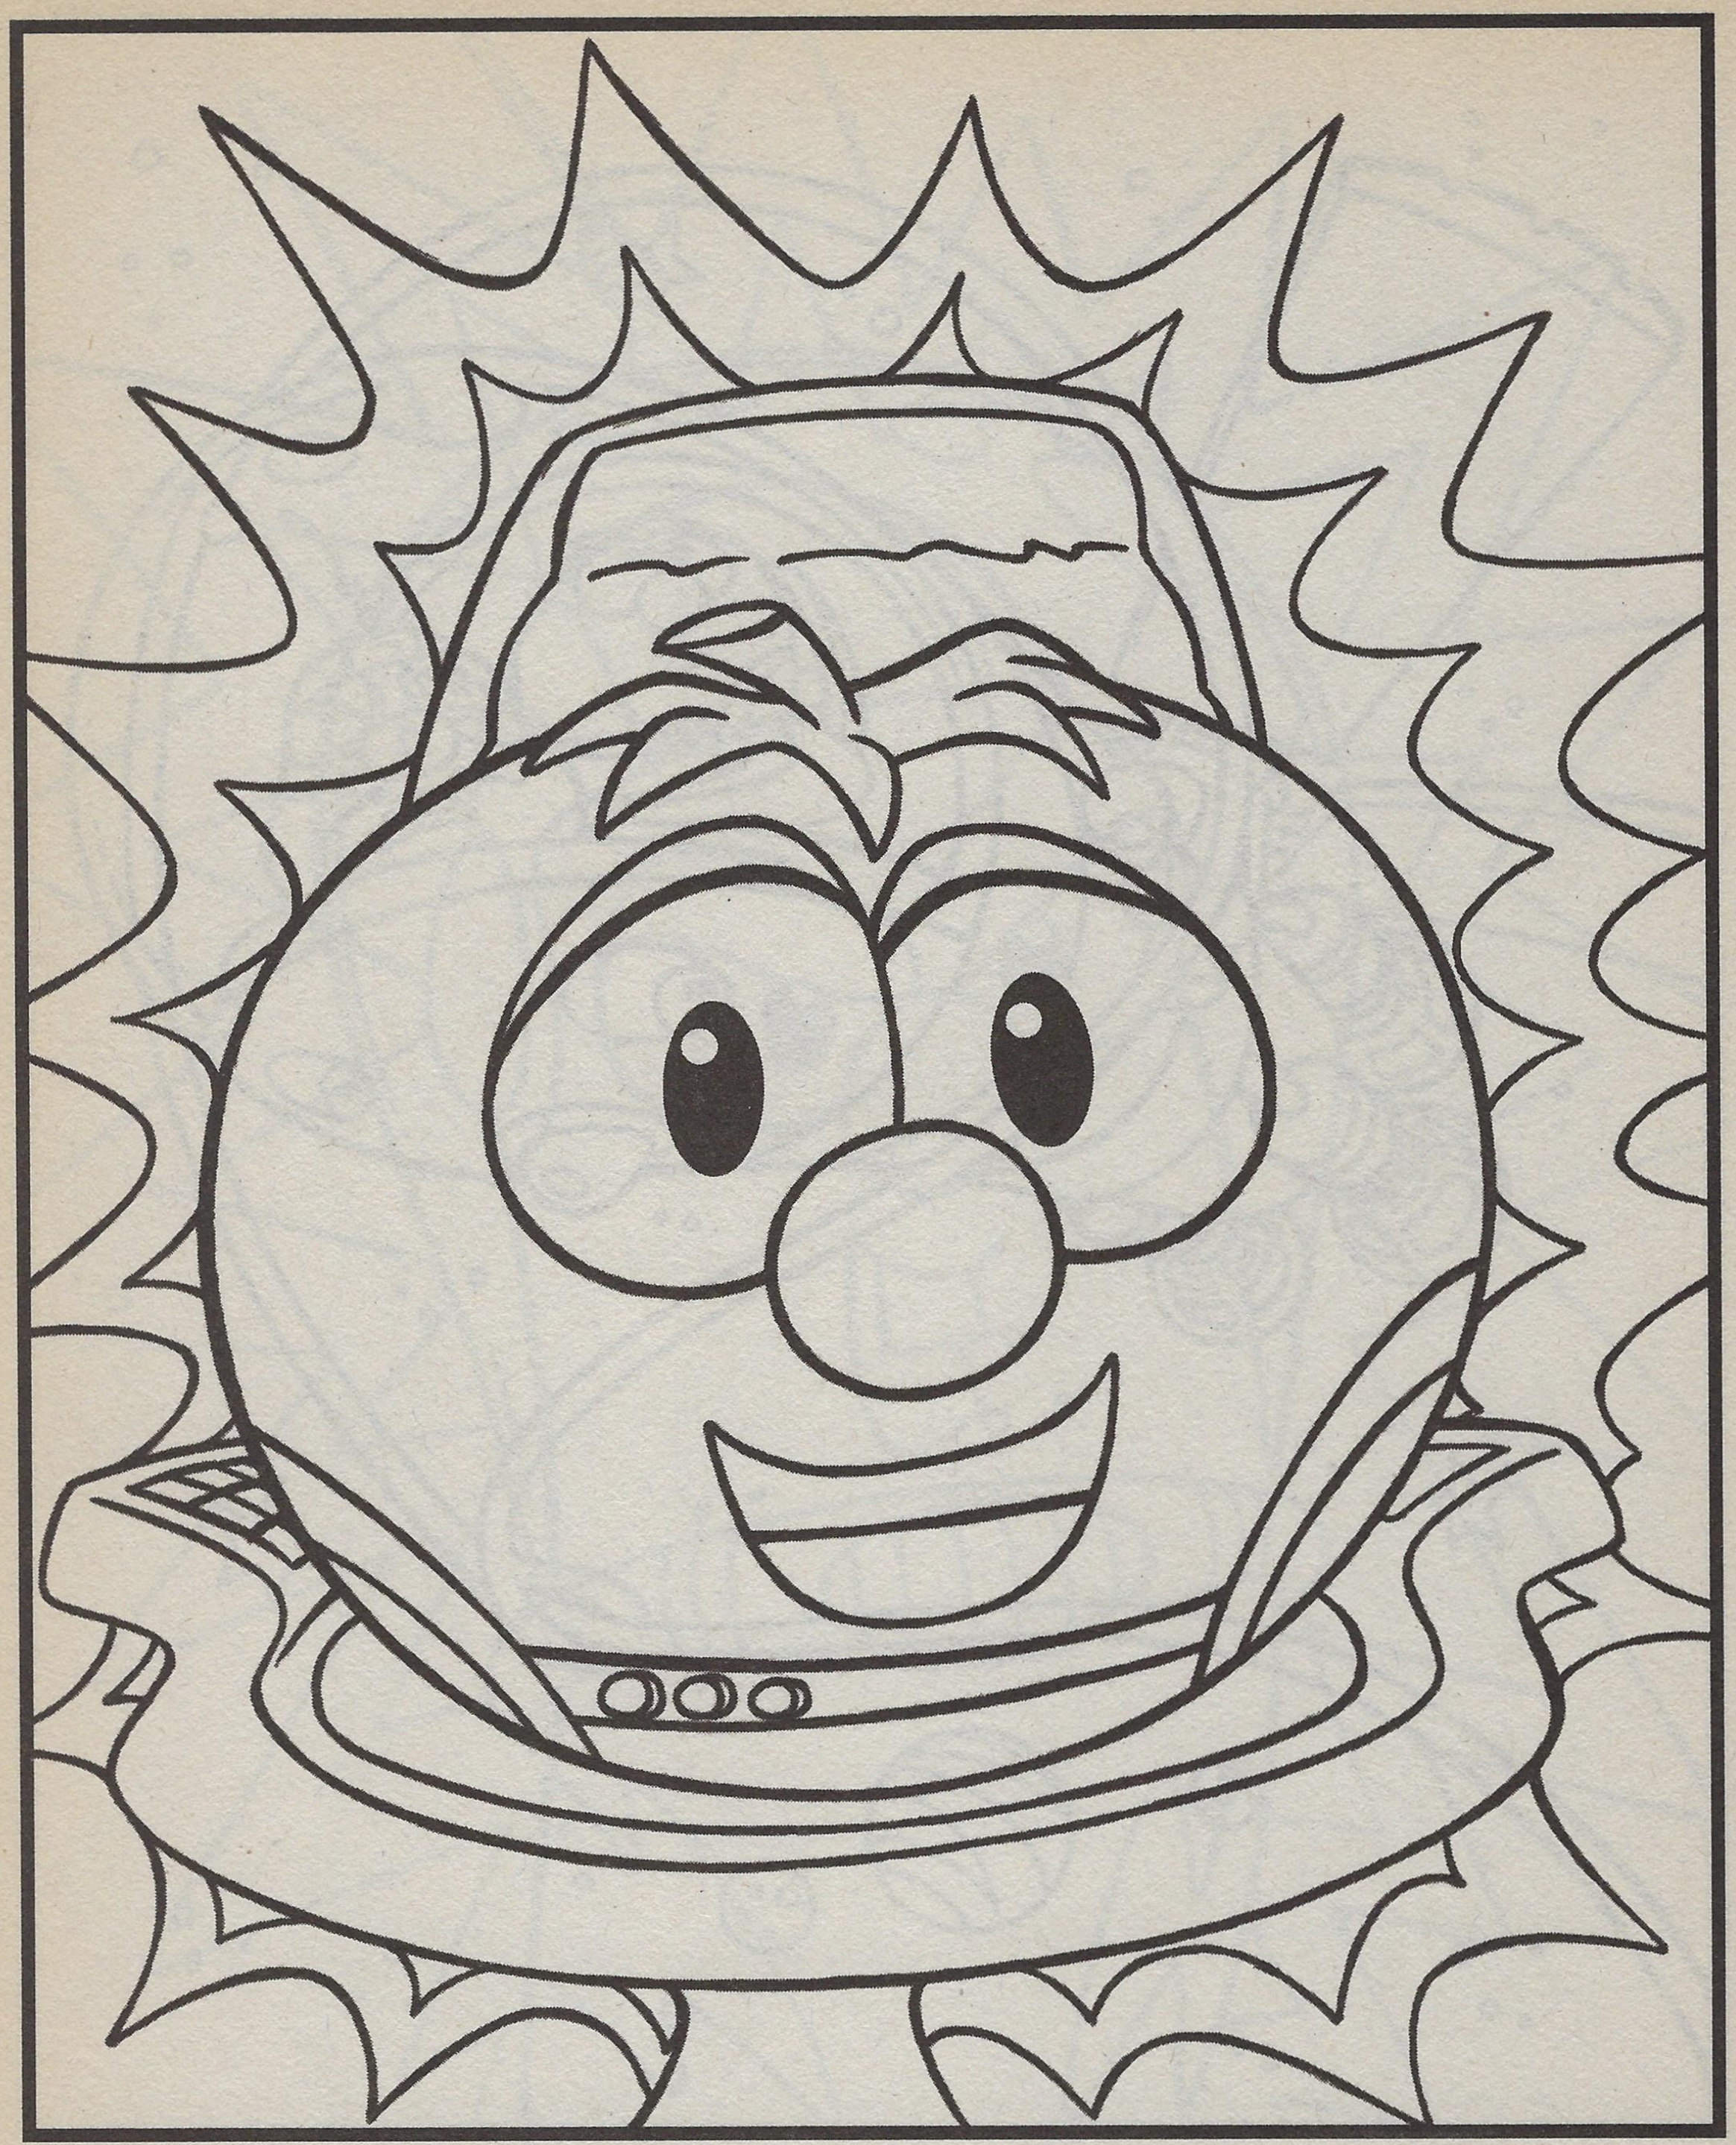


"Aye, aye, Admiral," said Lunar Larry. "I will stop the meteor!"

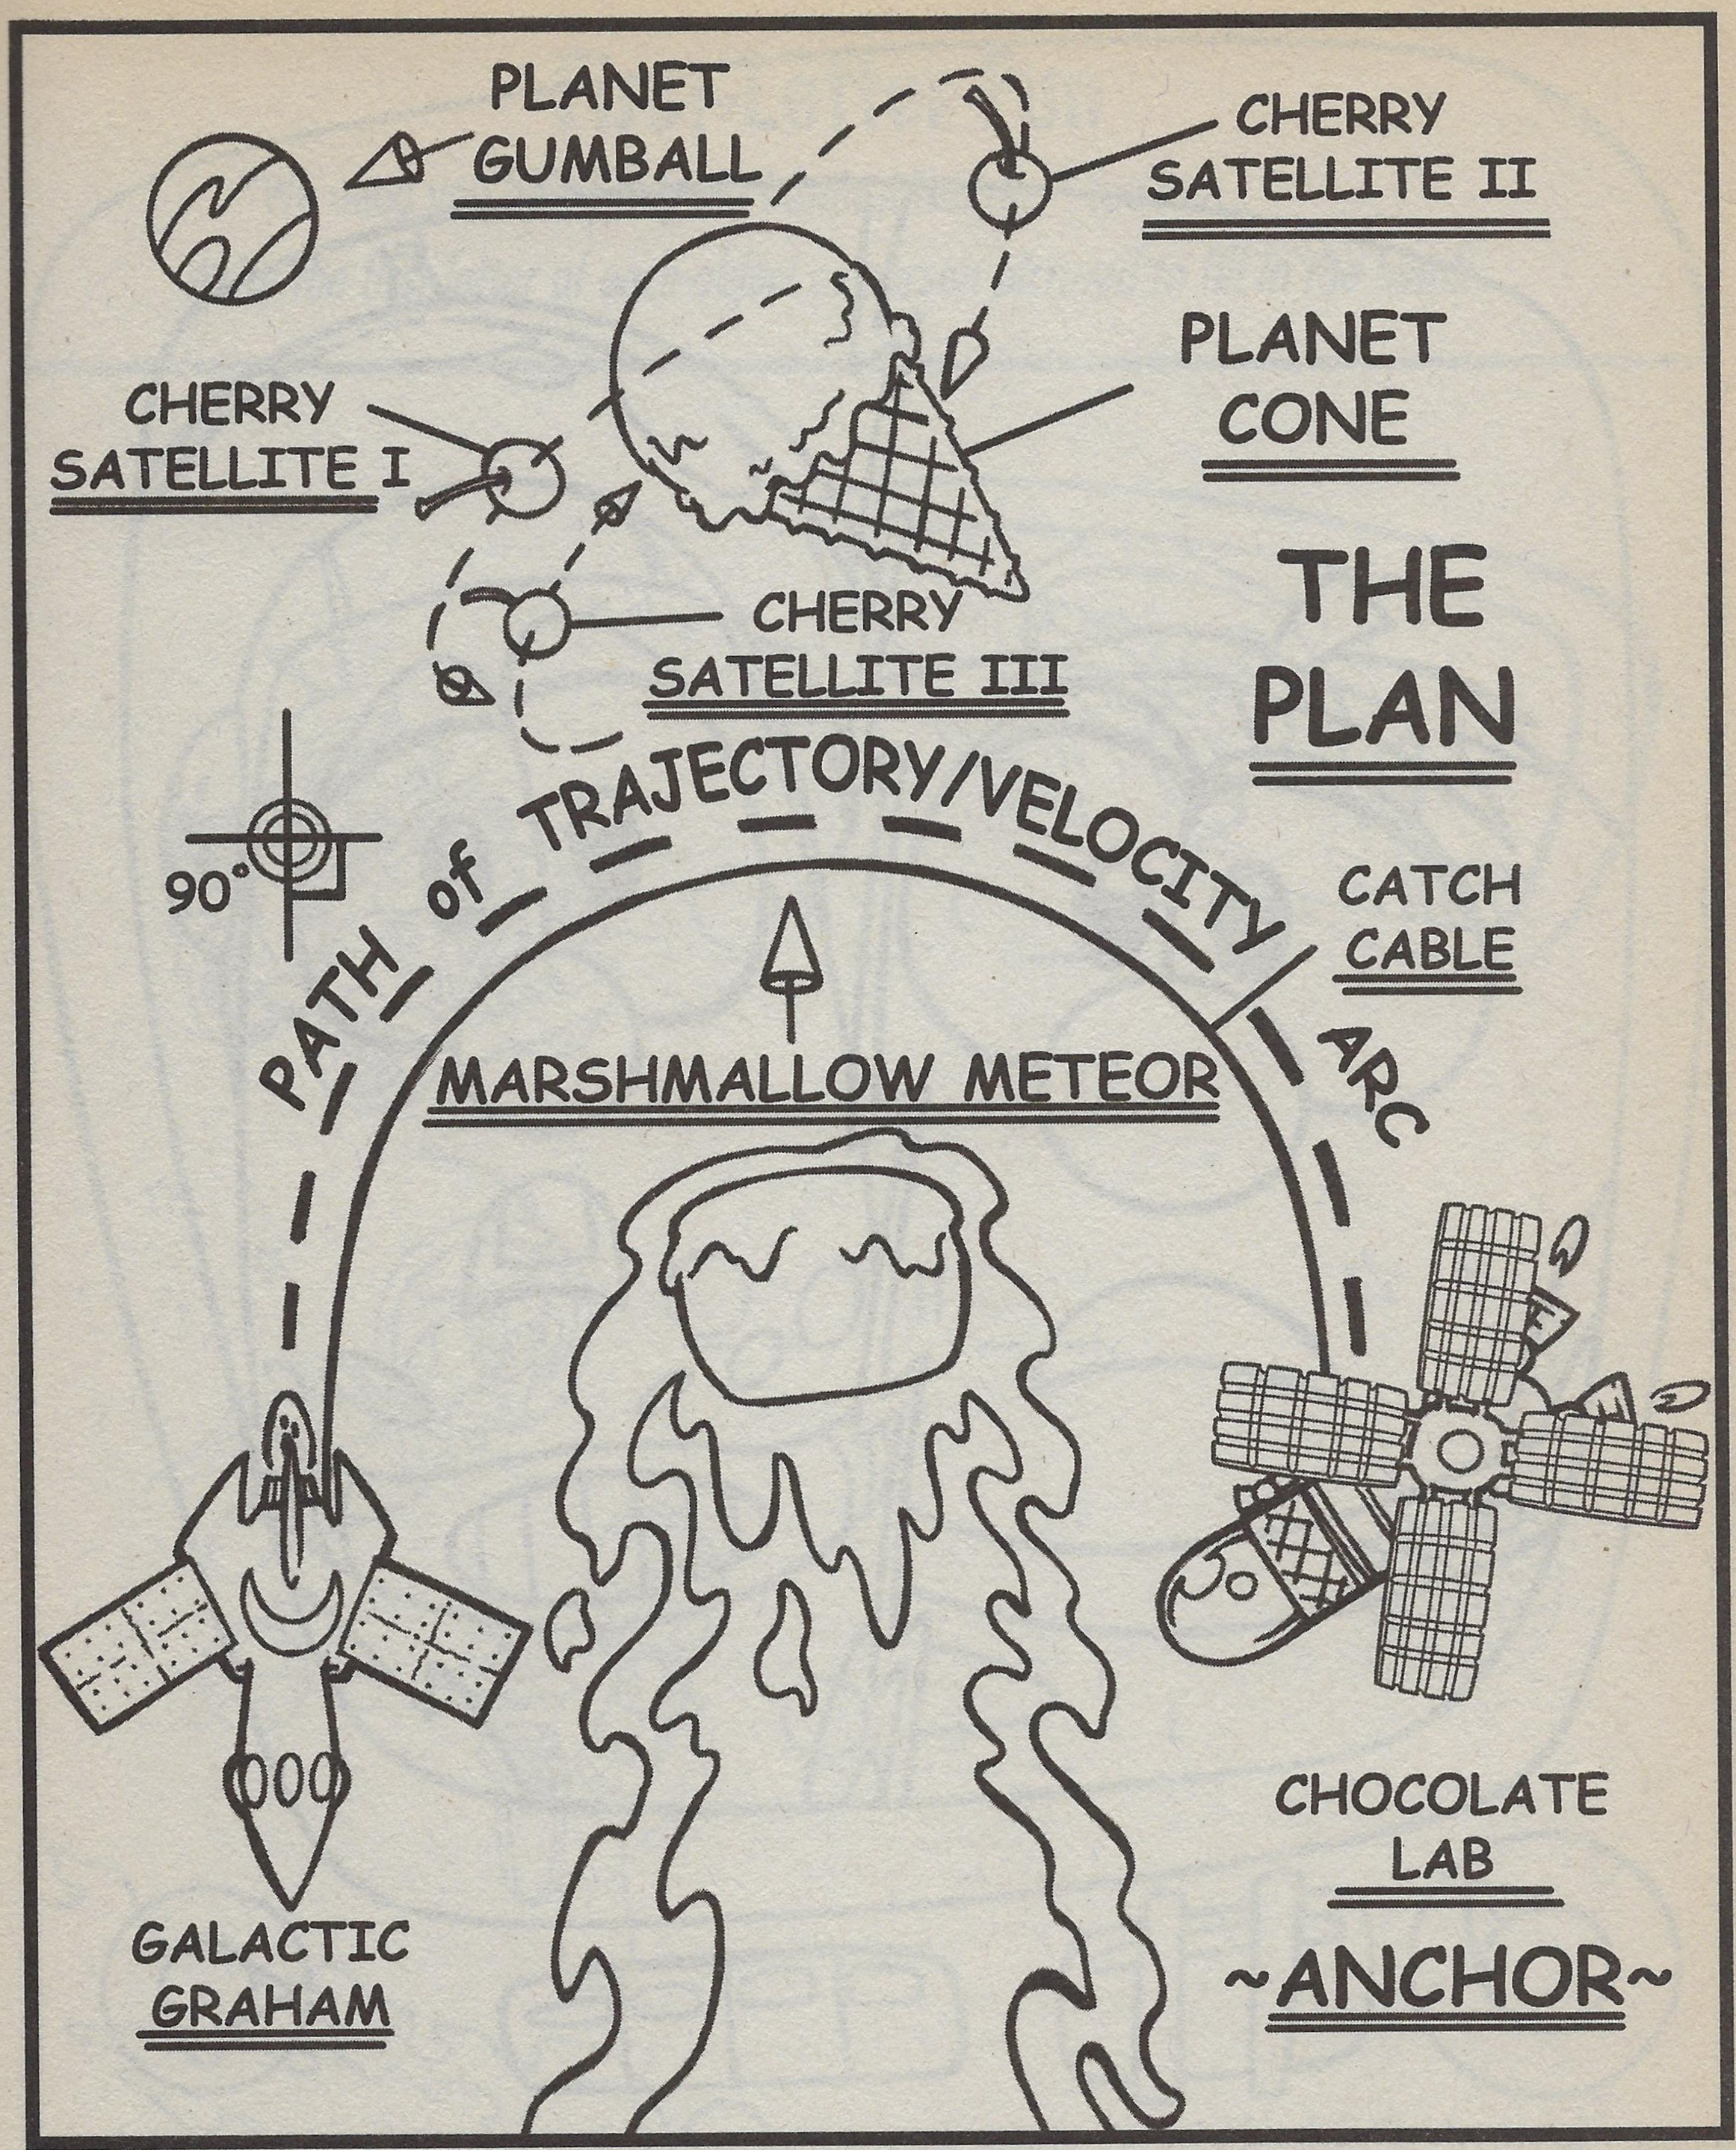


"No, wait!" cried Admiral Nezzer. "Lasso the Chocolate Lab first. Captain Bob and his crew will anchor the cord to stop the meteor!"

© 2007 Big Idea, Inc.

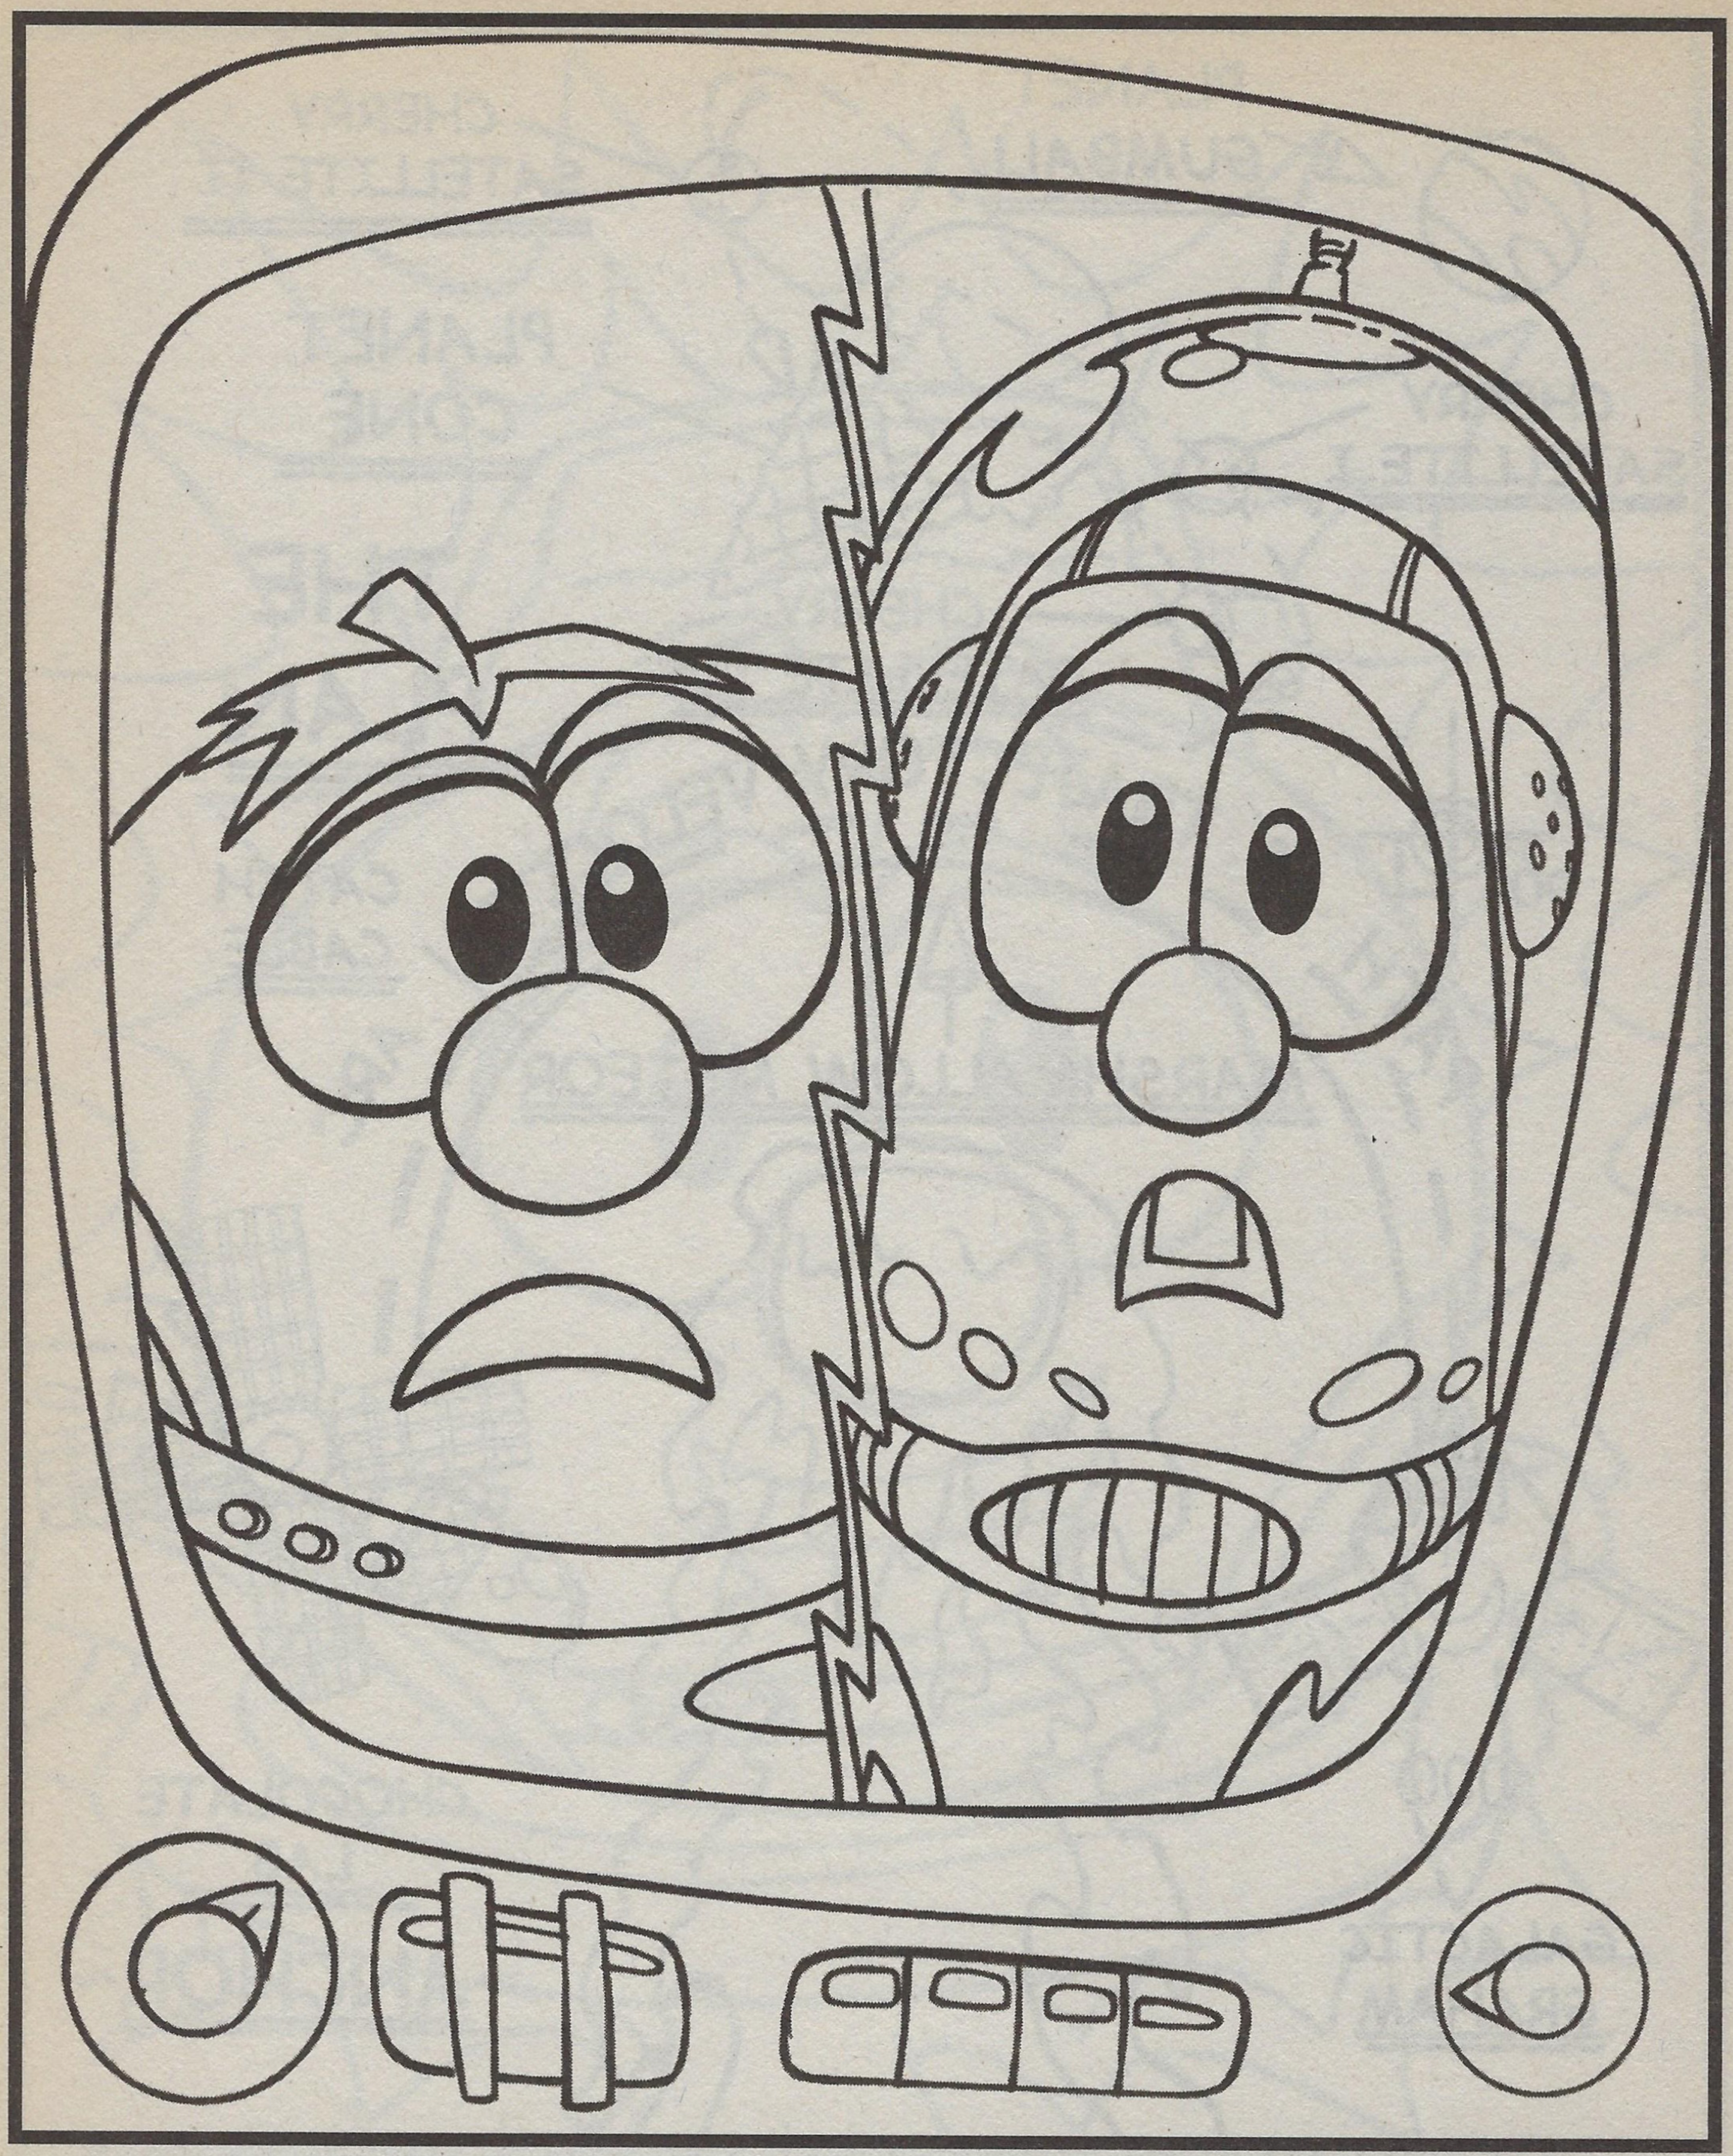


"See! I will save Planet Cone!" said Captain Bob.



"NO!" ordered Admiral Nezzer. "We need both the Galactic Graham's speed and the Chocolate Lab's size to stop the meteor. You have to work together!"

© 2007 Big Idea, Inc.

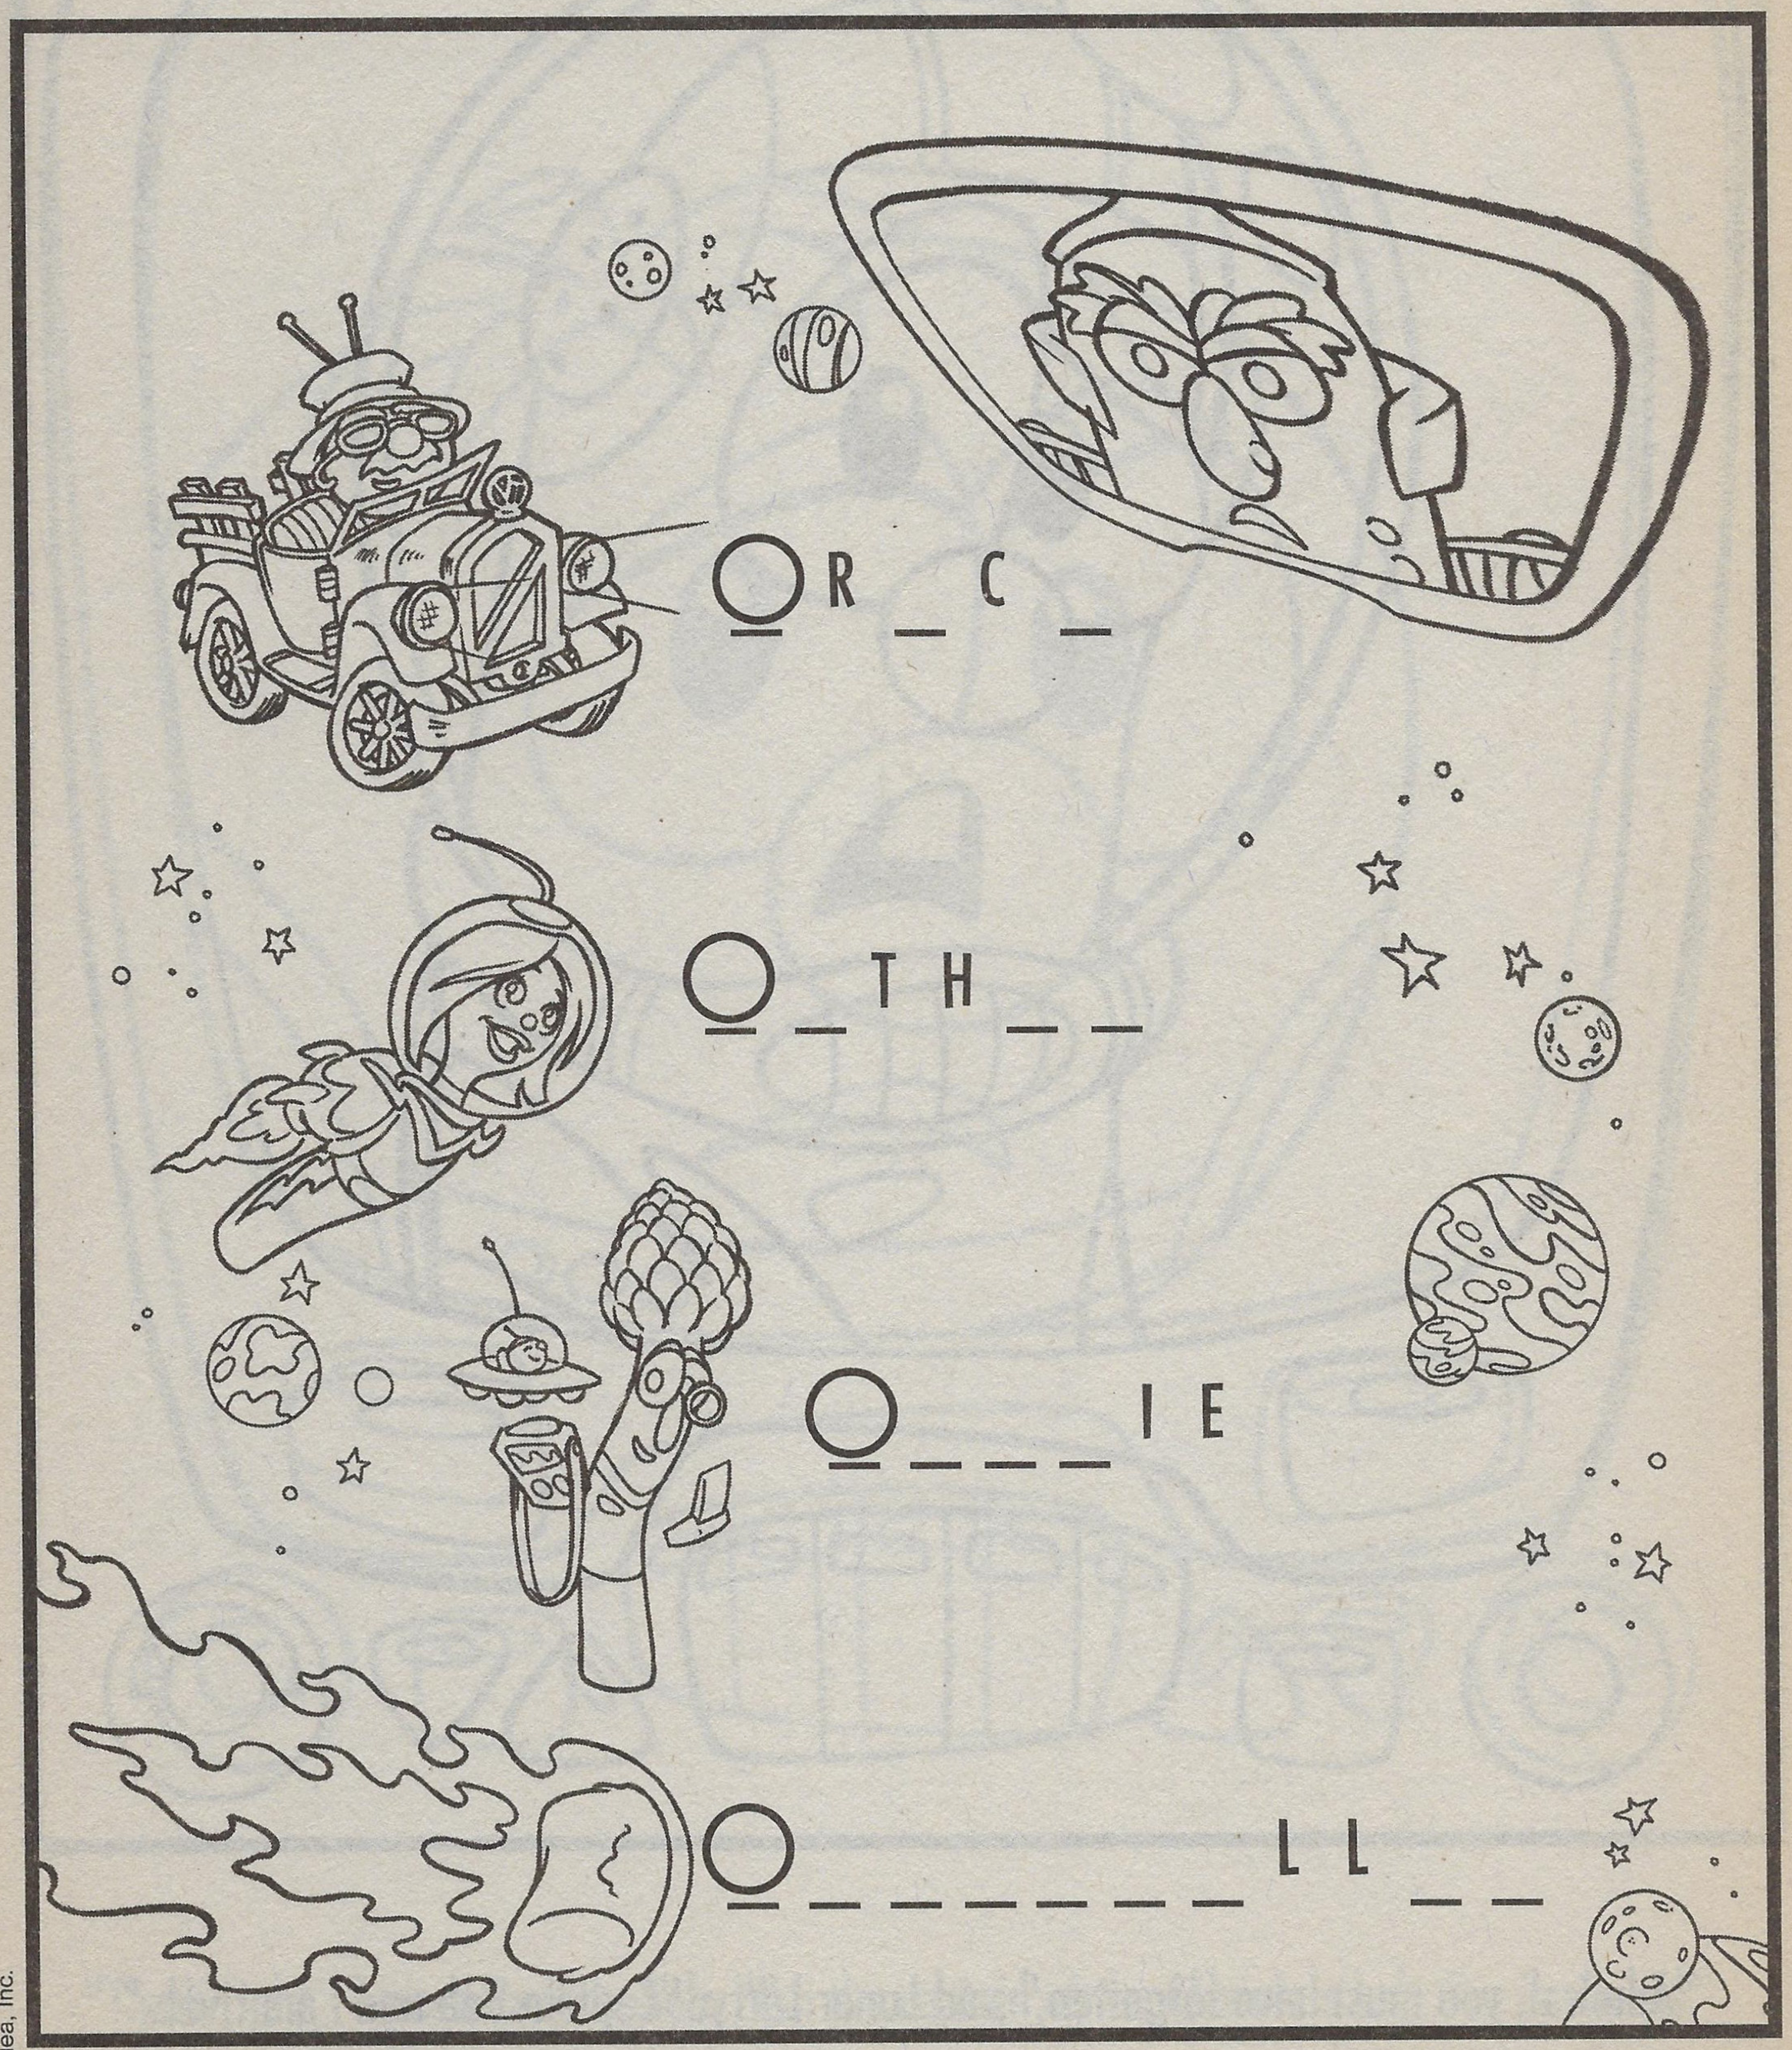


"Work together?" asked Bob and Larry in unison. "But whose job is more important?"

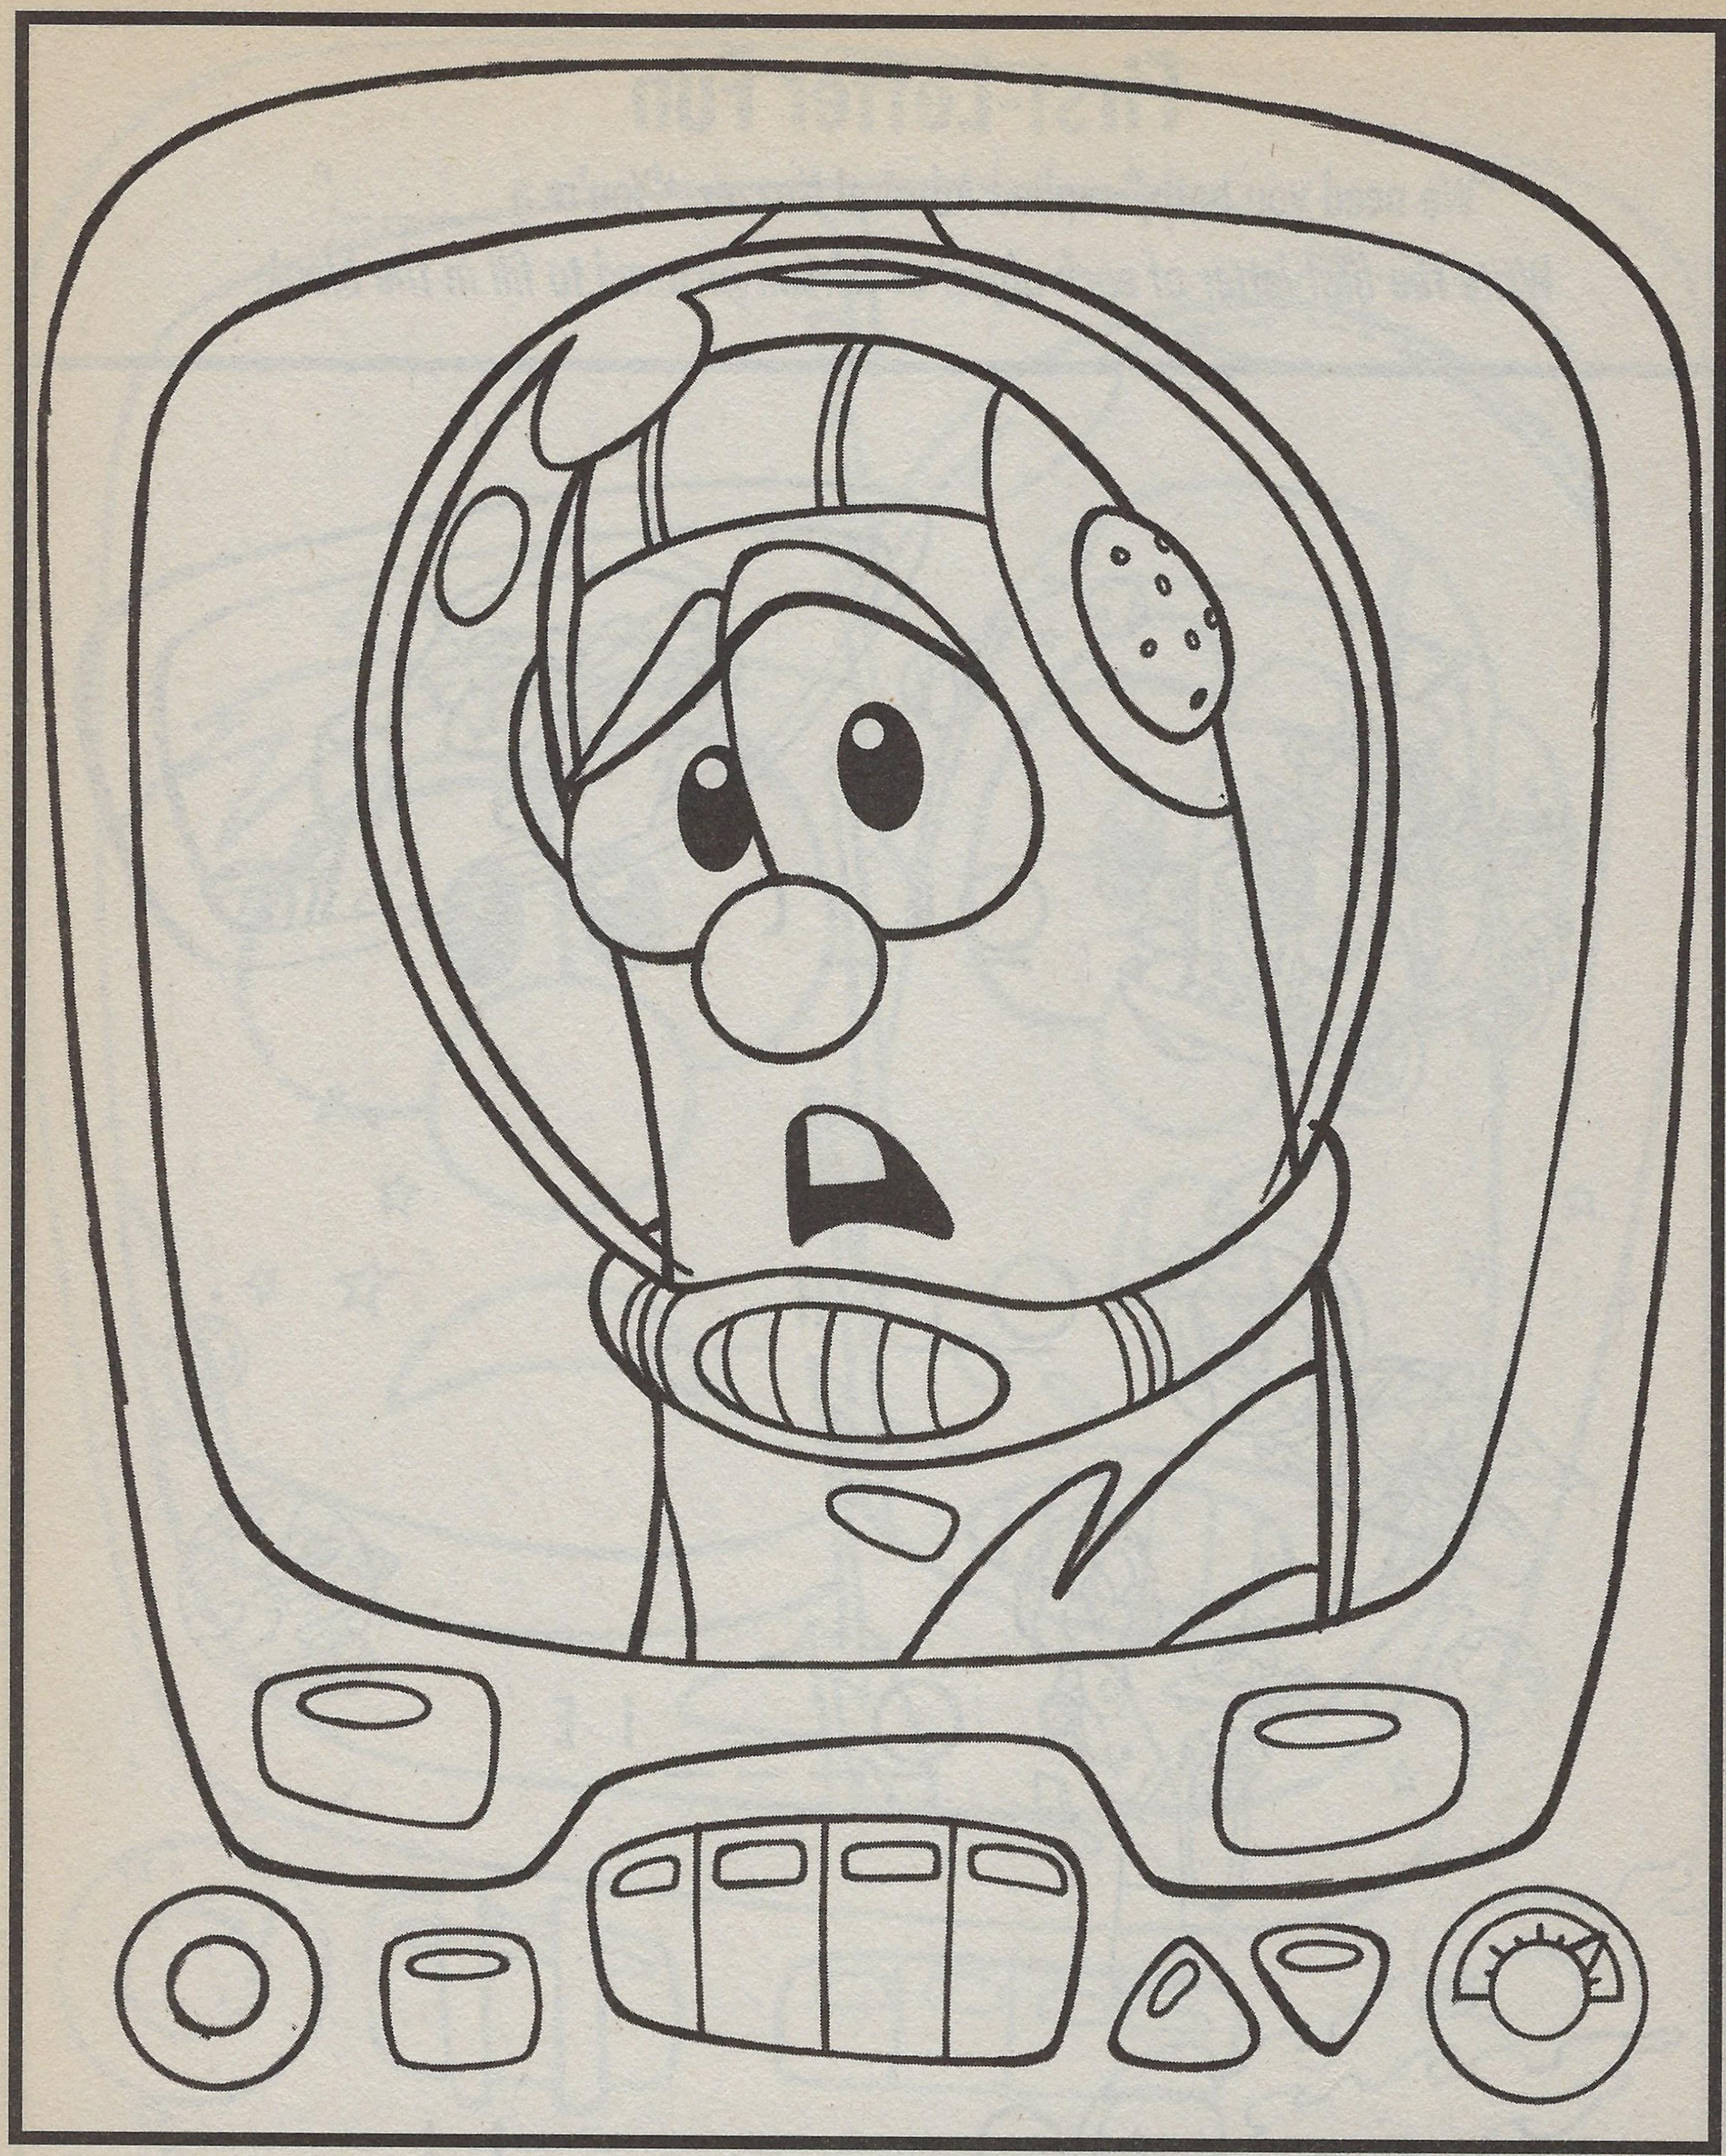
First-Letter Fun

"We need you both," replied Admiral Nezzer. "You're a _ _ _ _."

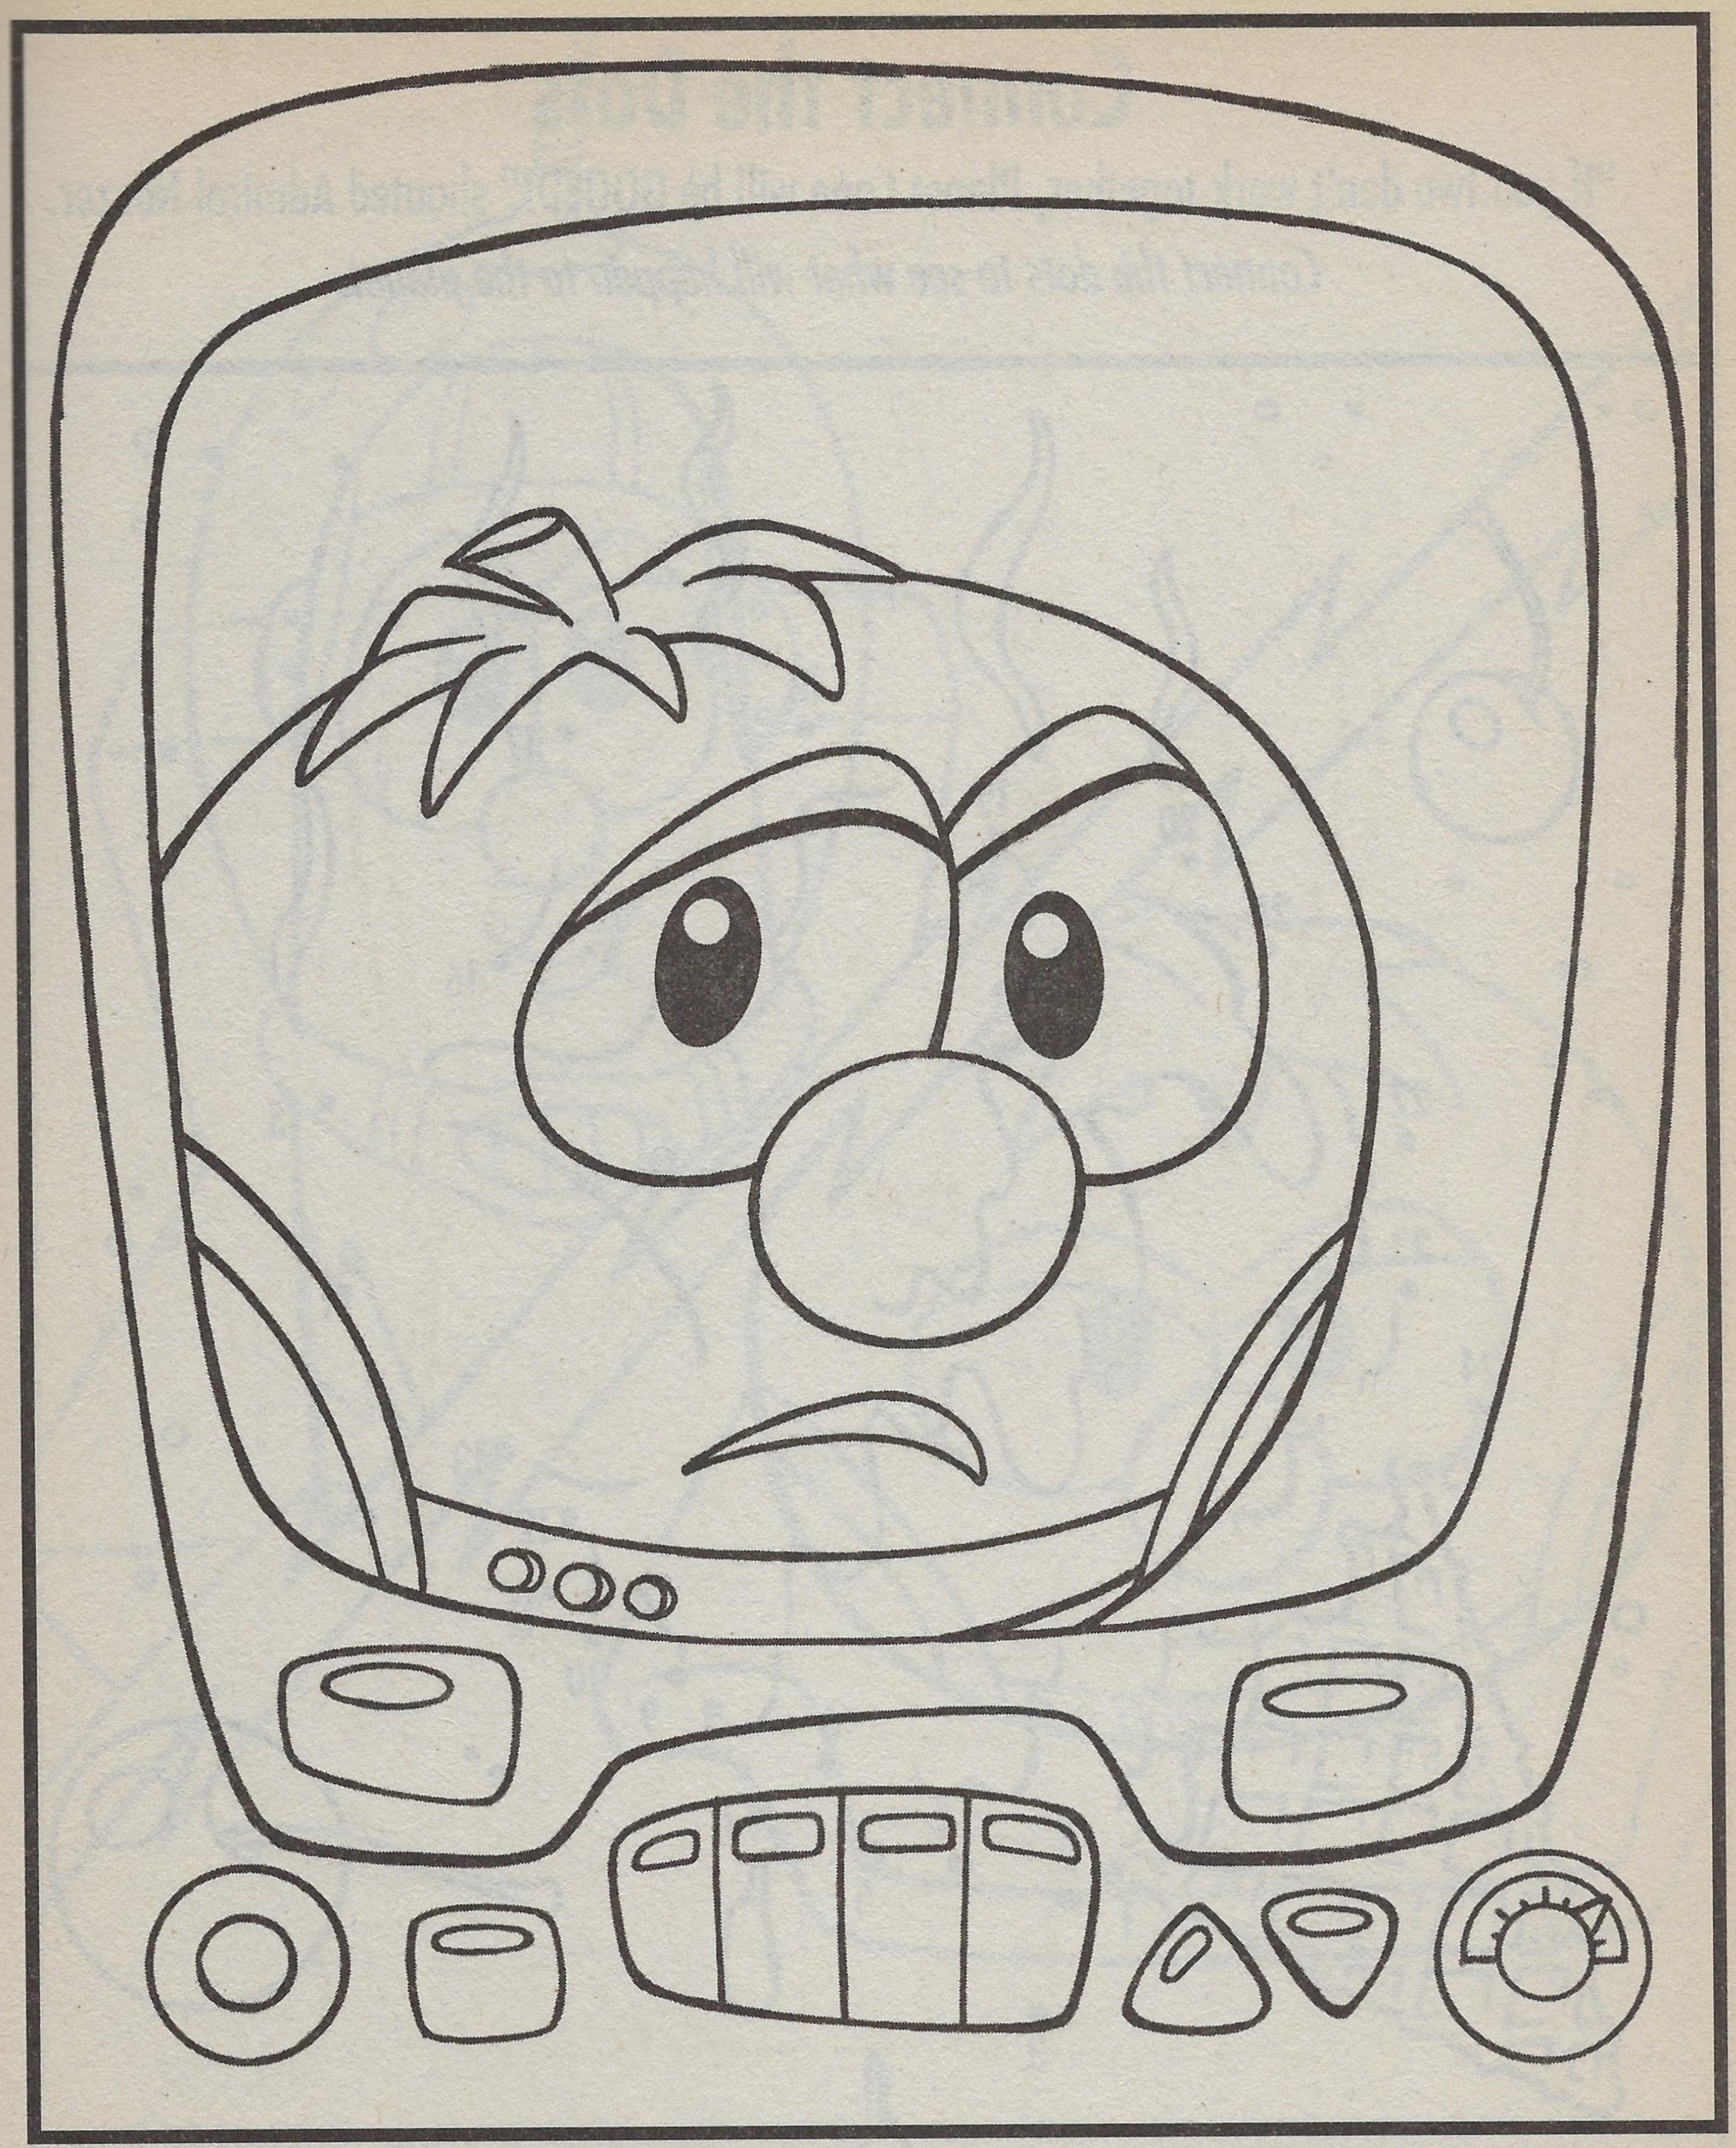
Write the first letter of each object or person pictured to fill in the blank.



© 2007 Big Idea, Inc.



"Admiral, you must have forgotten," said Lunar Larry. "Captain Bob and I are rivals."



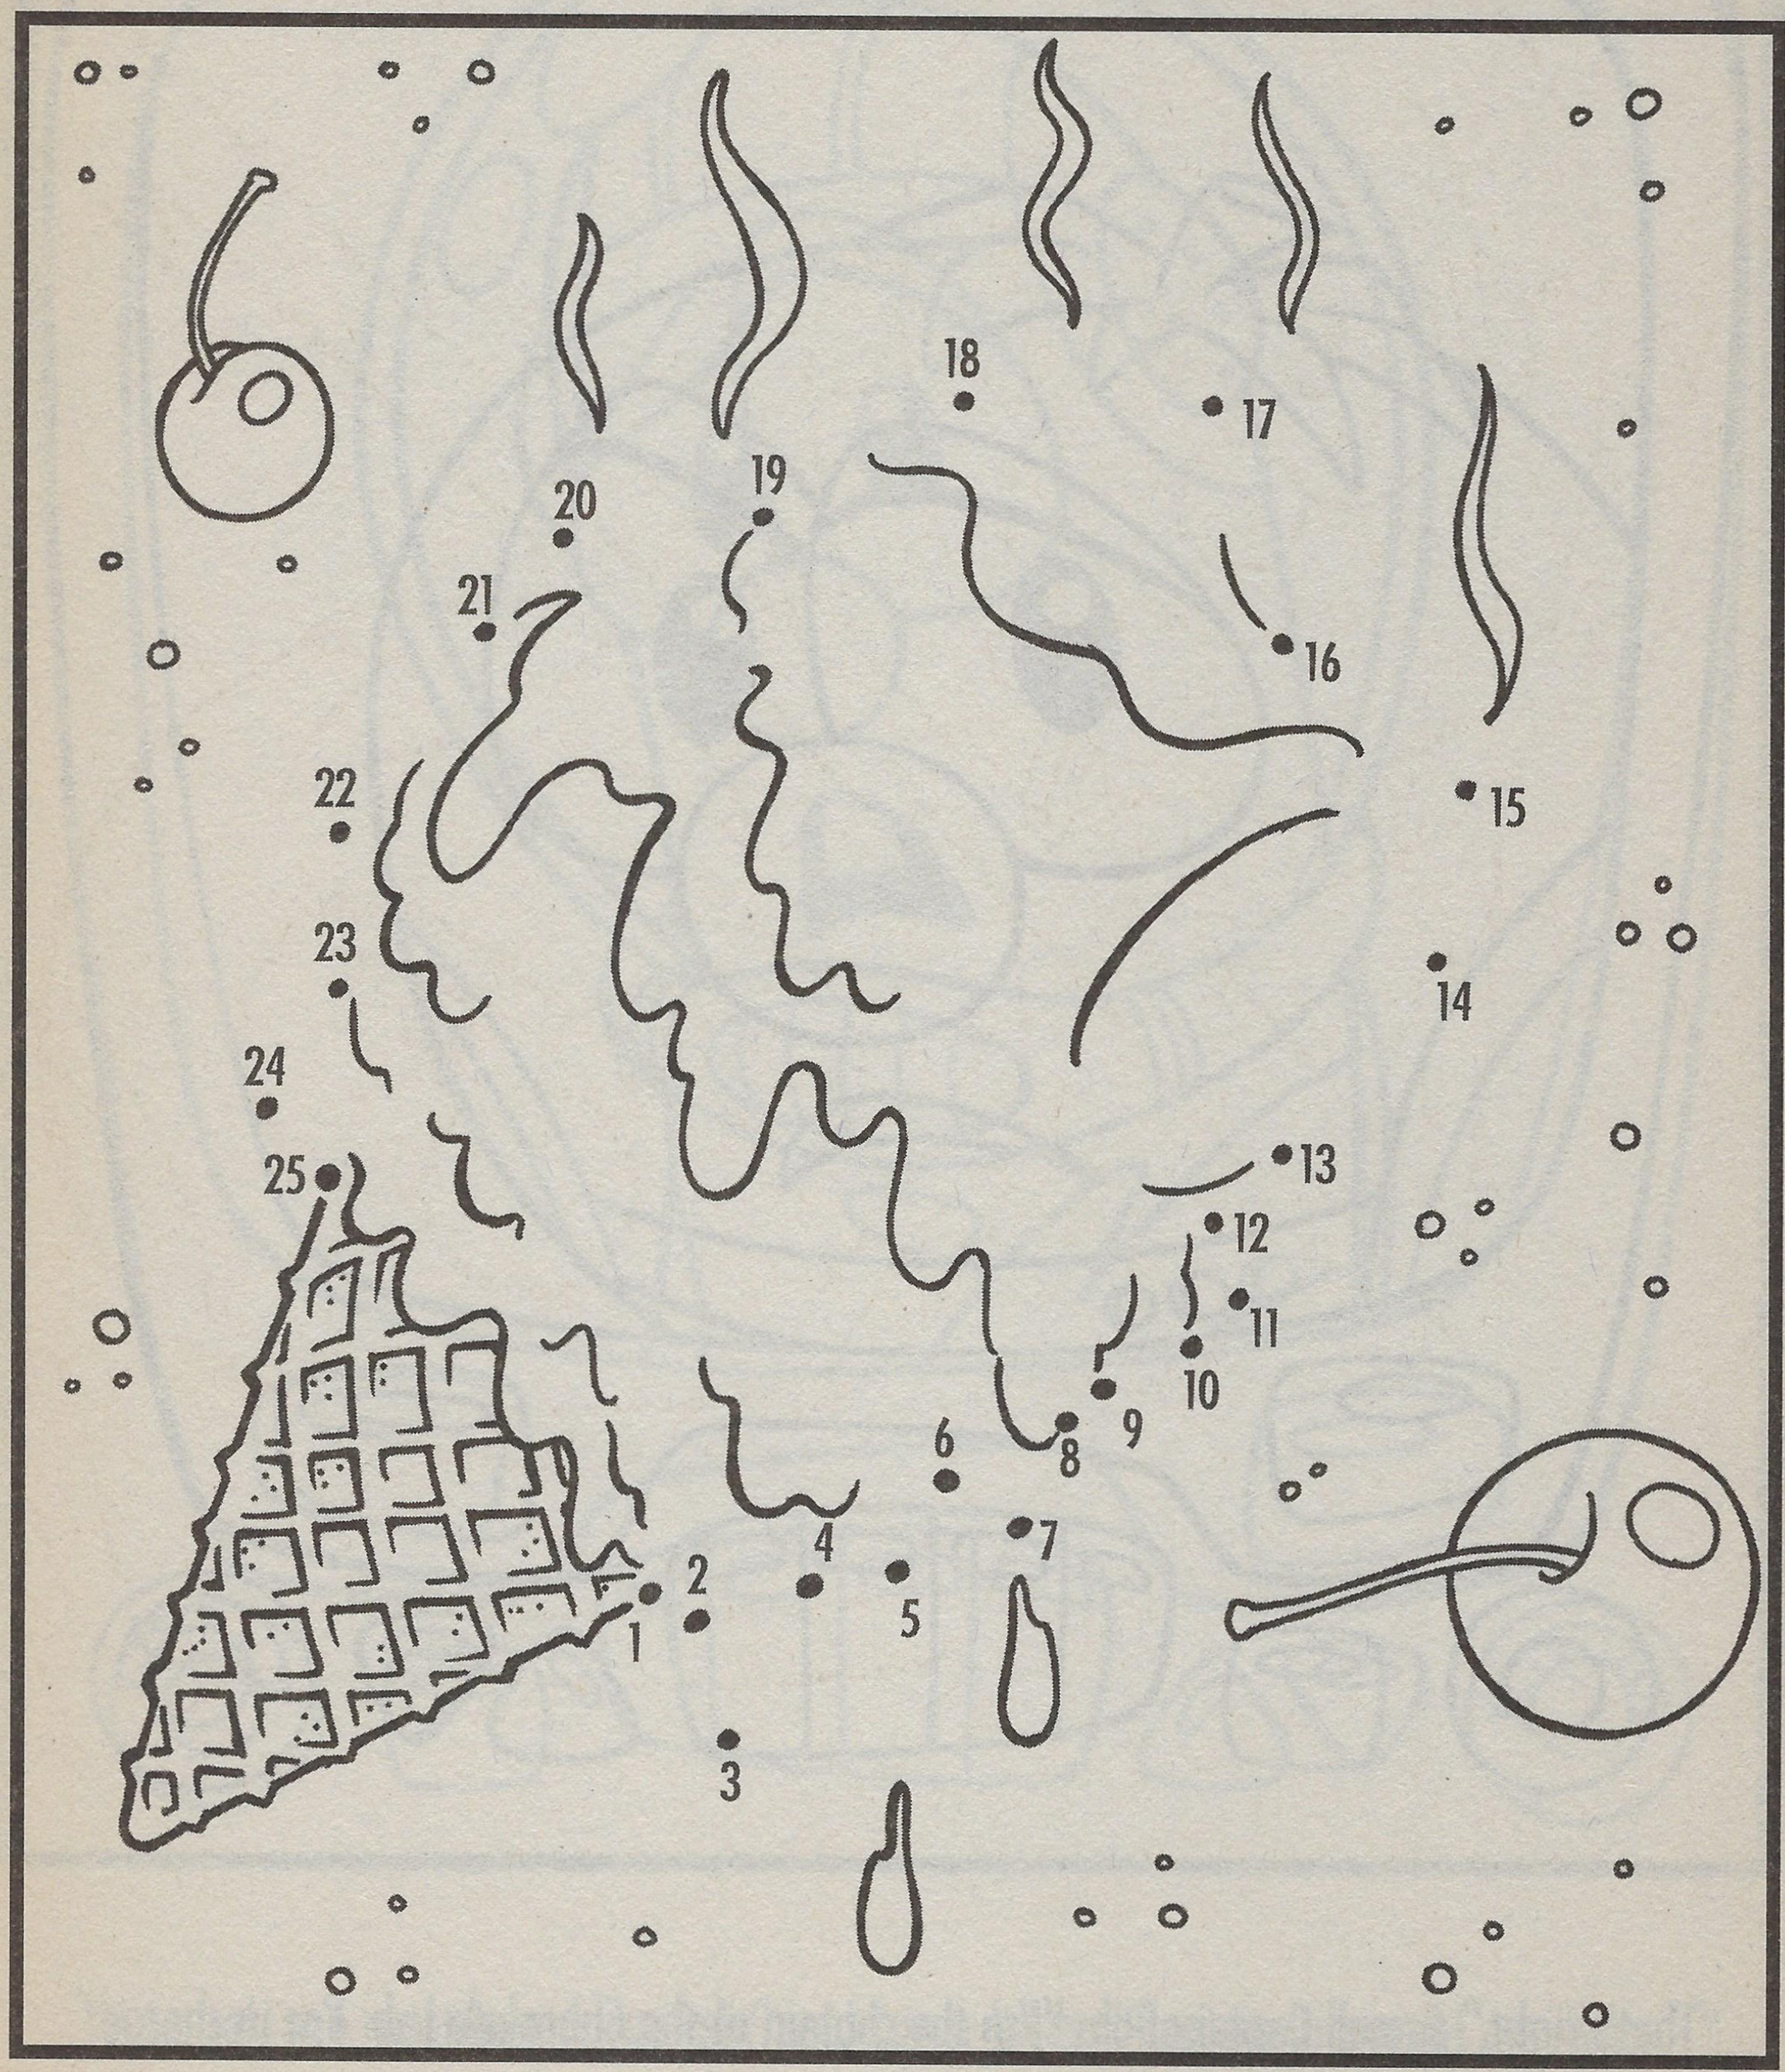
"That's right," agreed Captain Bob. "I'm the captain of the Chocolate Lab. I'm in charge."

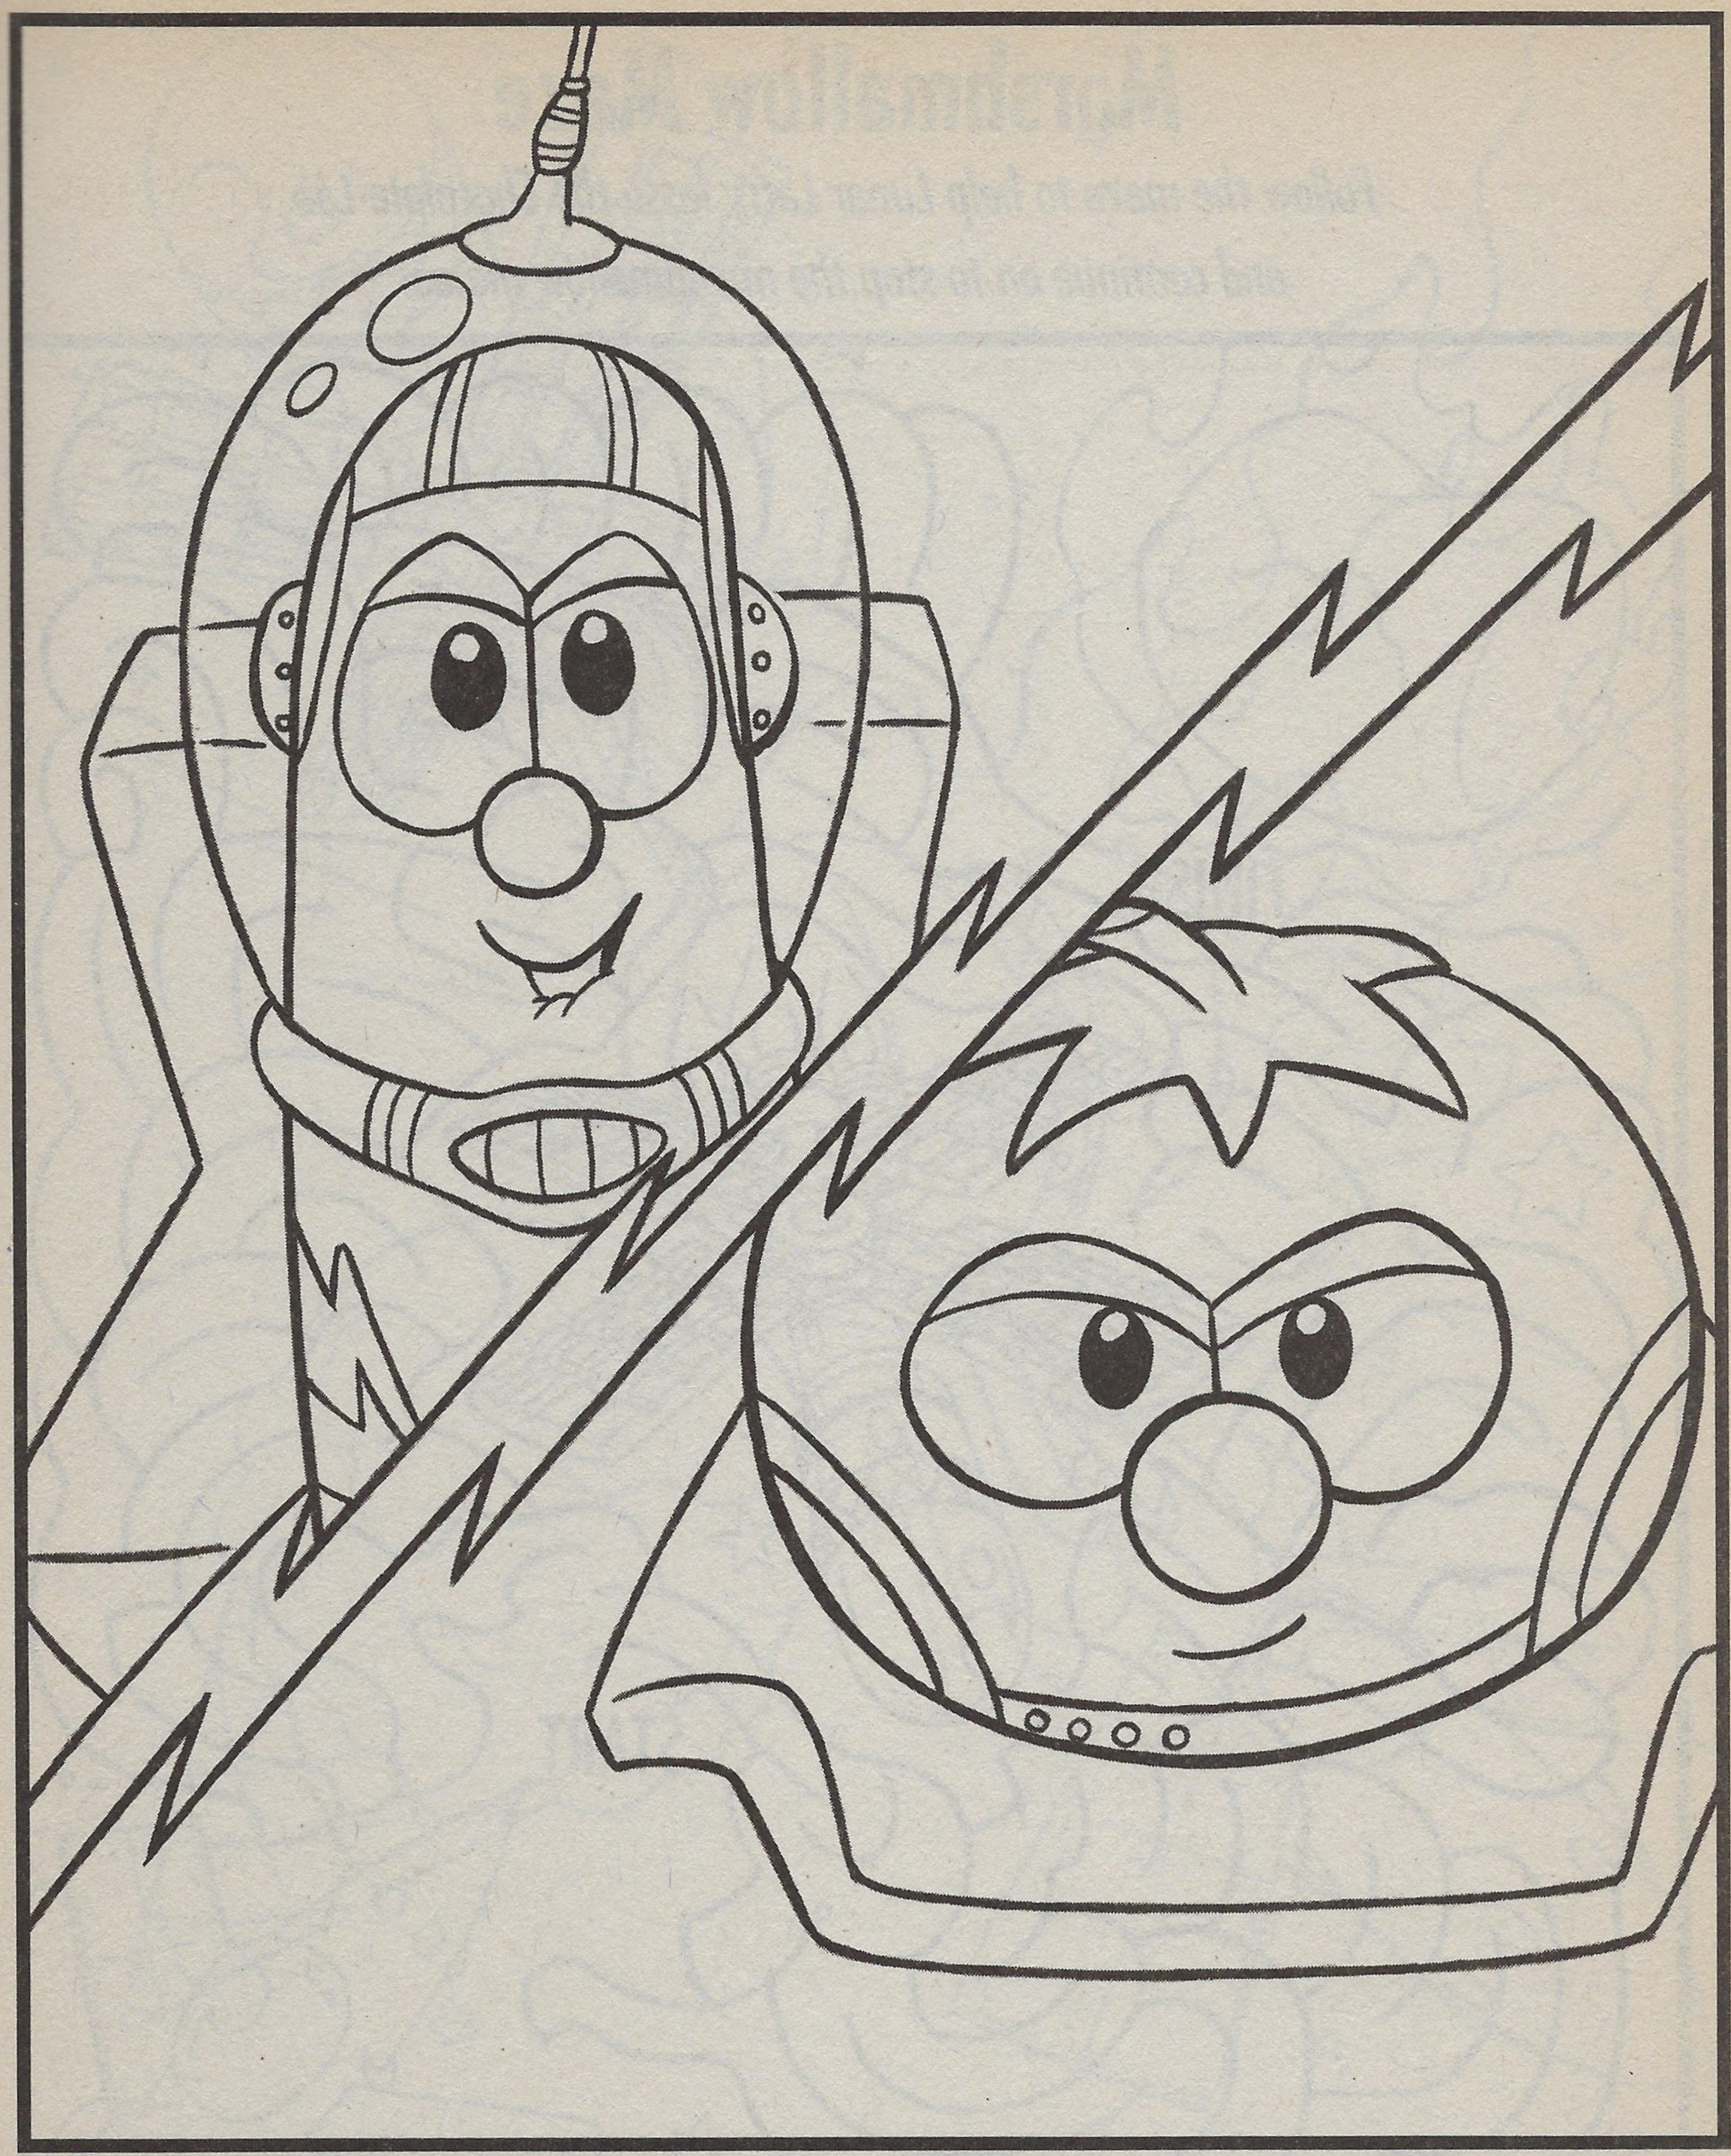
© 2007 Big Idea, Inc.

Connect the Dots

"If you two don't work together, Planet Cone will be GOOED!" shouted Admiral Nezzer.

Connect the dots to see what will happen to the planet.



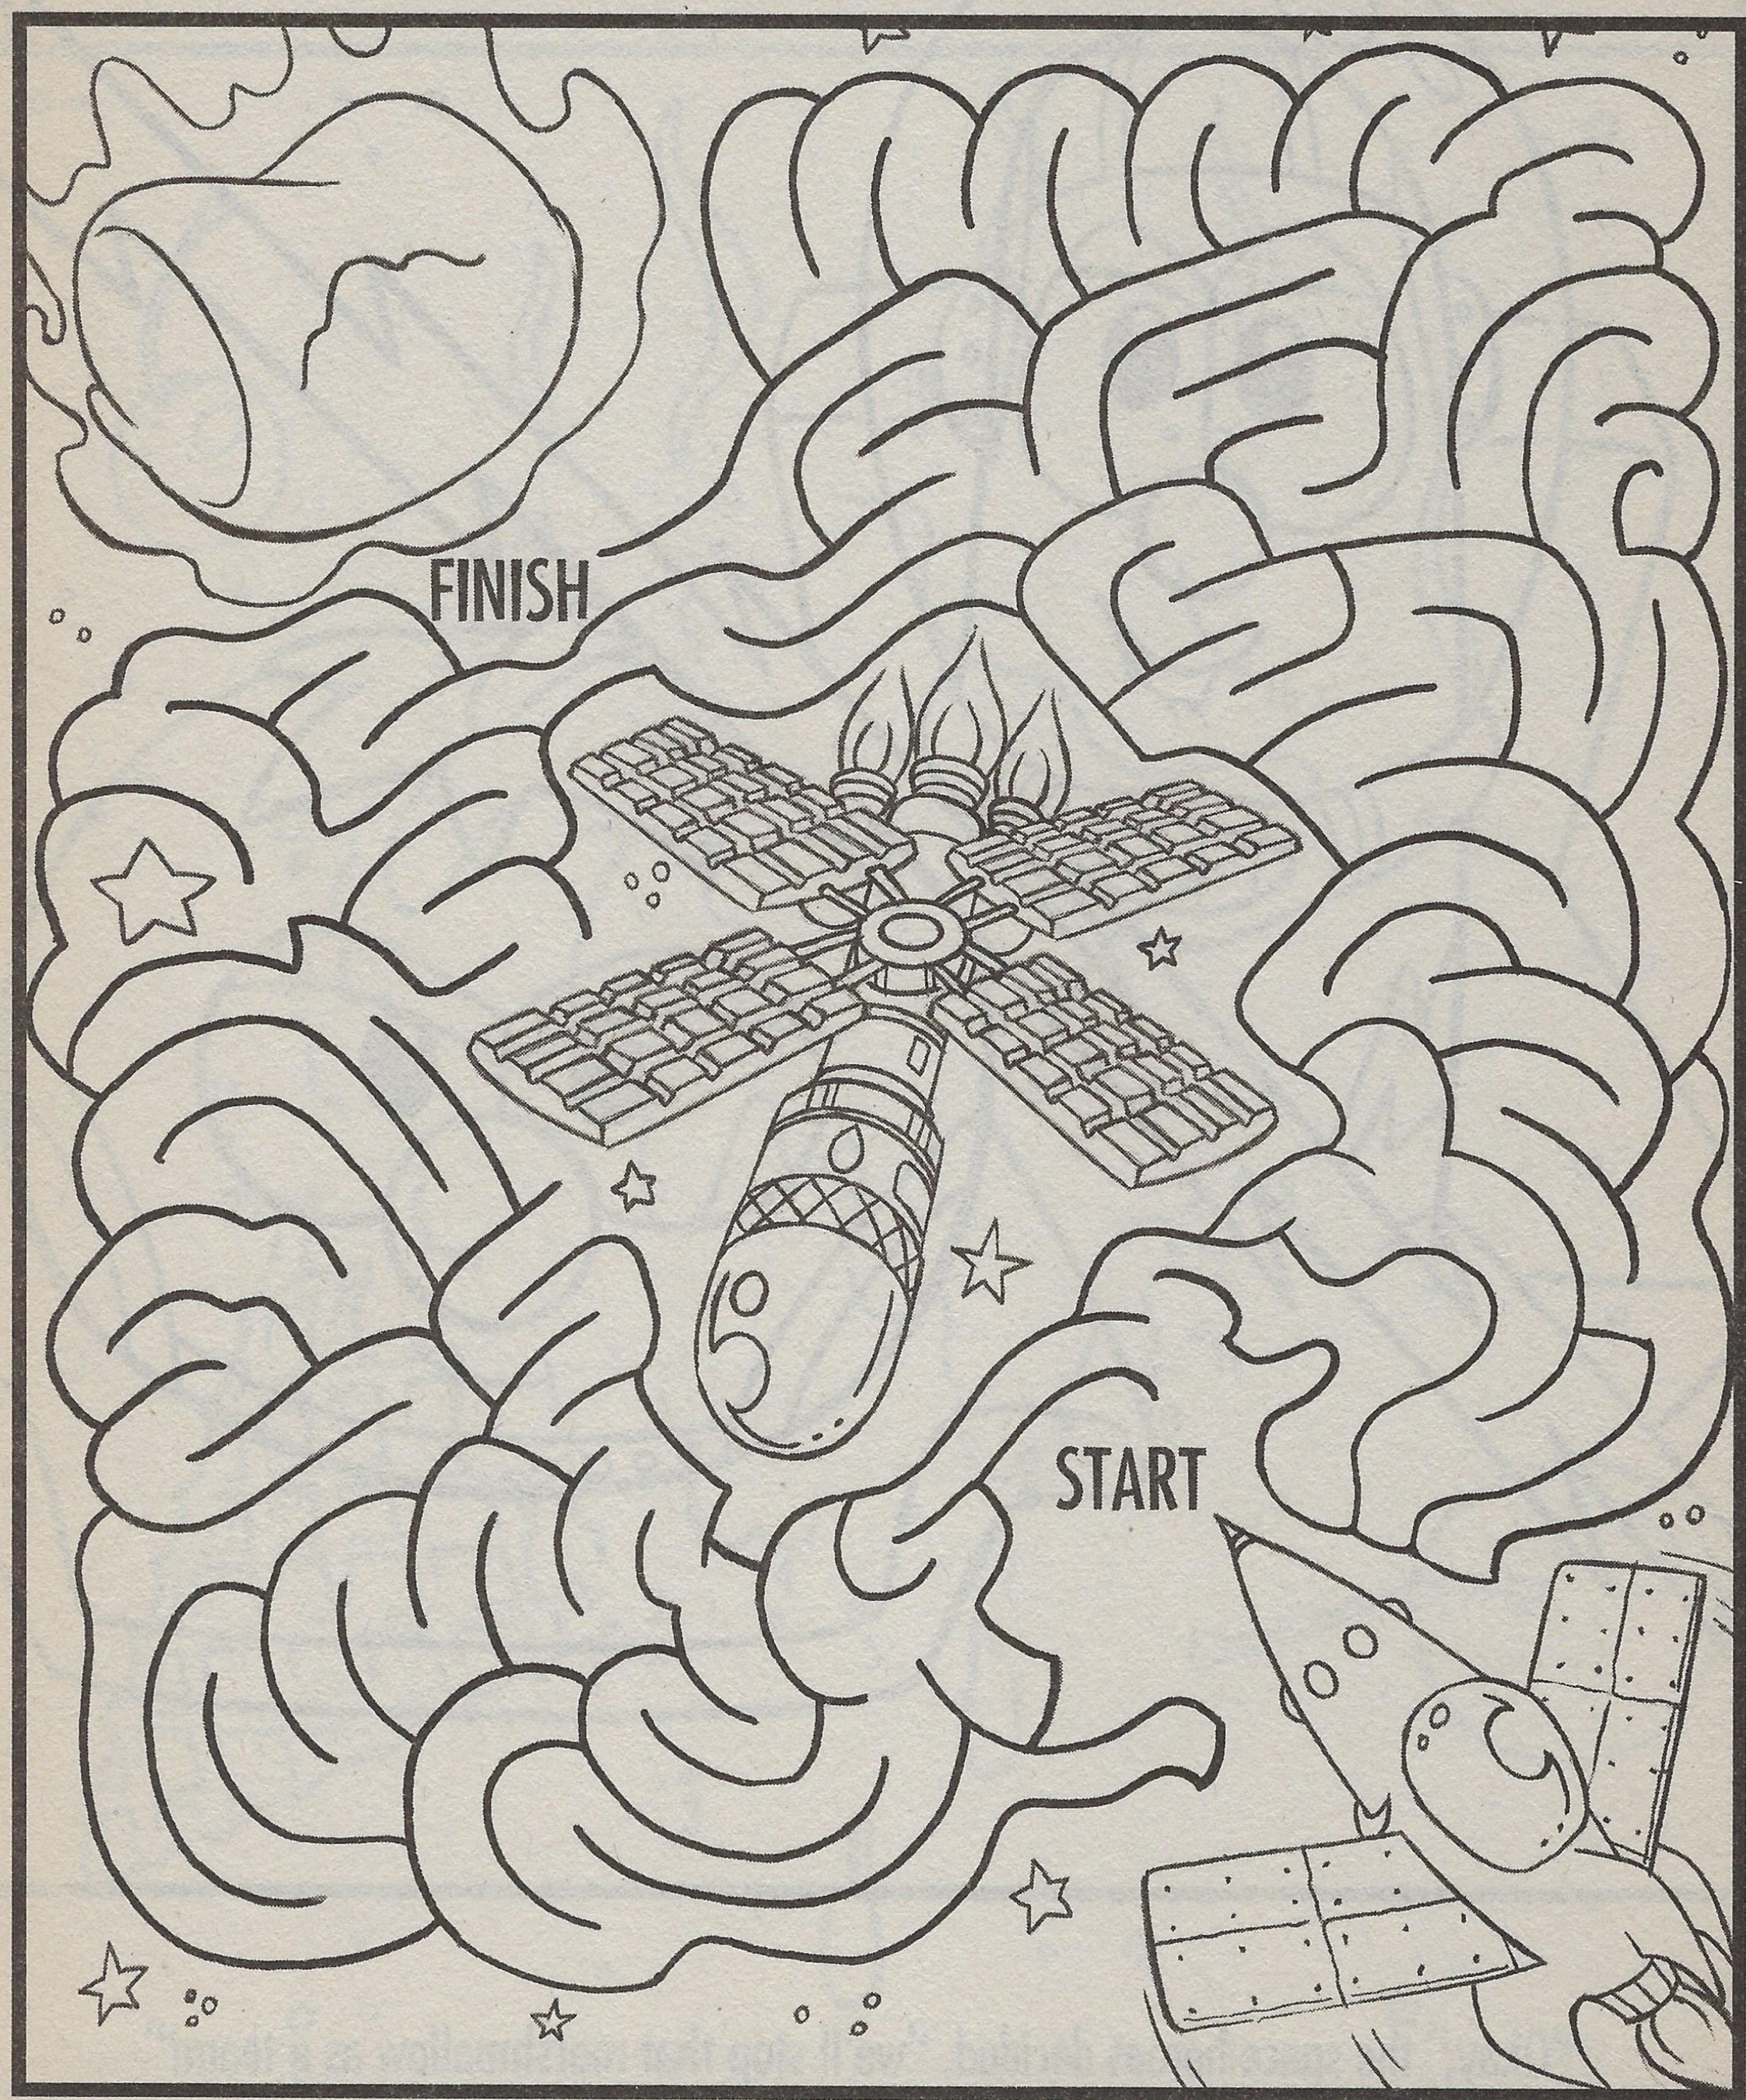


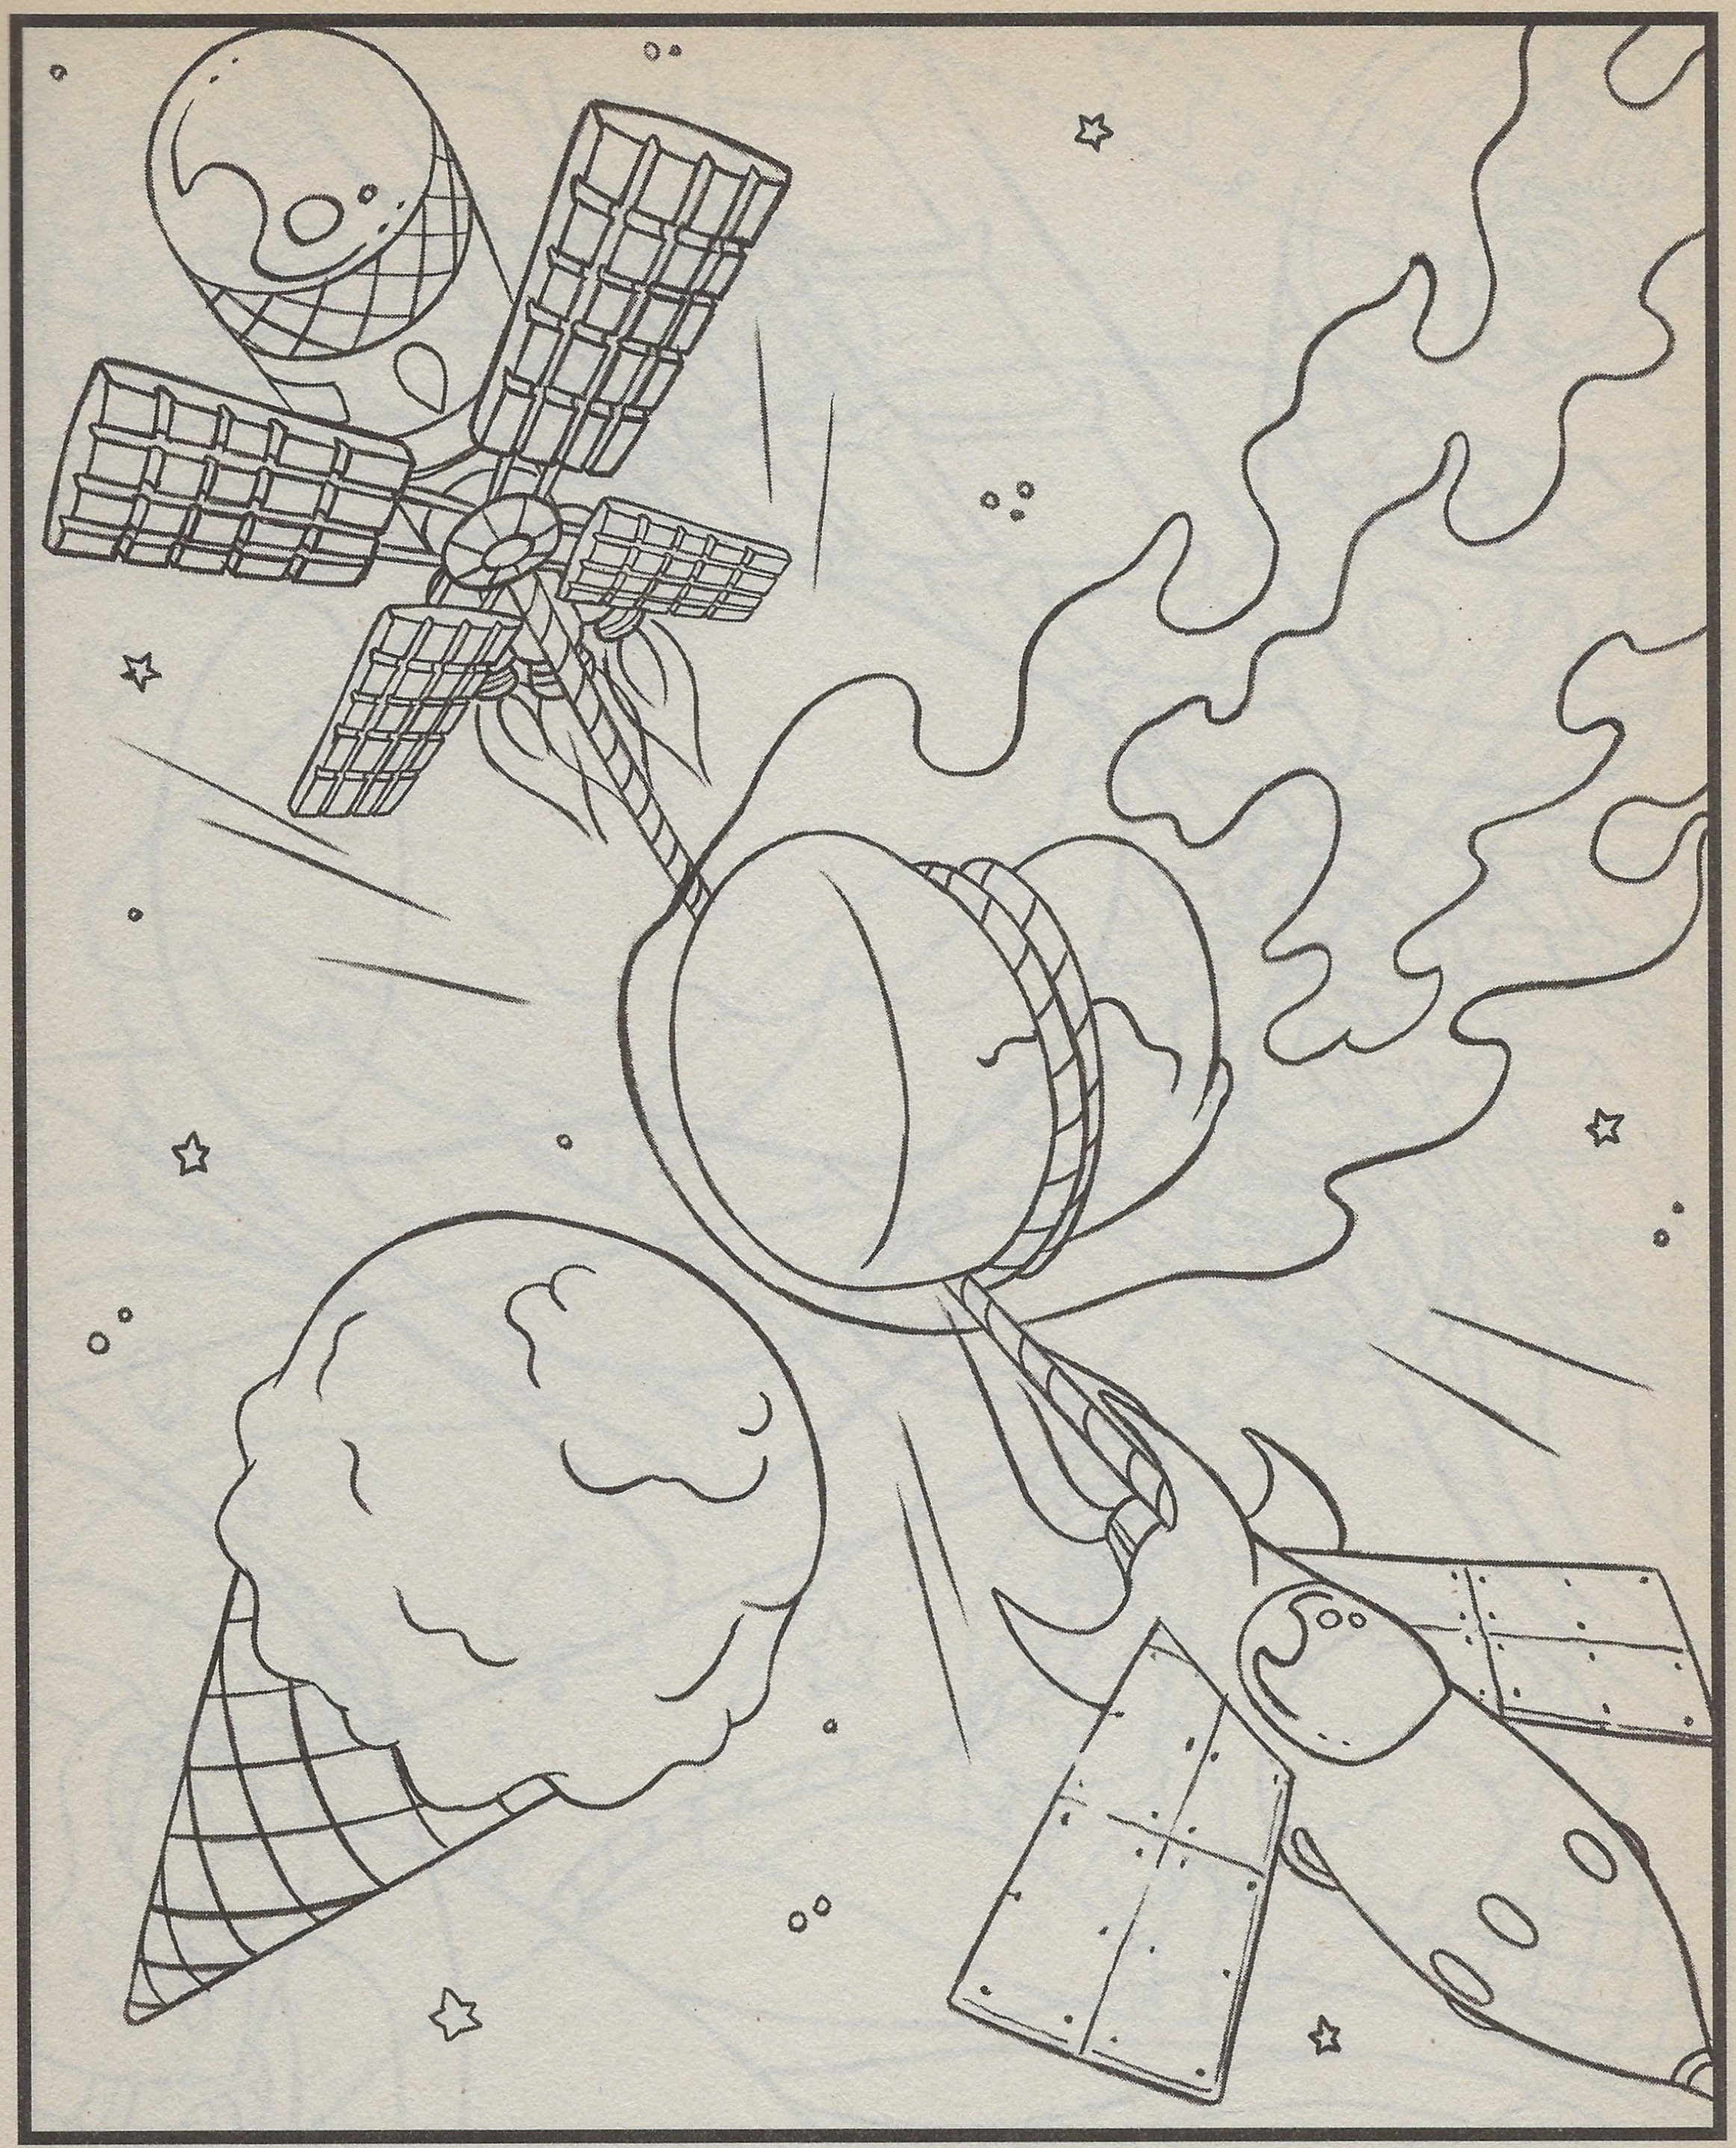
"Okay," the space heroes decided, "we'll stop that marshmallow as a team!"

© 2007 Big Idea, Inc.

Marshmallow Maze

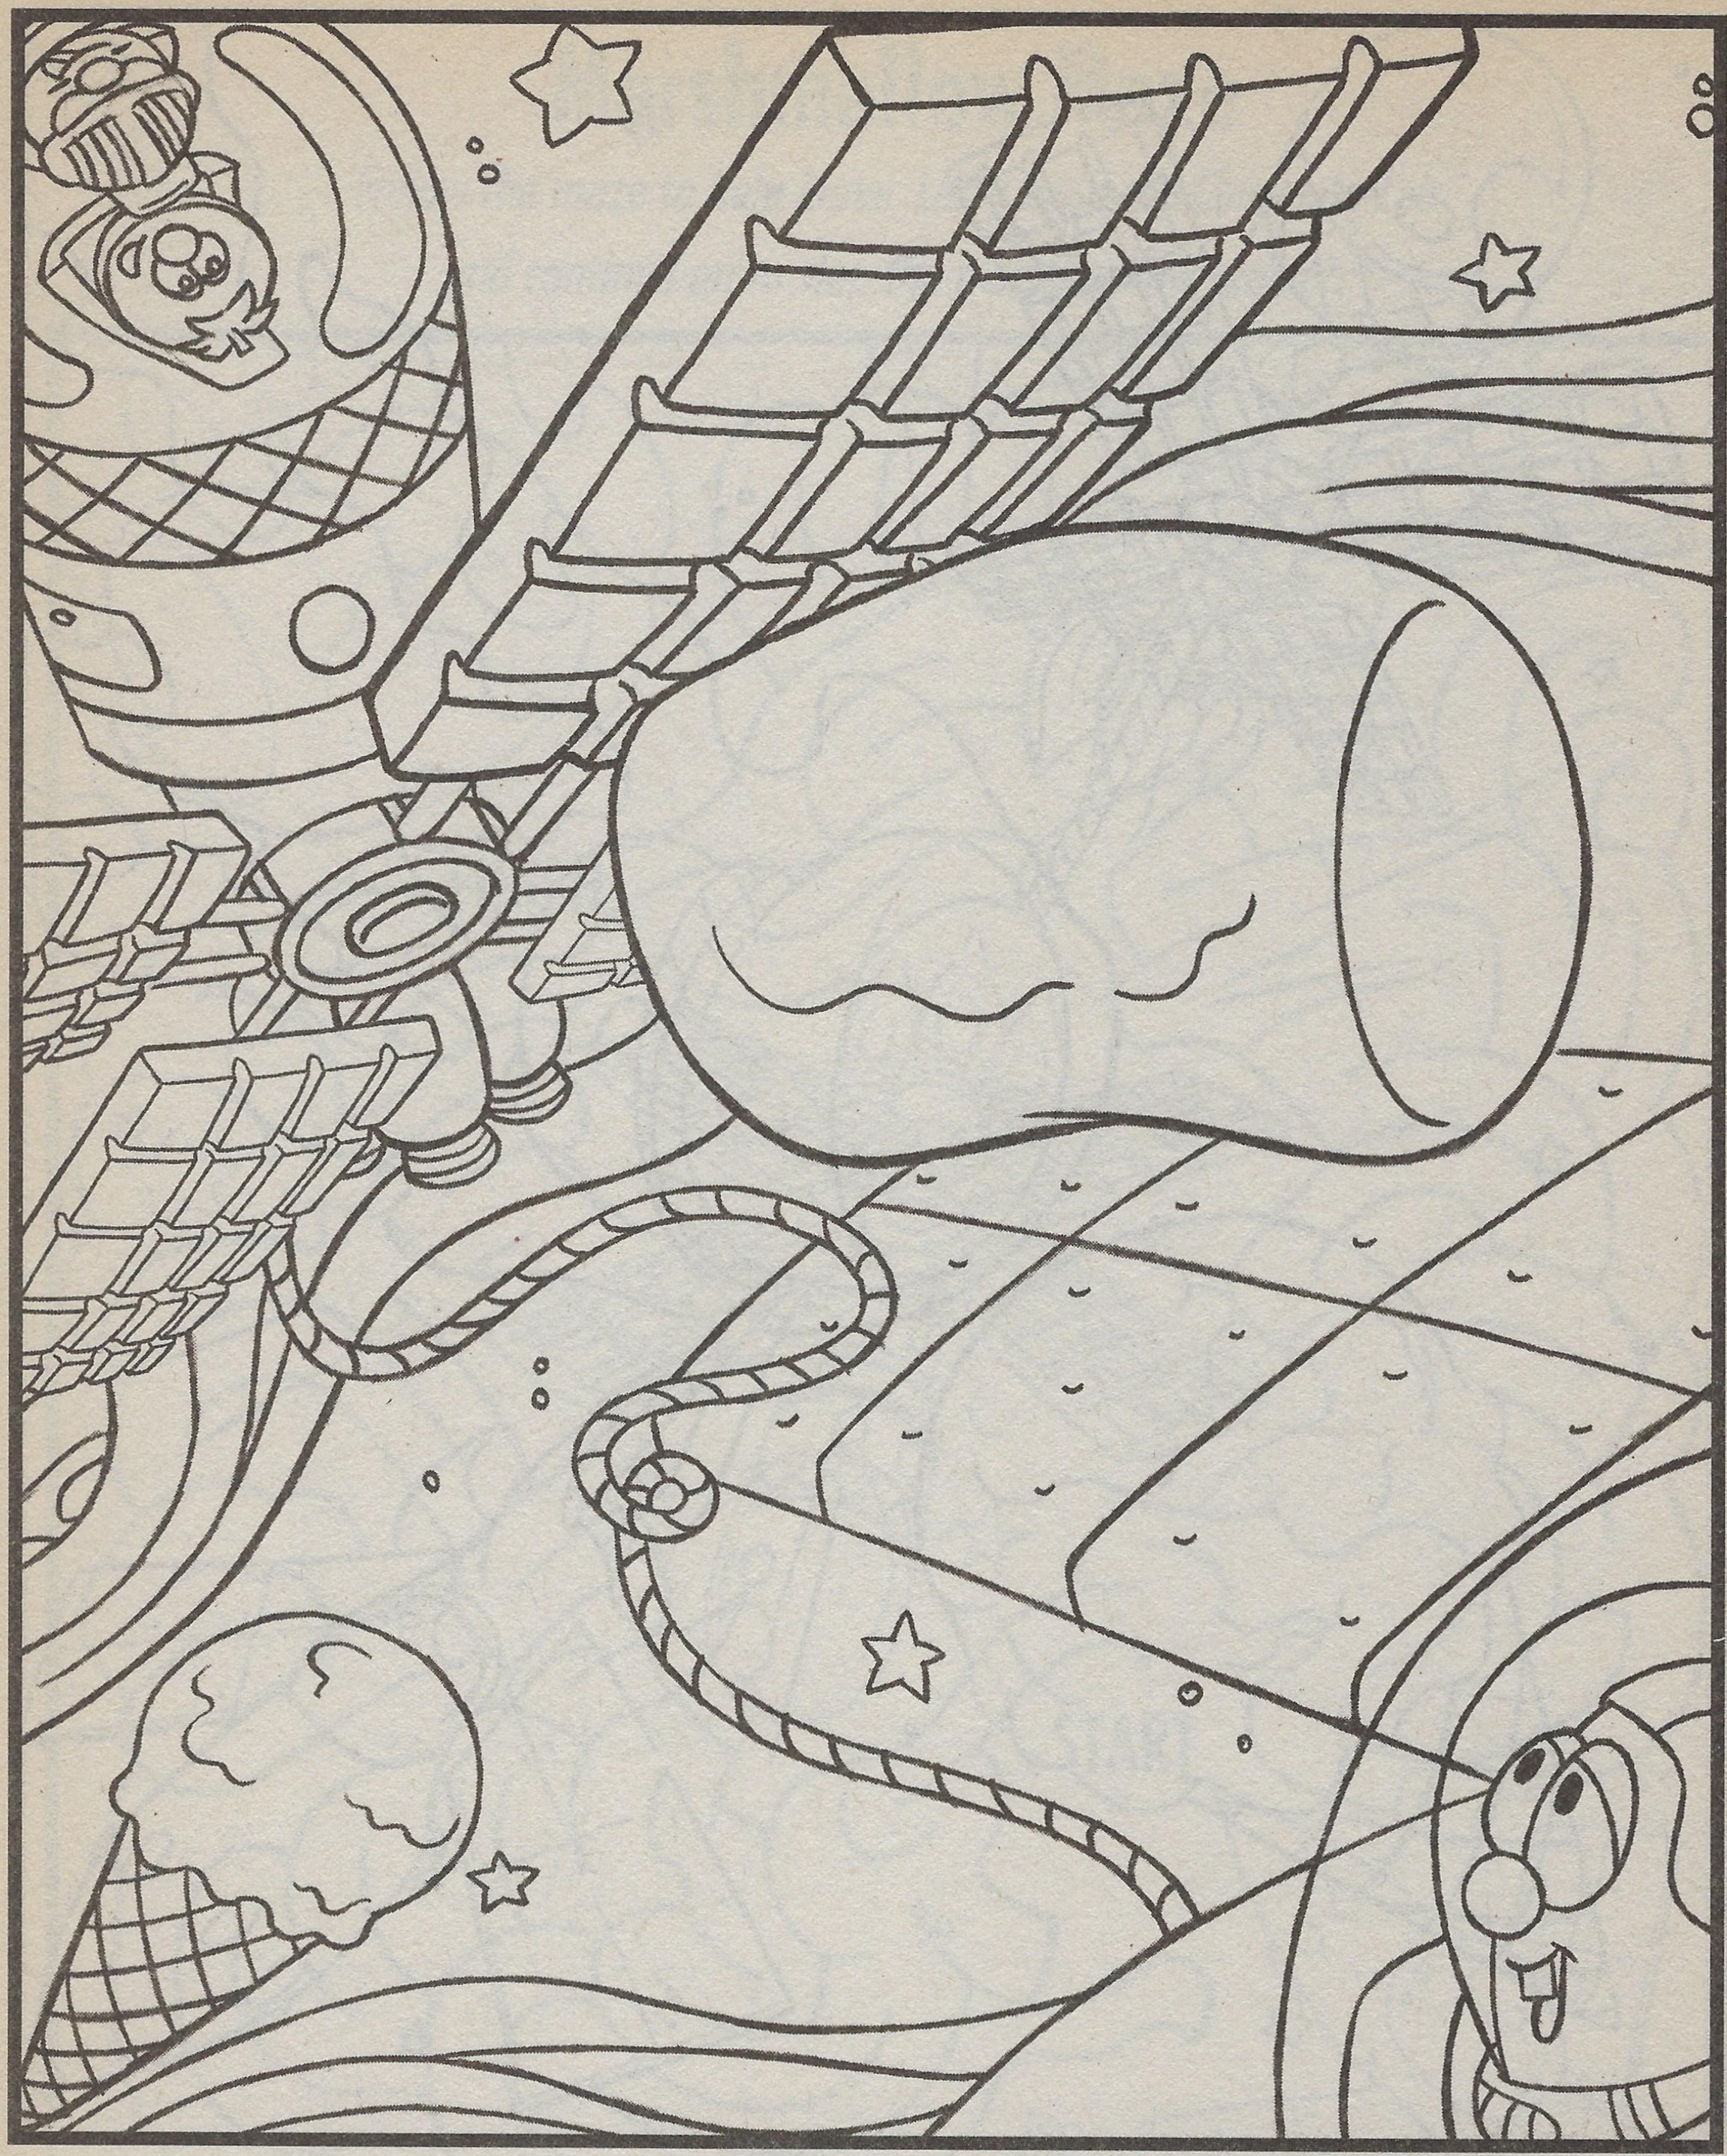
Follow the maze to help Lunar Larry lasso the Chocolate Lab and continue on to stop the marshmallow meteor.



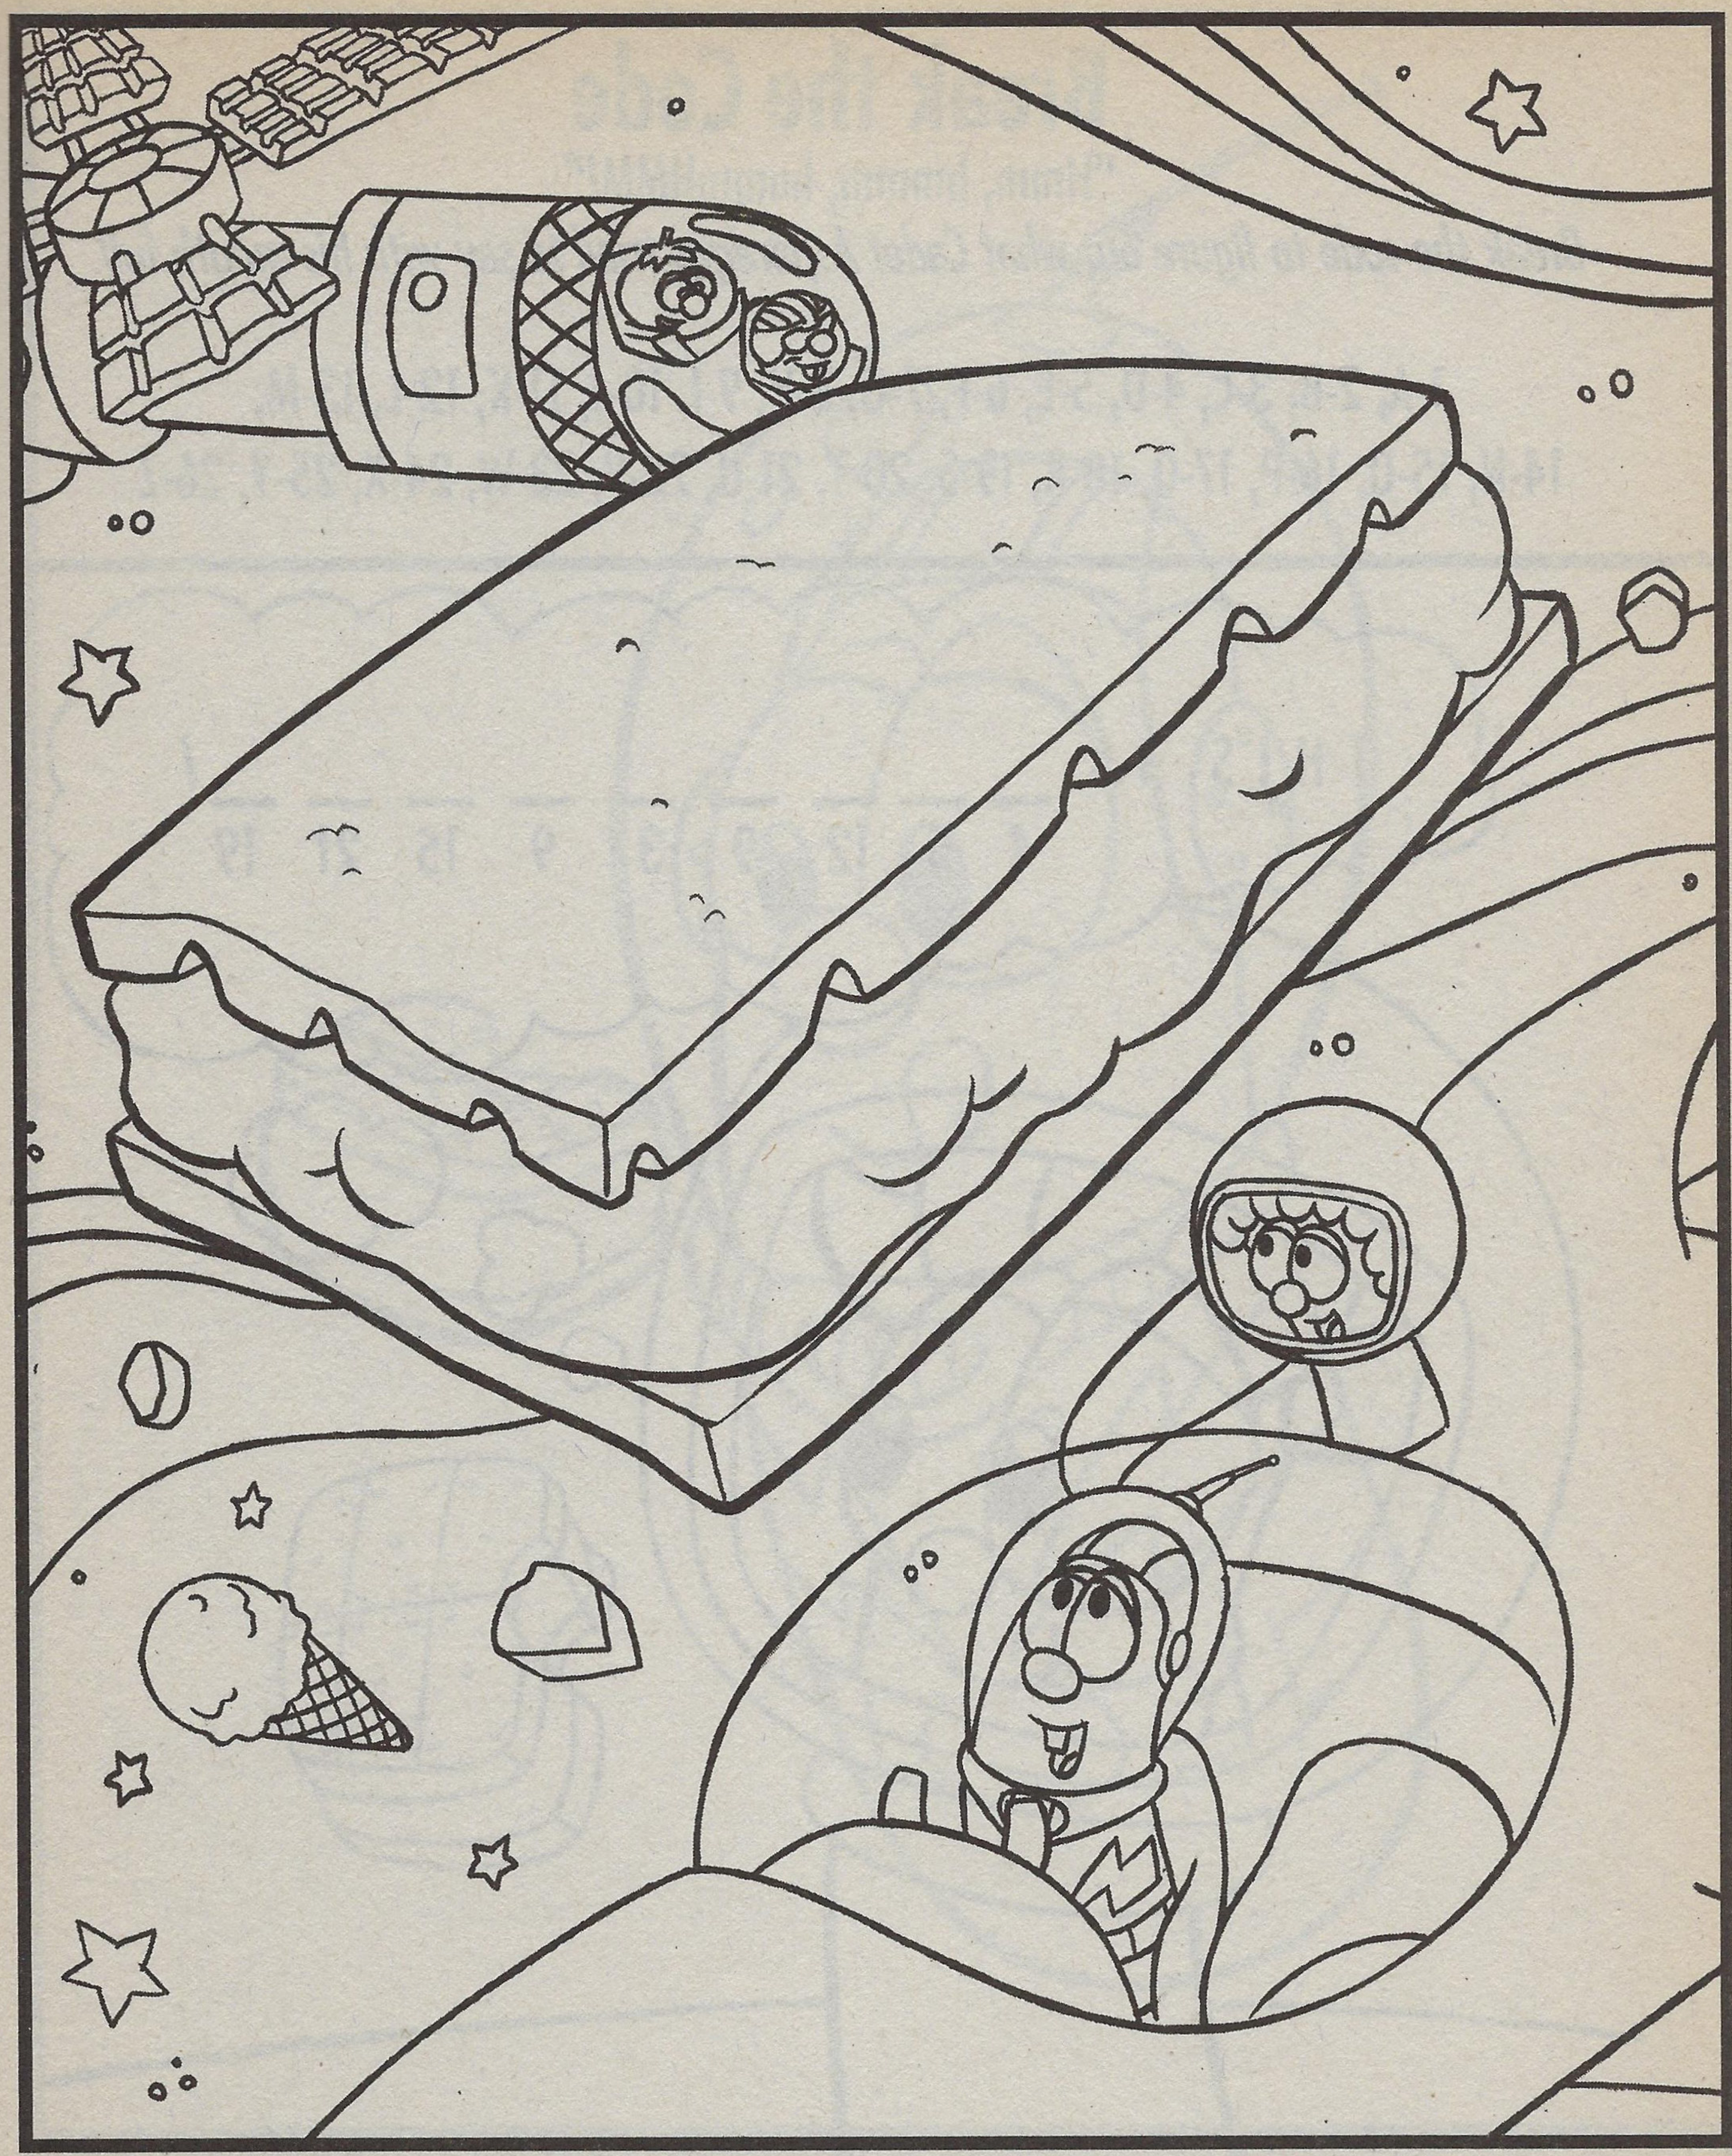


"Pull, everyone!" ordered Admiral Nezzer.

© 2007 Big Idea, Inc.



The plan worked!



"We did it!" they all cheered. "Planet Cone is saved!"

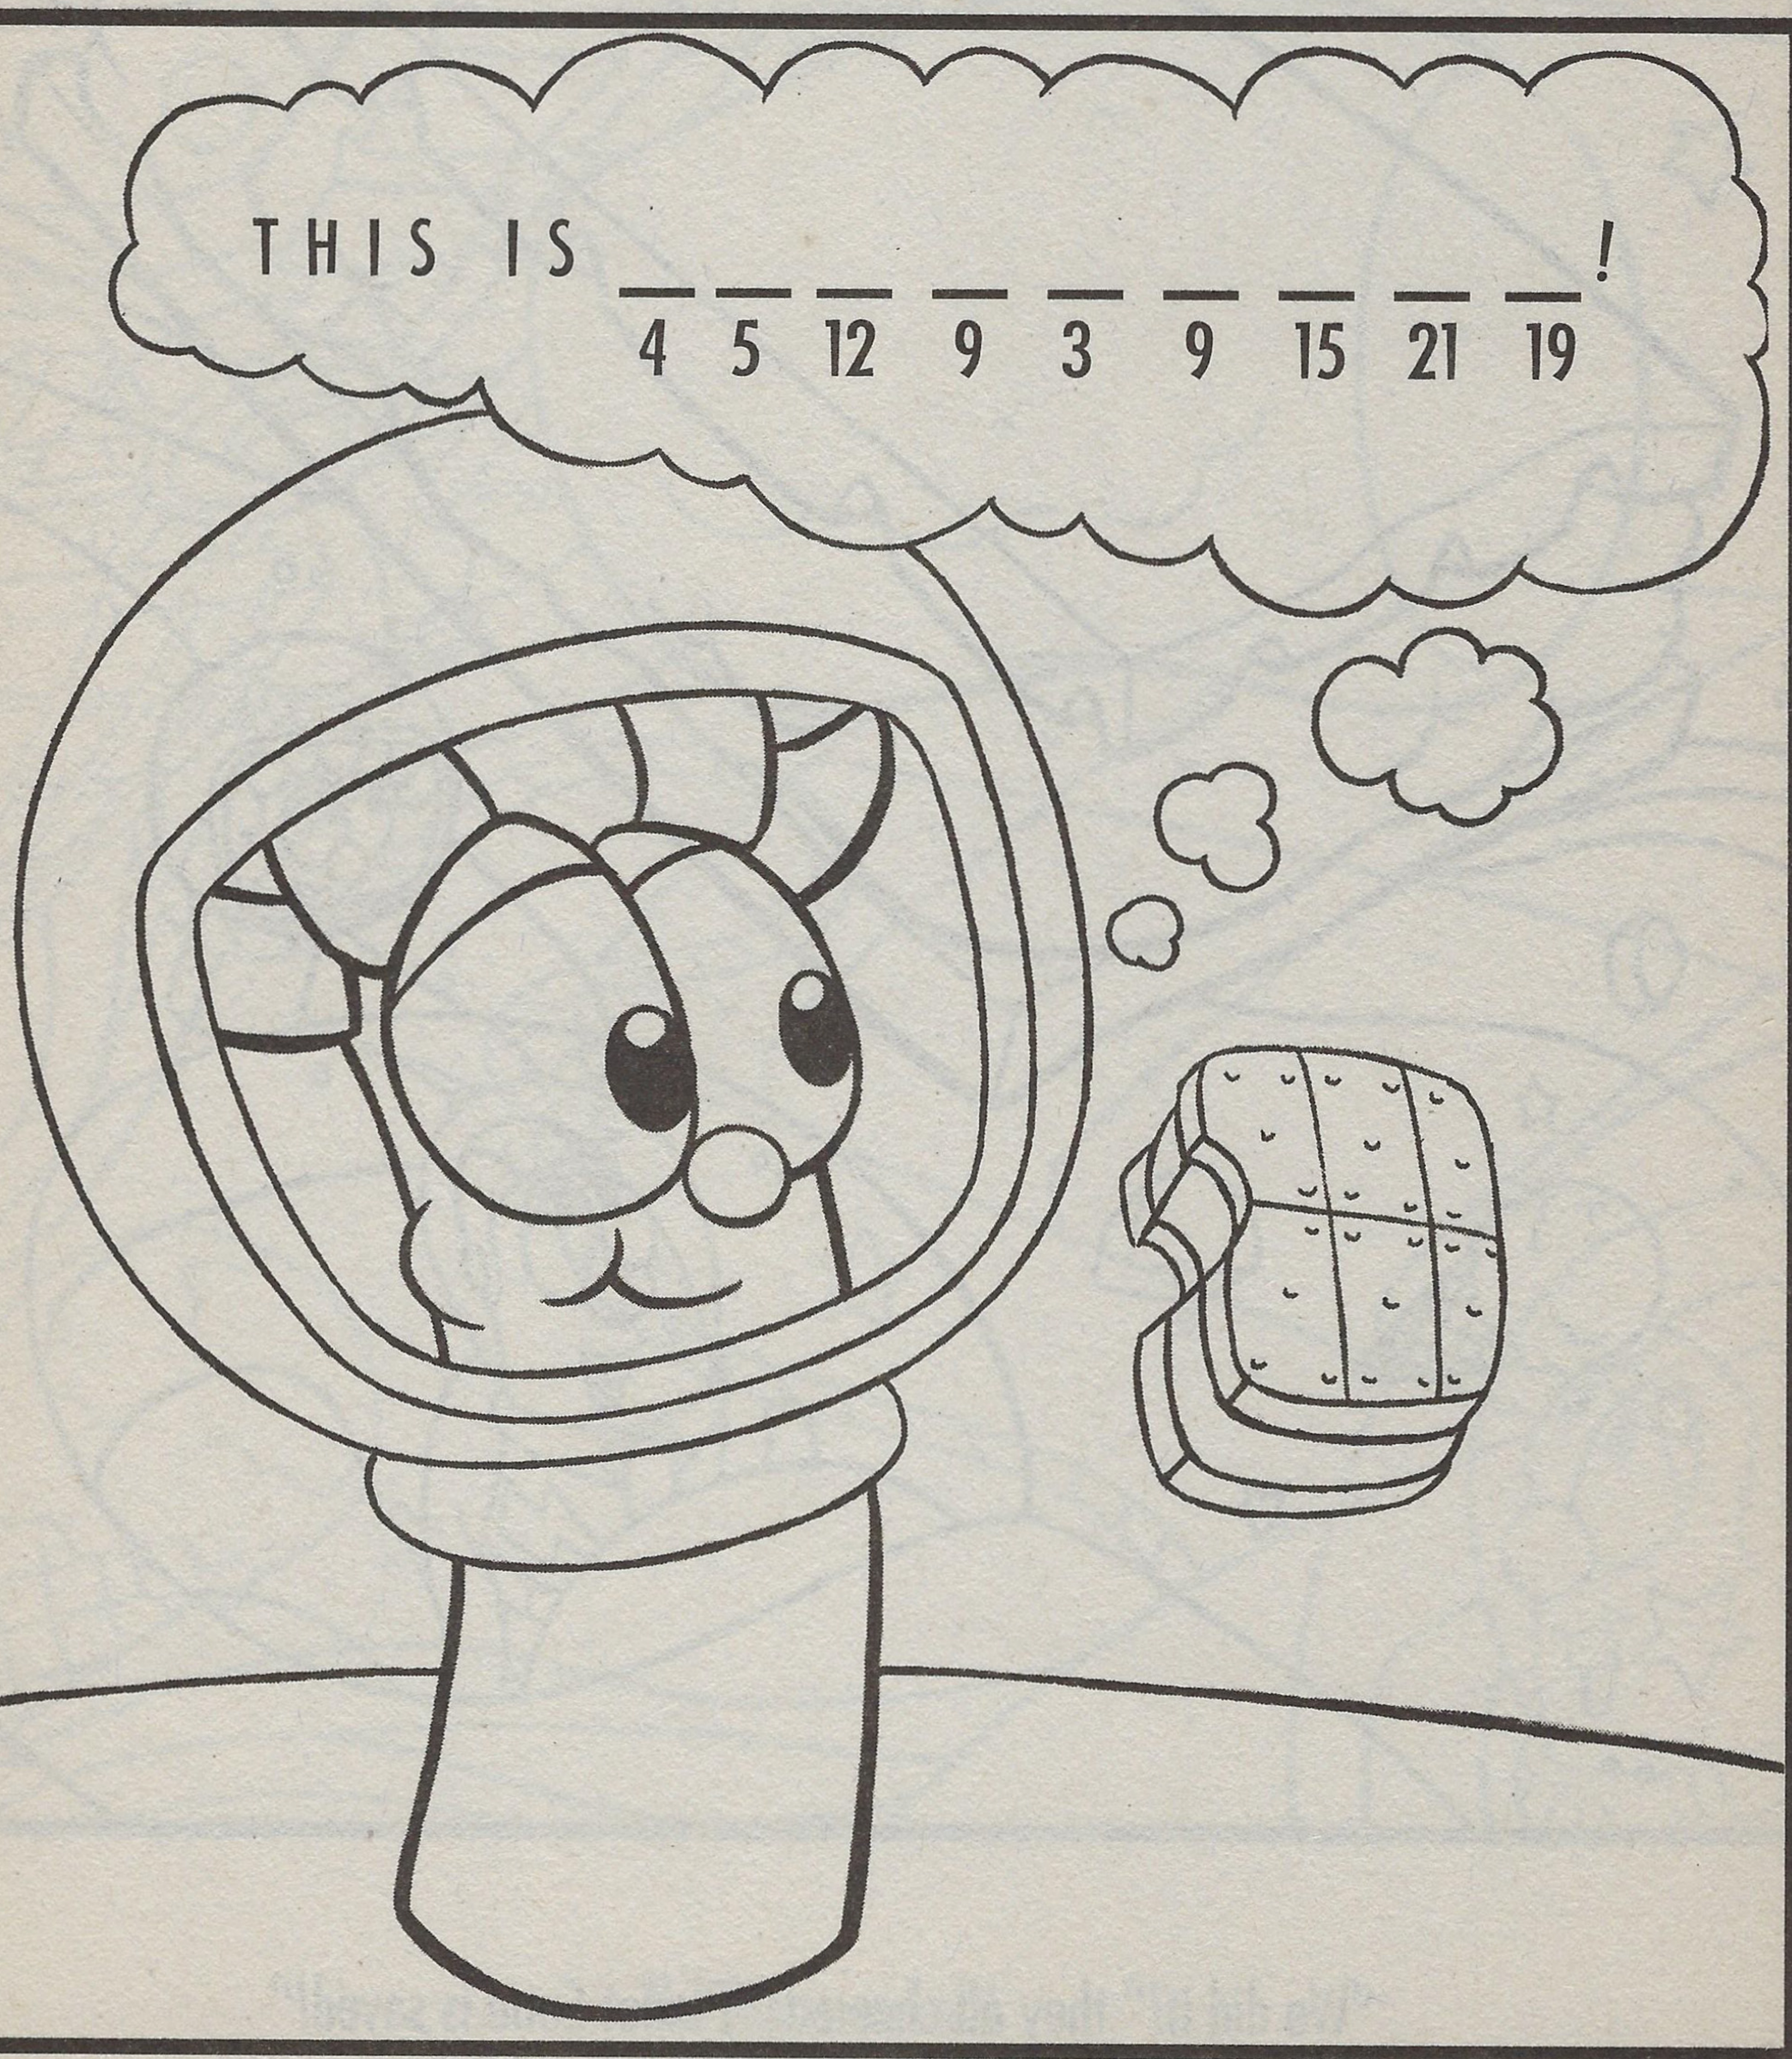
© 2007 Big Idea, Inc.

Break the Code

"Hmm, hmmm, hummHMM!"

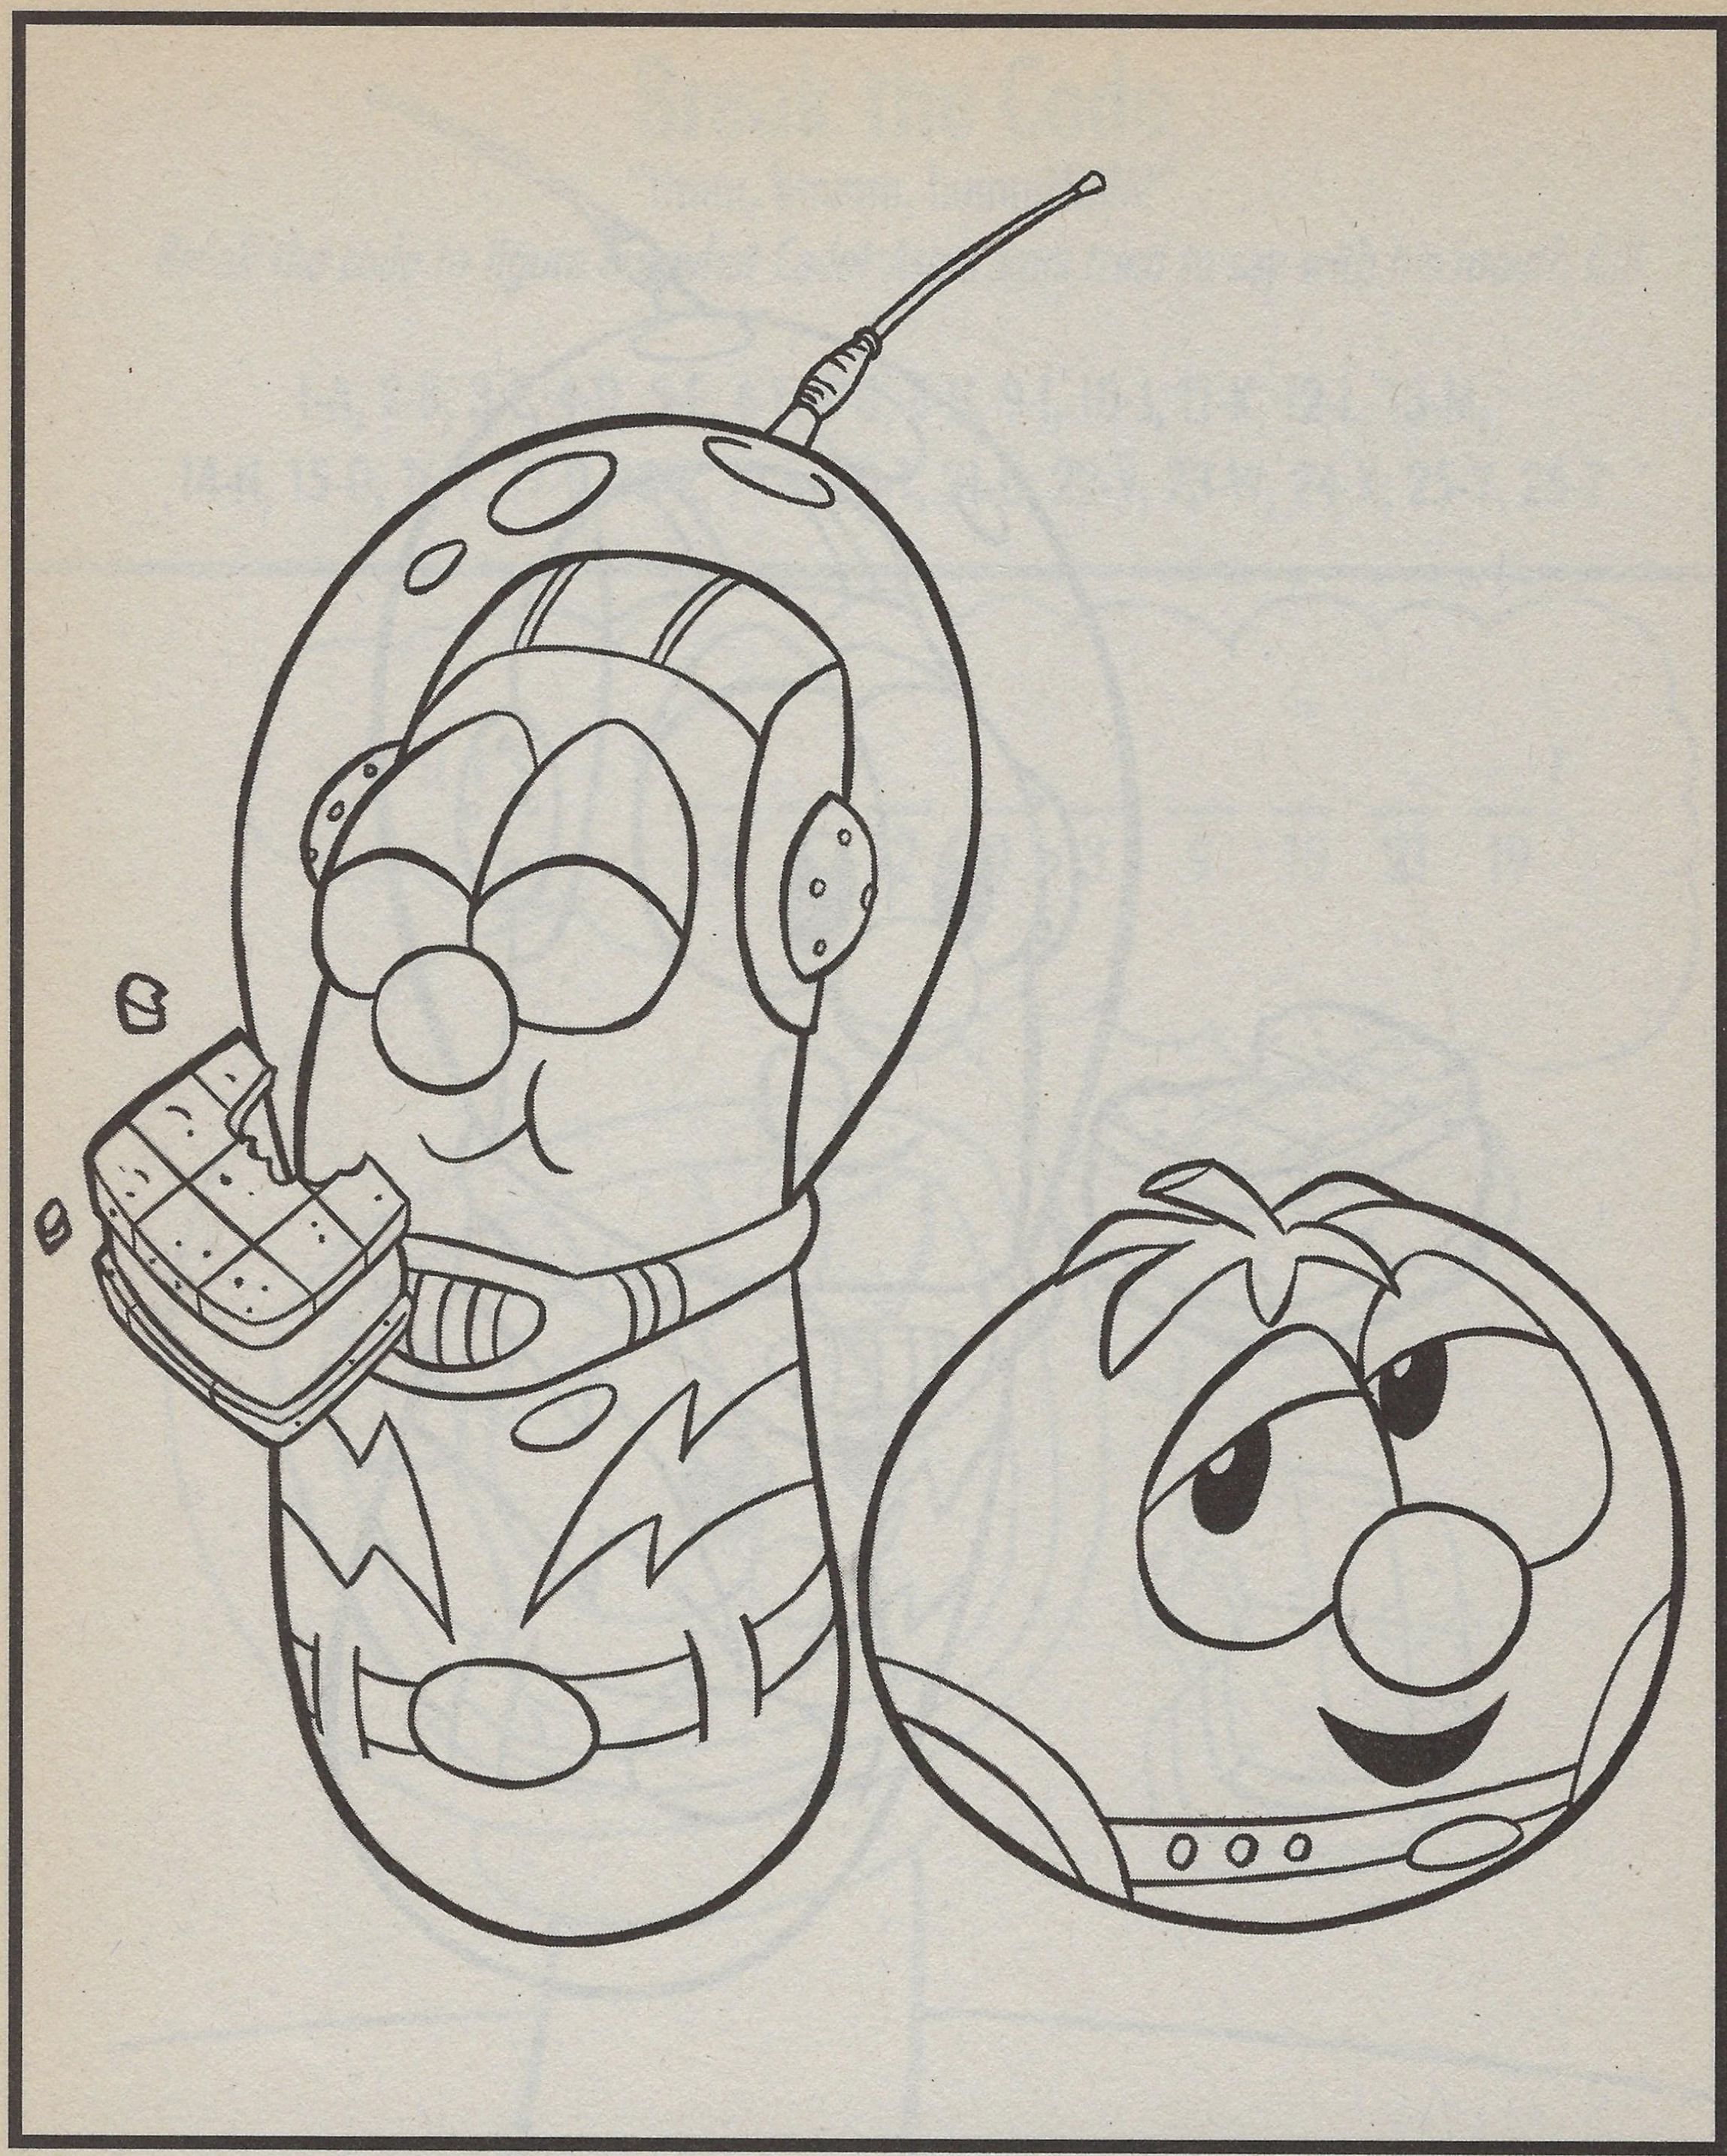
Break the code to figure out what Cadet Asparagus tried to say with his mouth full.

1-A, 2-B, 3-C, 4-D, 5-E, 6-F, 7-G, 8-H, 9-I, 10-J, 11-K, 12-L, 13-M,
14-N, 15-O, 16-P, 17-Q, 18-R, 19-S, 20-T, 21-U, 22-V, 23-W, 24-X, 25-Y, 26-Z

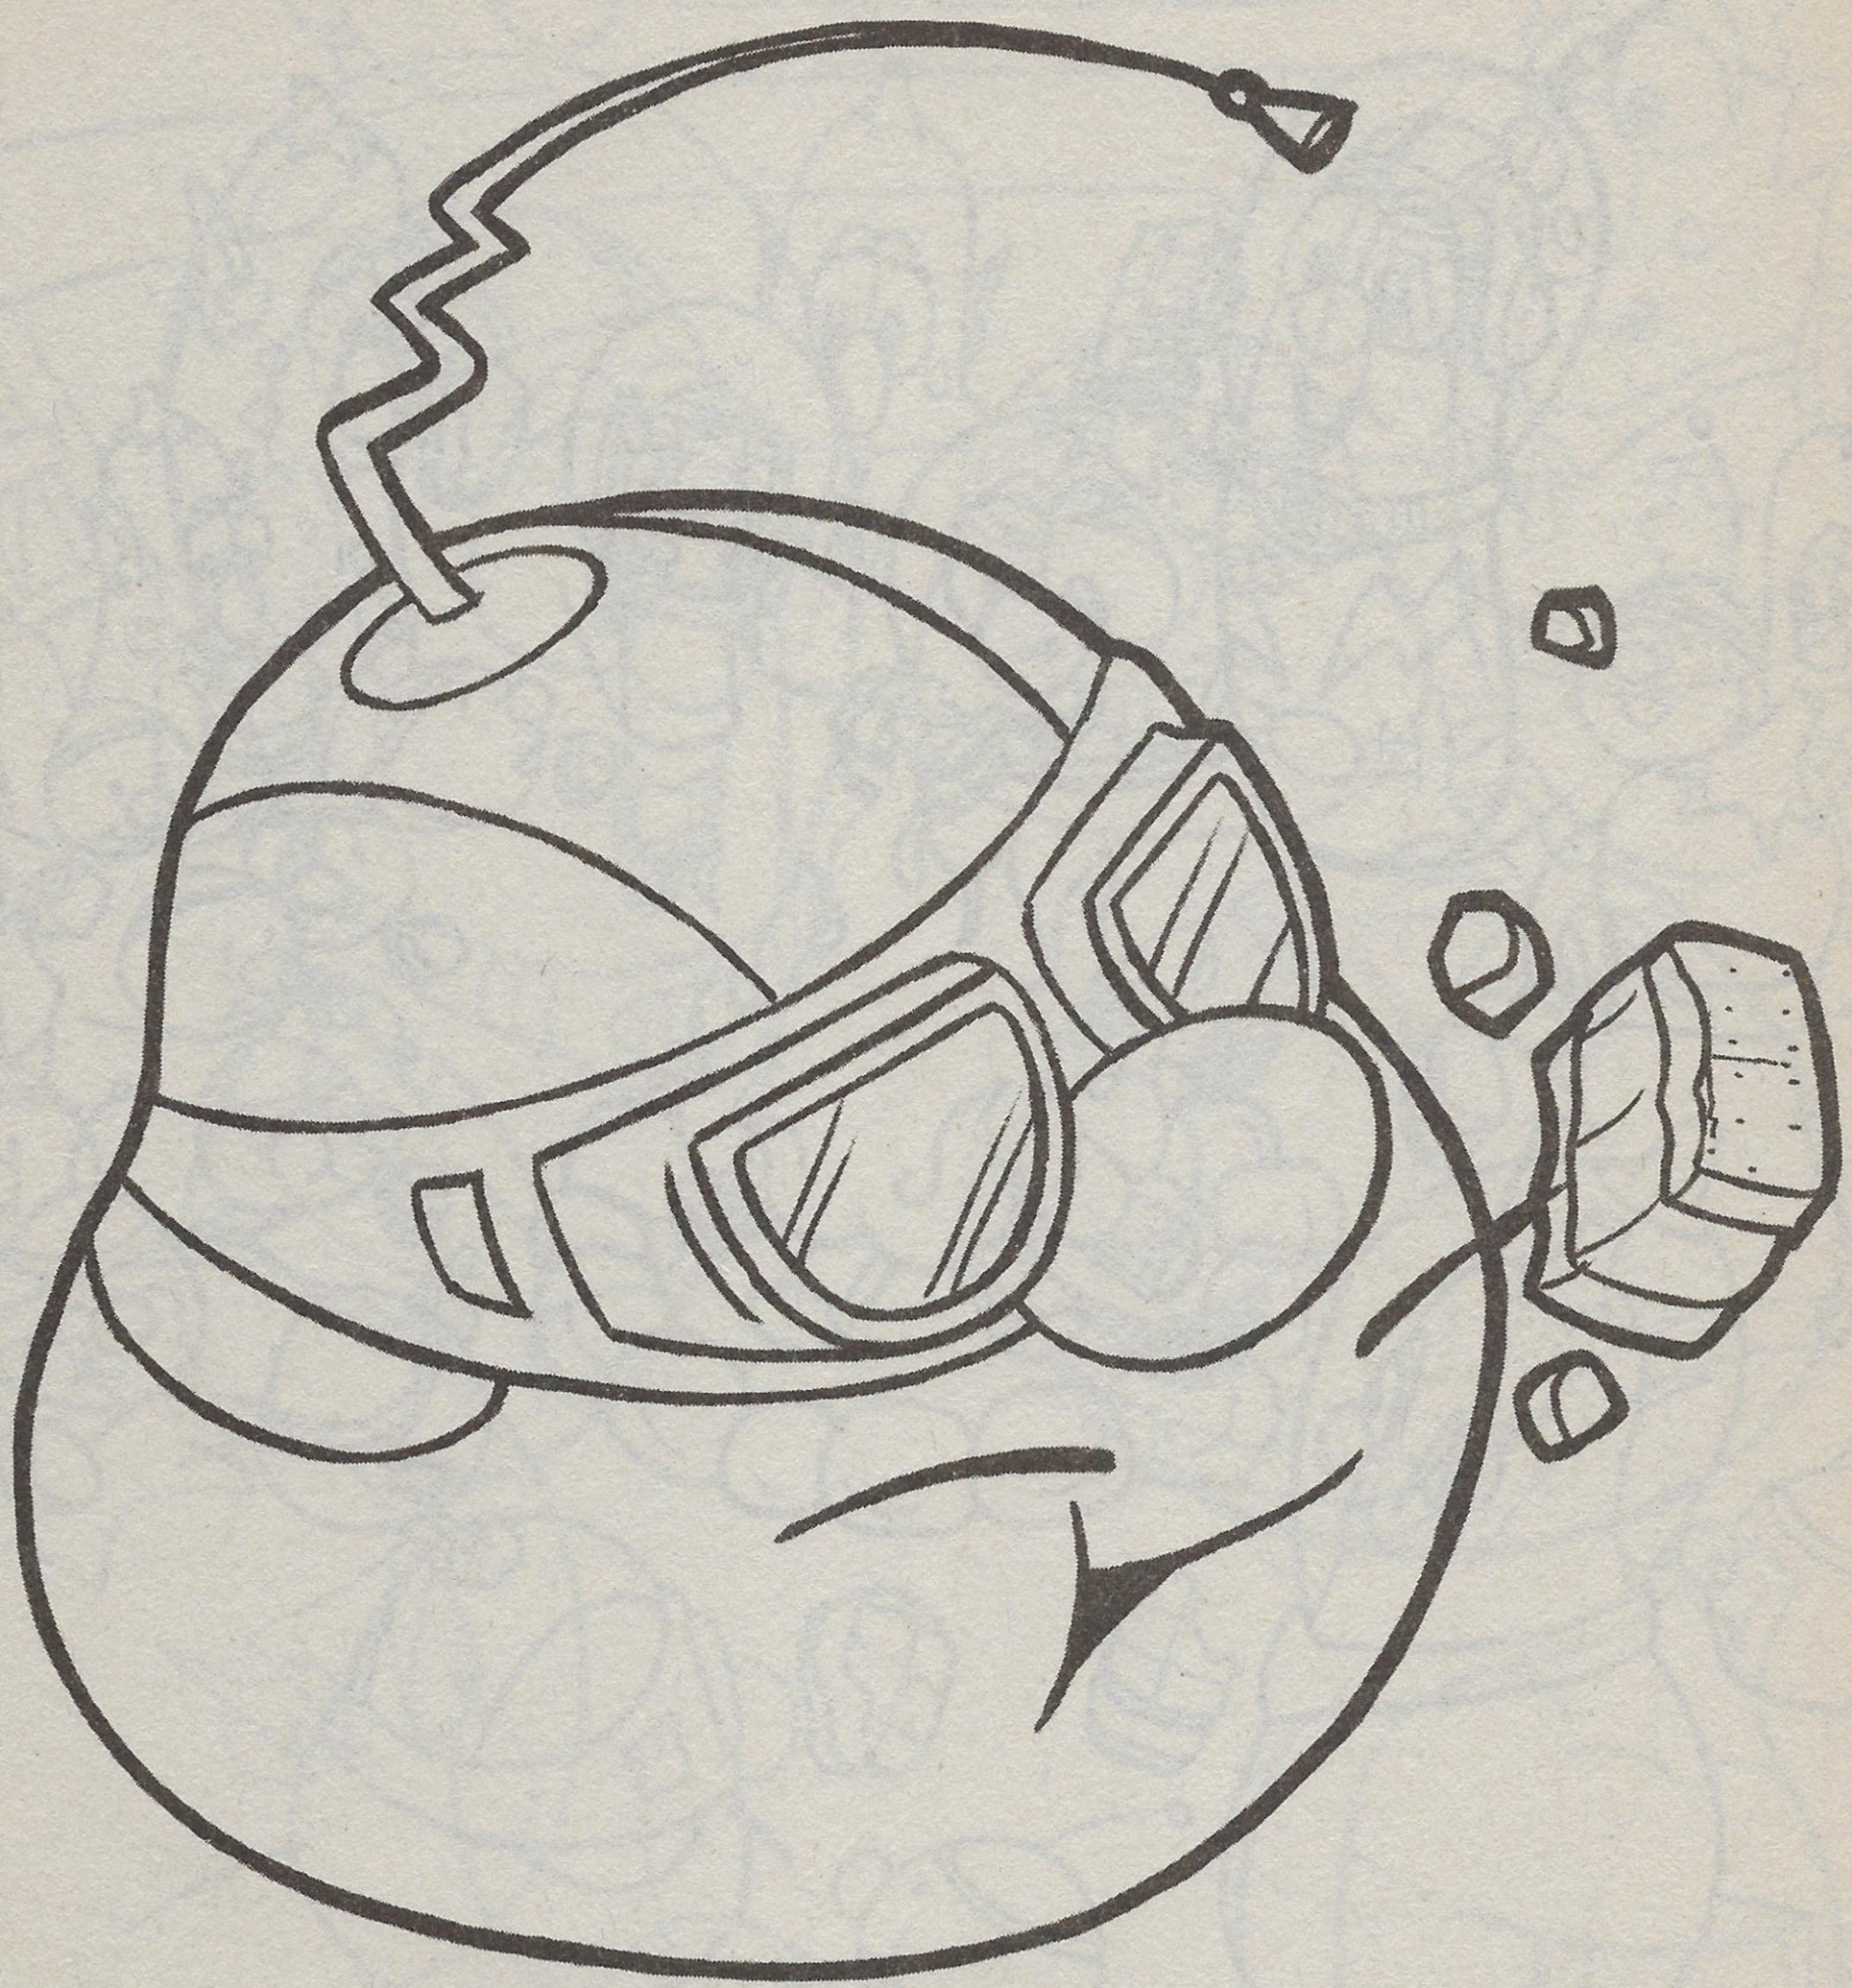


"Yummy!" said Lunar Larry. "Let's call it a choco-marshy-gram."

© 2007 Big Idea, Inc.

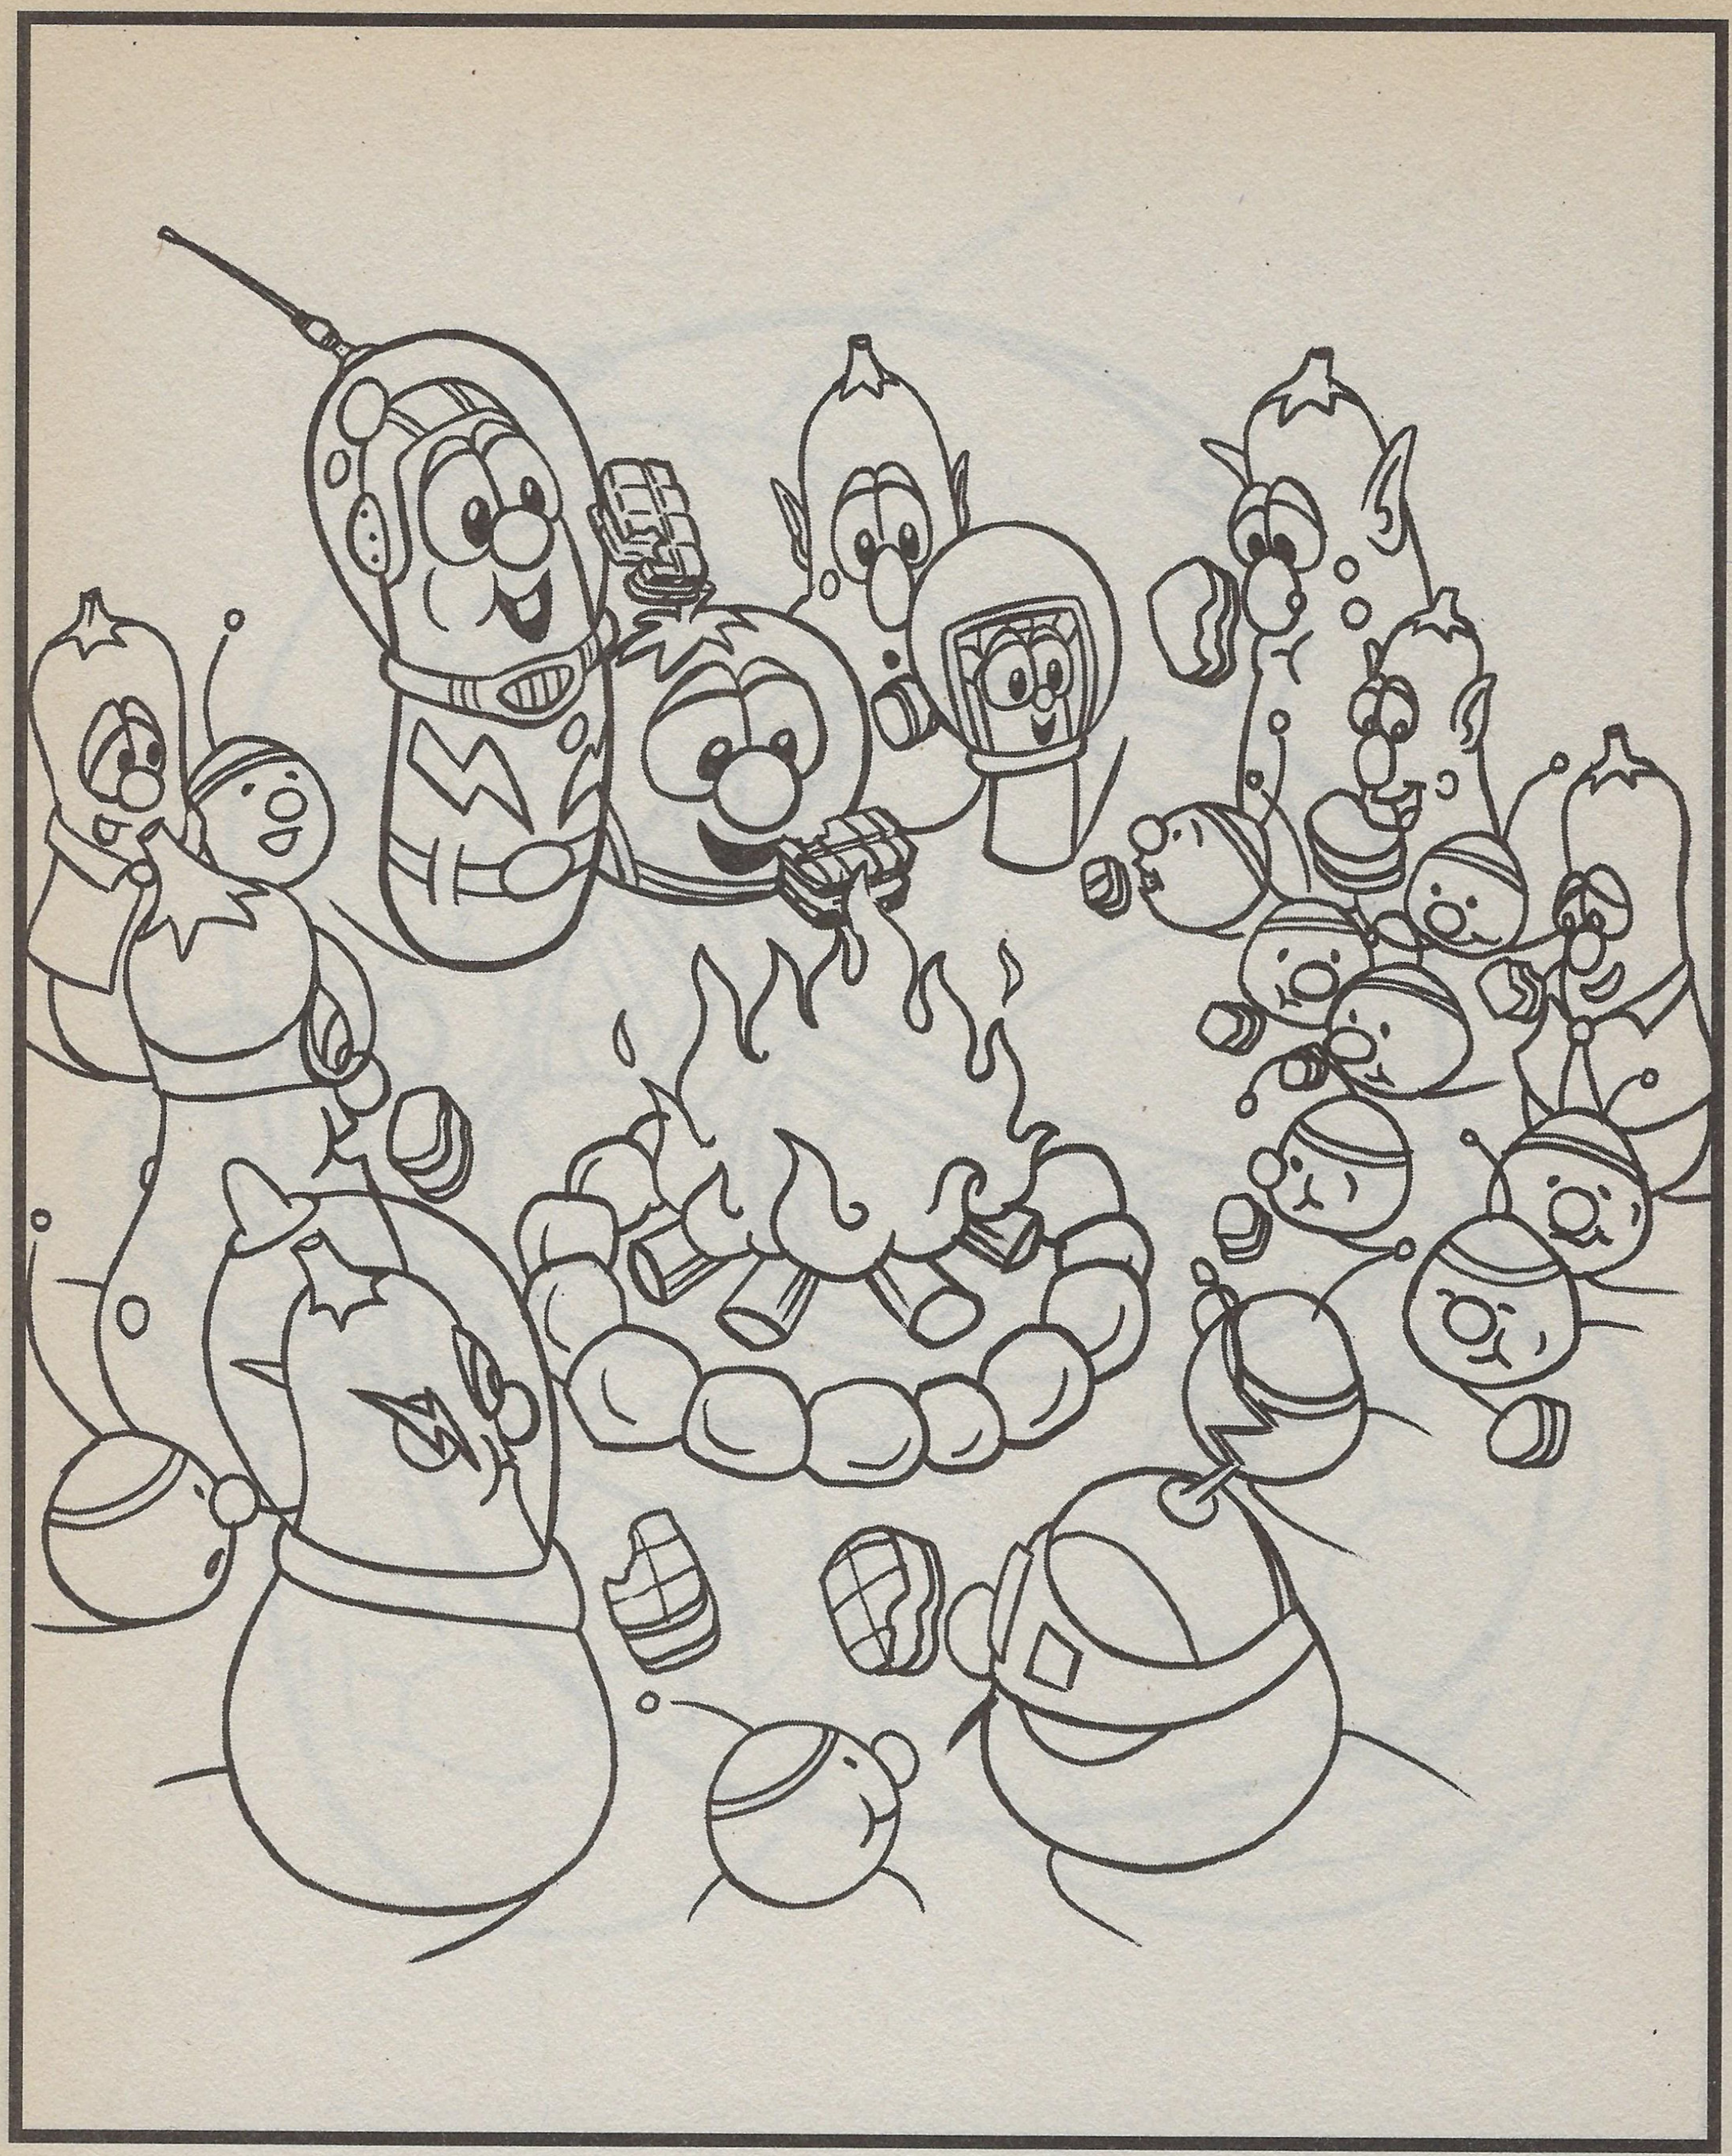


"That doesn't sound right," argued Captain Bob. "How about calling it a grammy-choc-mallow?"

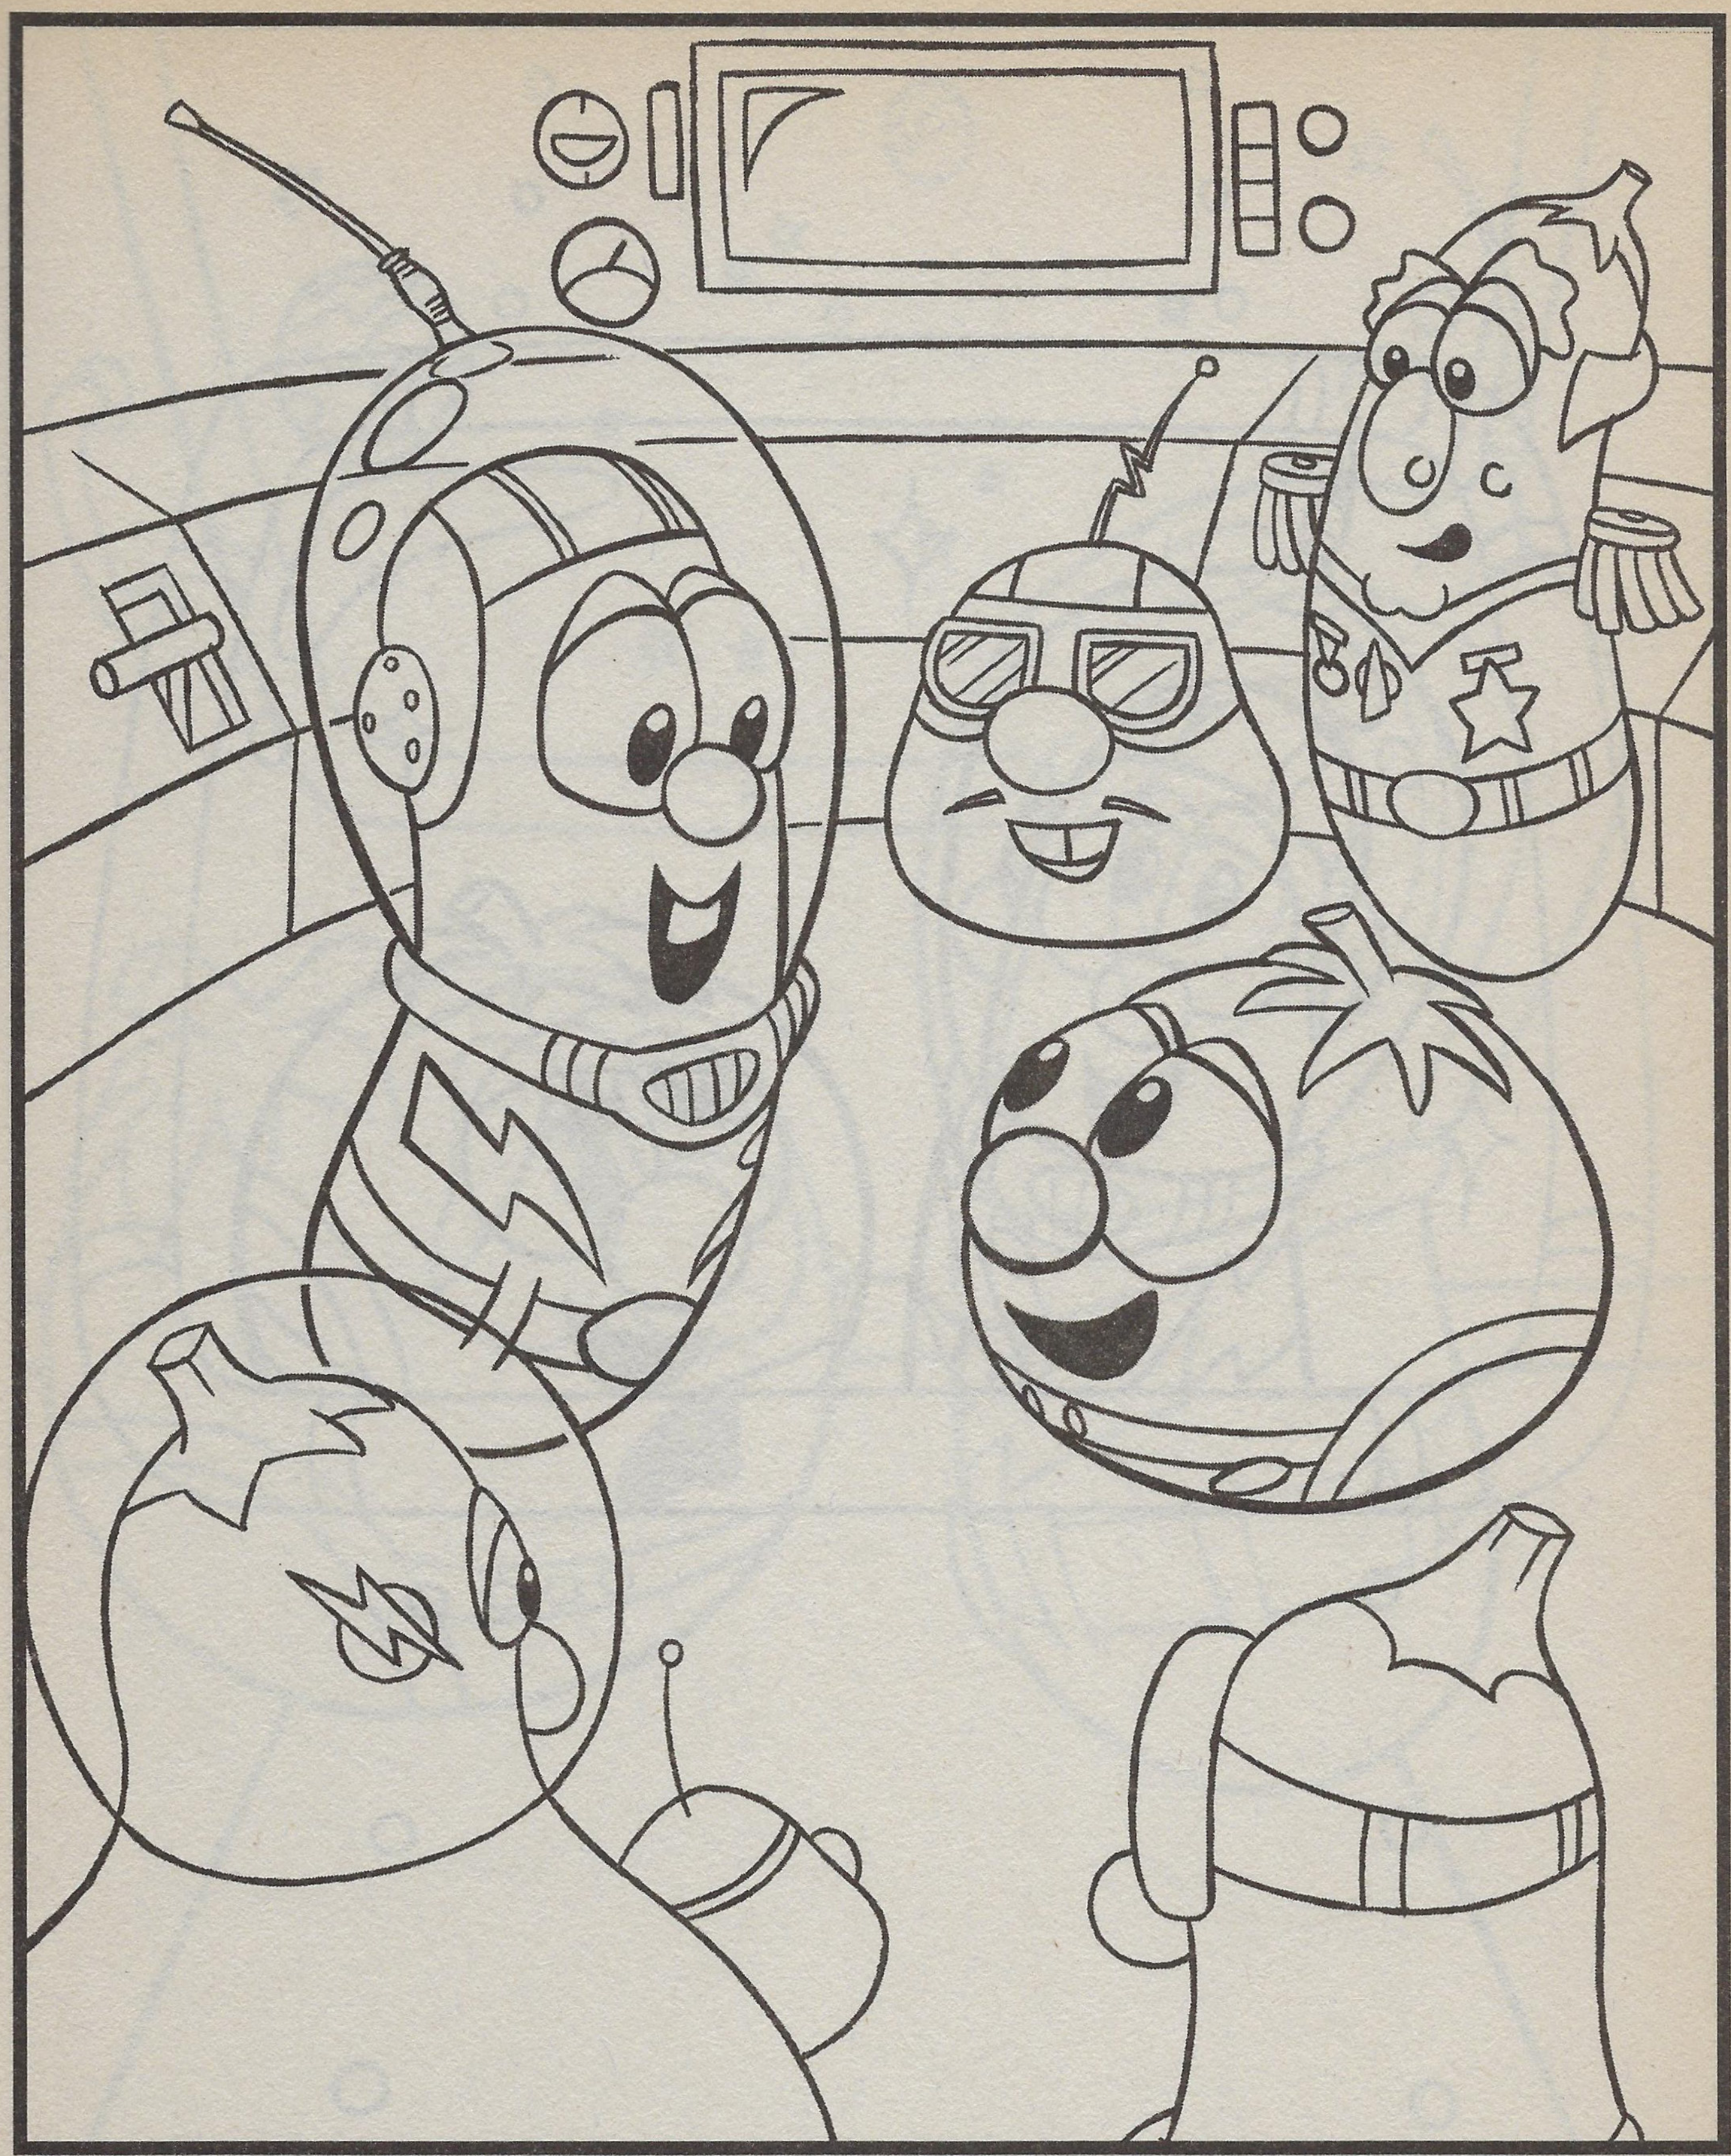


"I don't care what you call it," said Mr. Lunt. "May I please have *s'more*?"

© 2007 Big Idea, Inc.

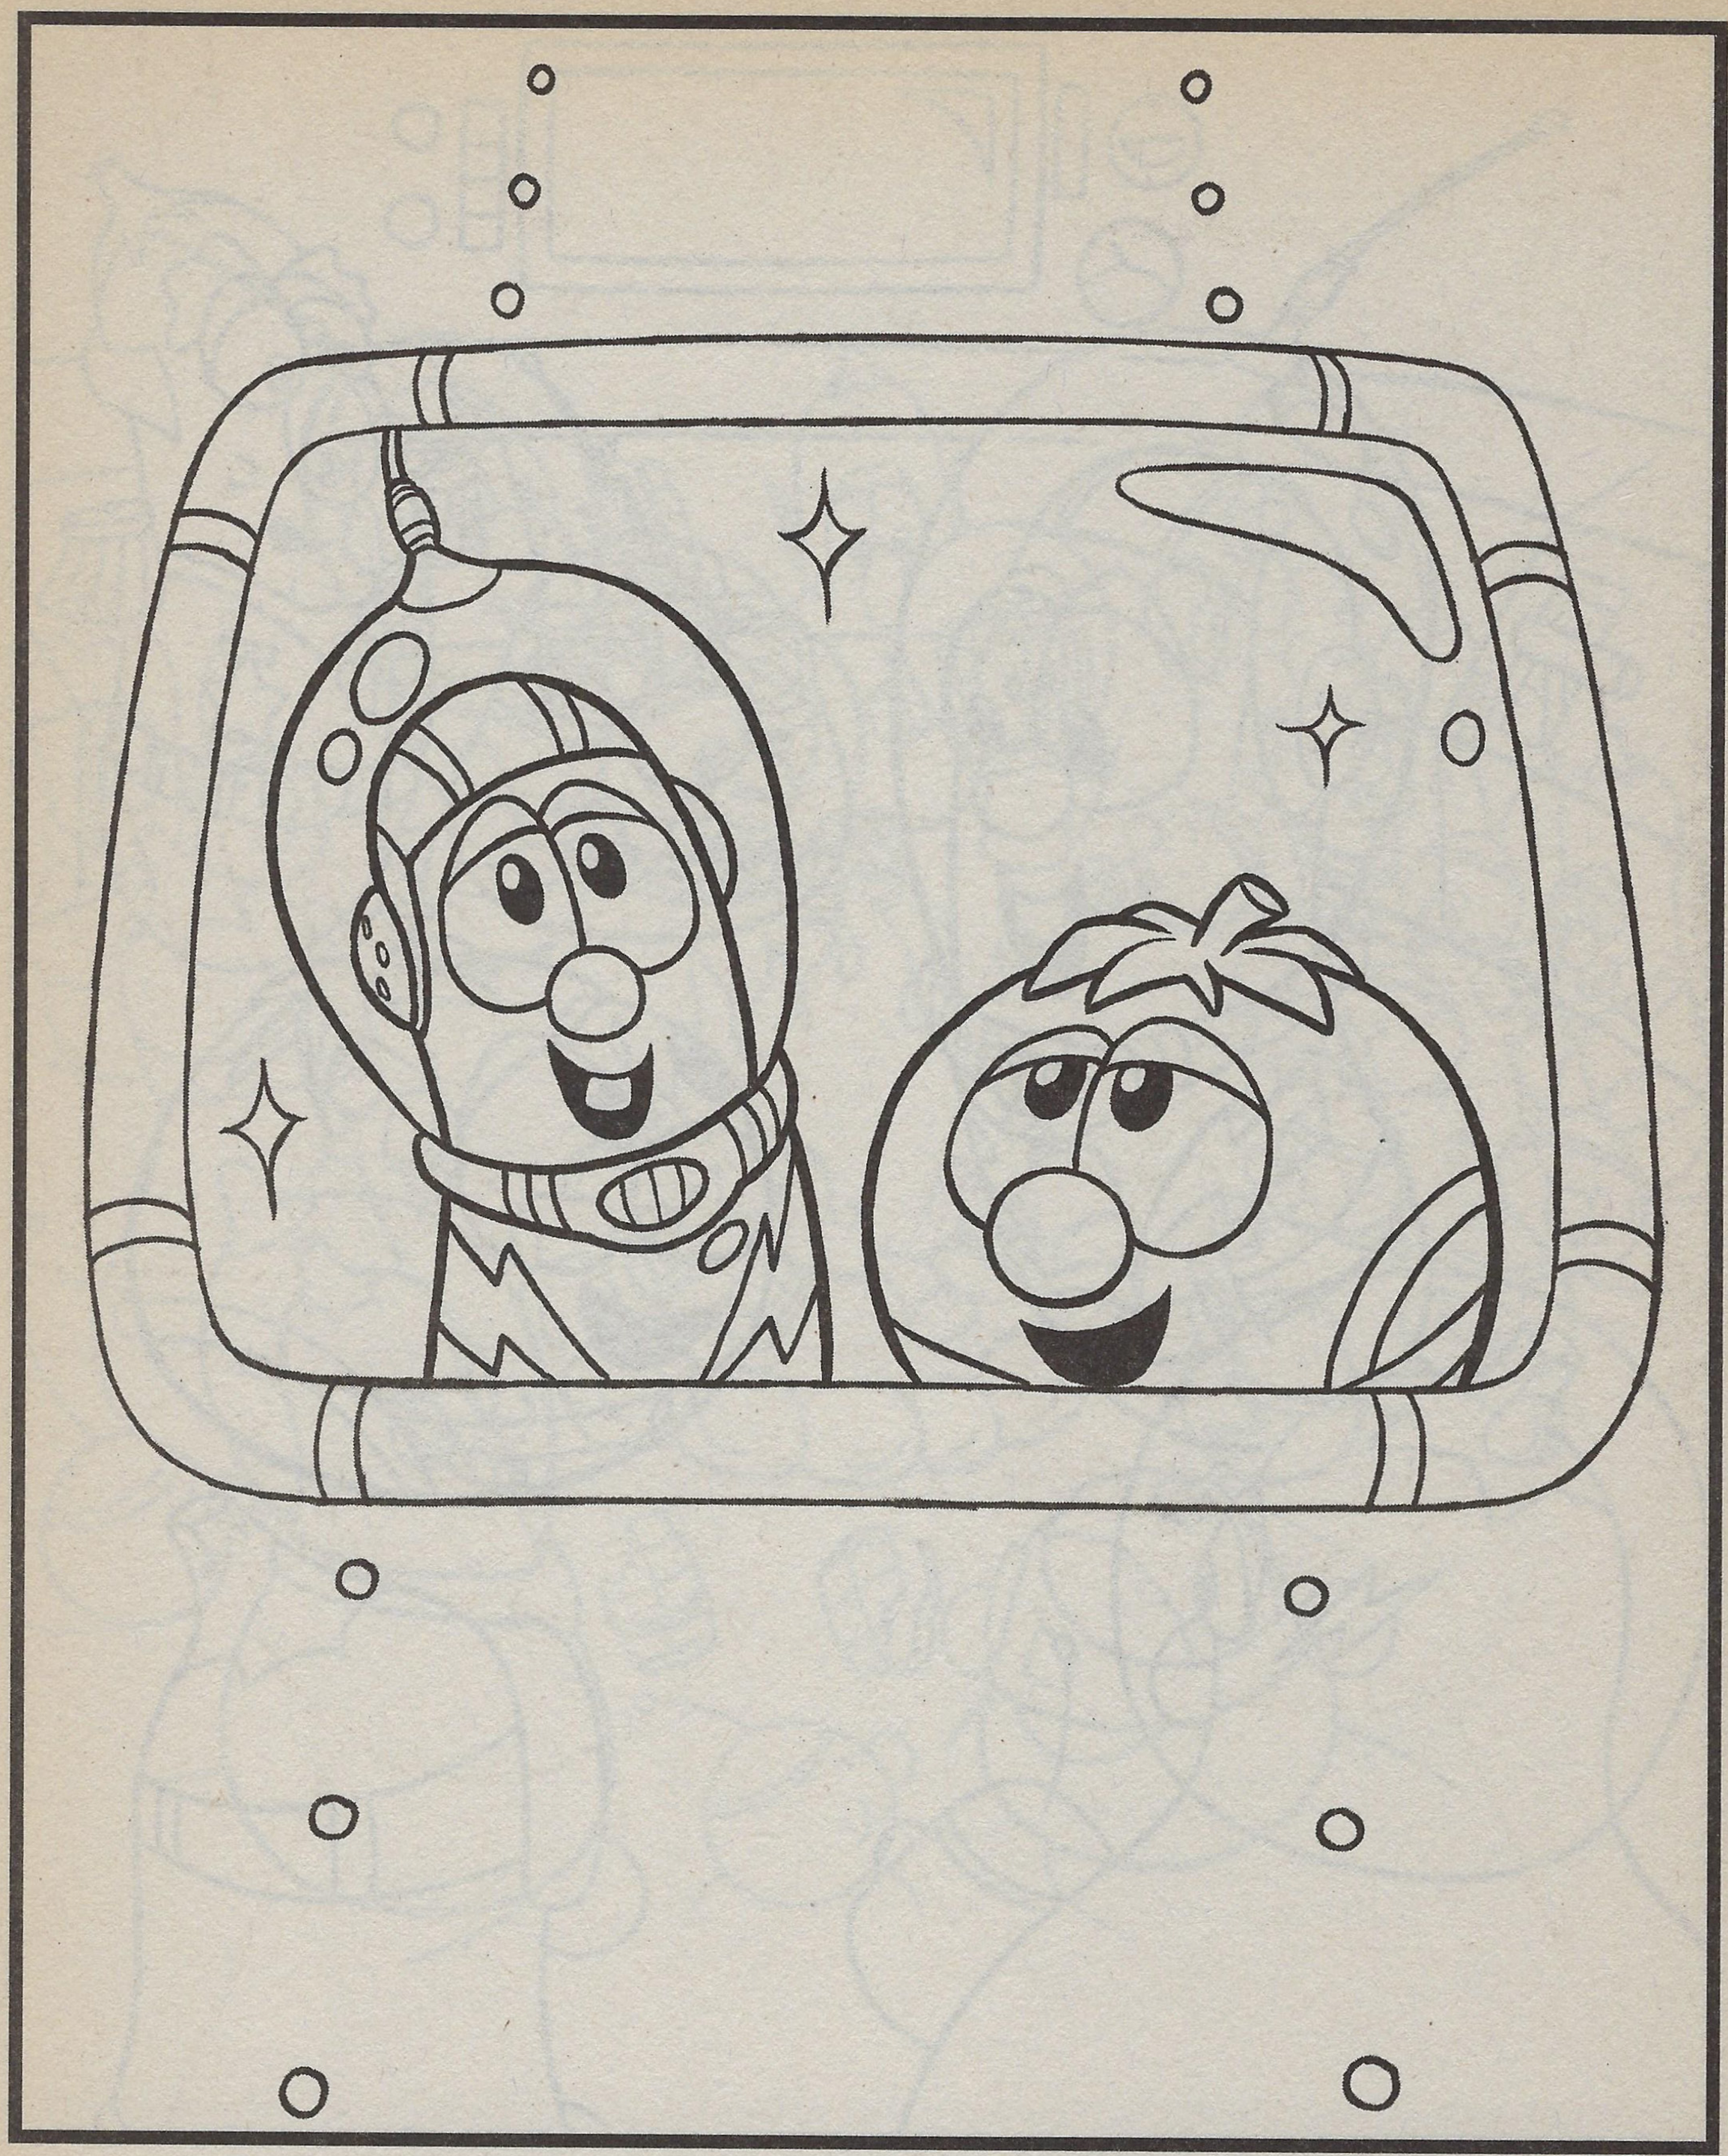


And so, not only was Planet Cone saved, the s'more was invented.

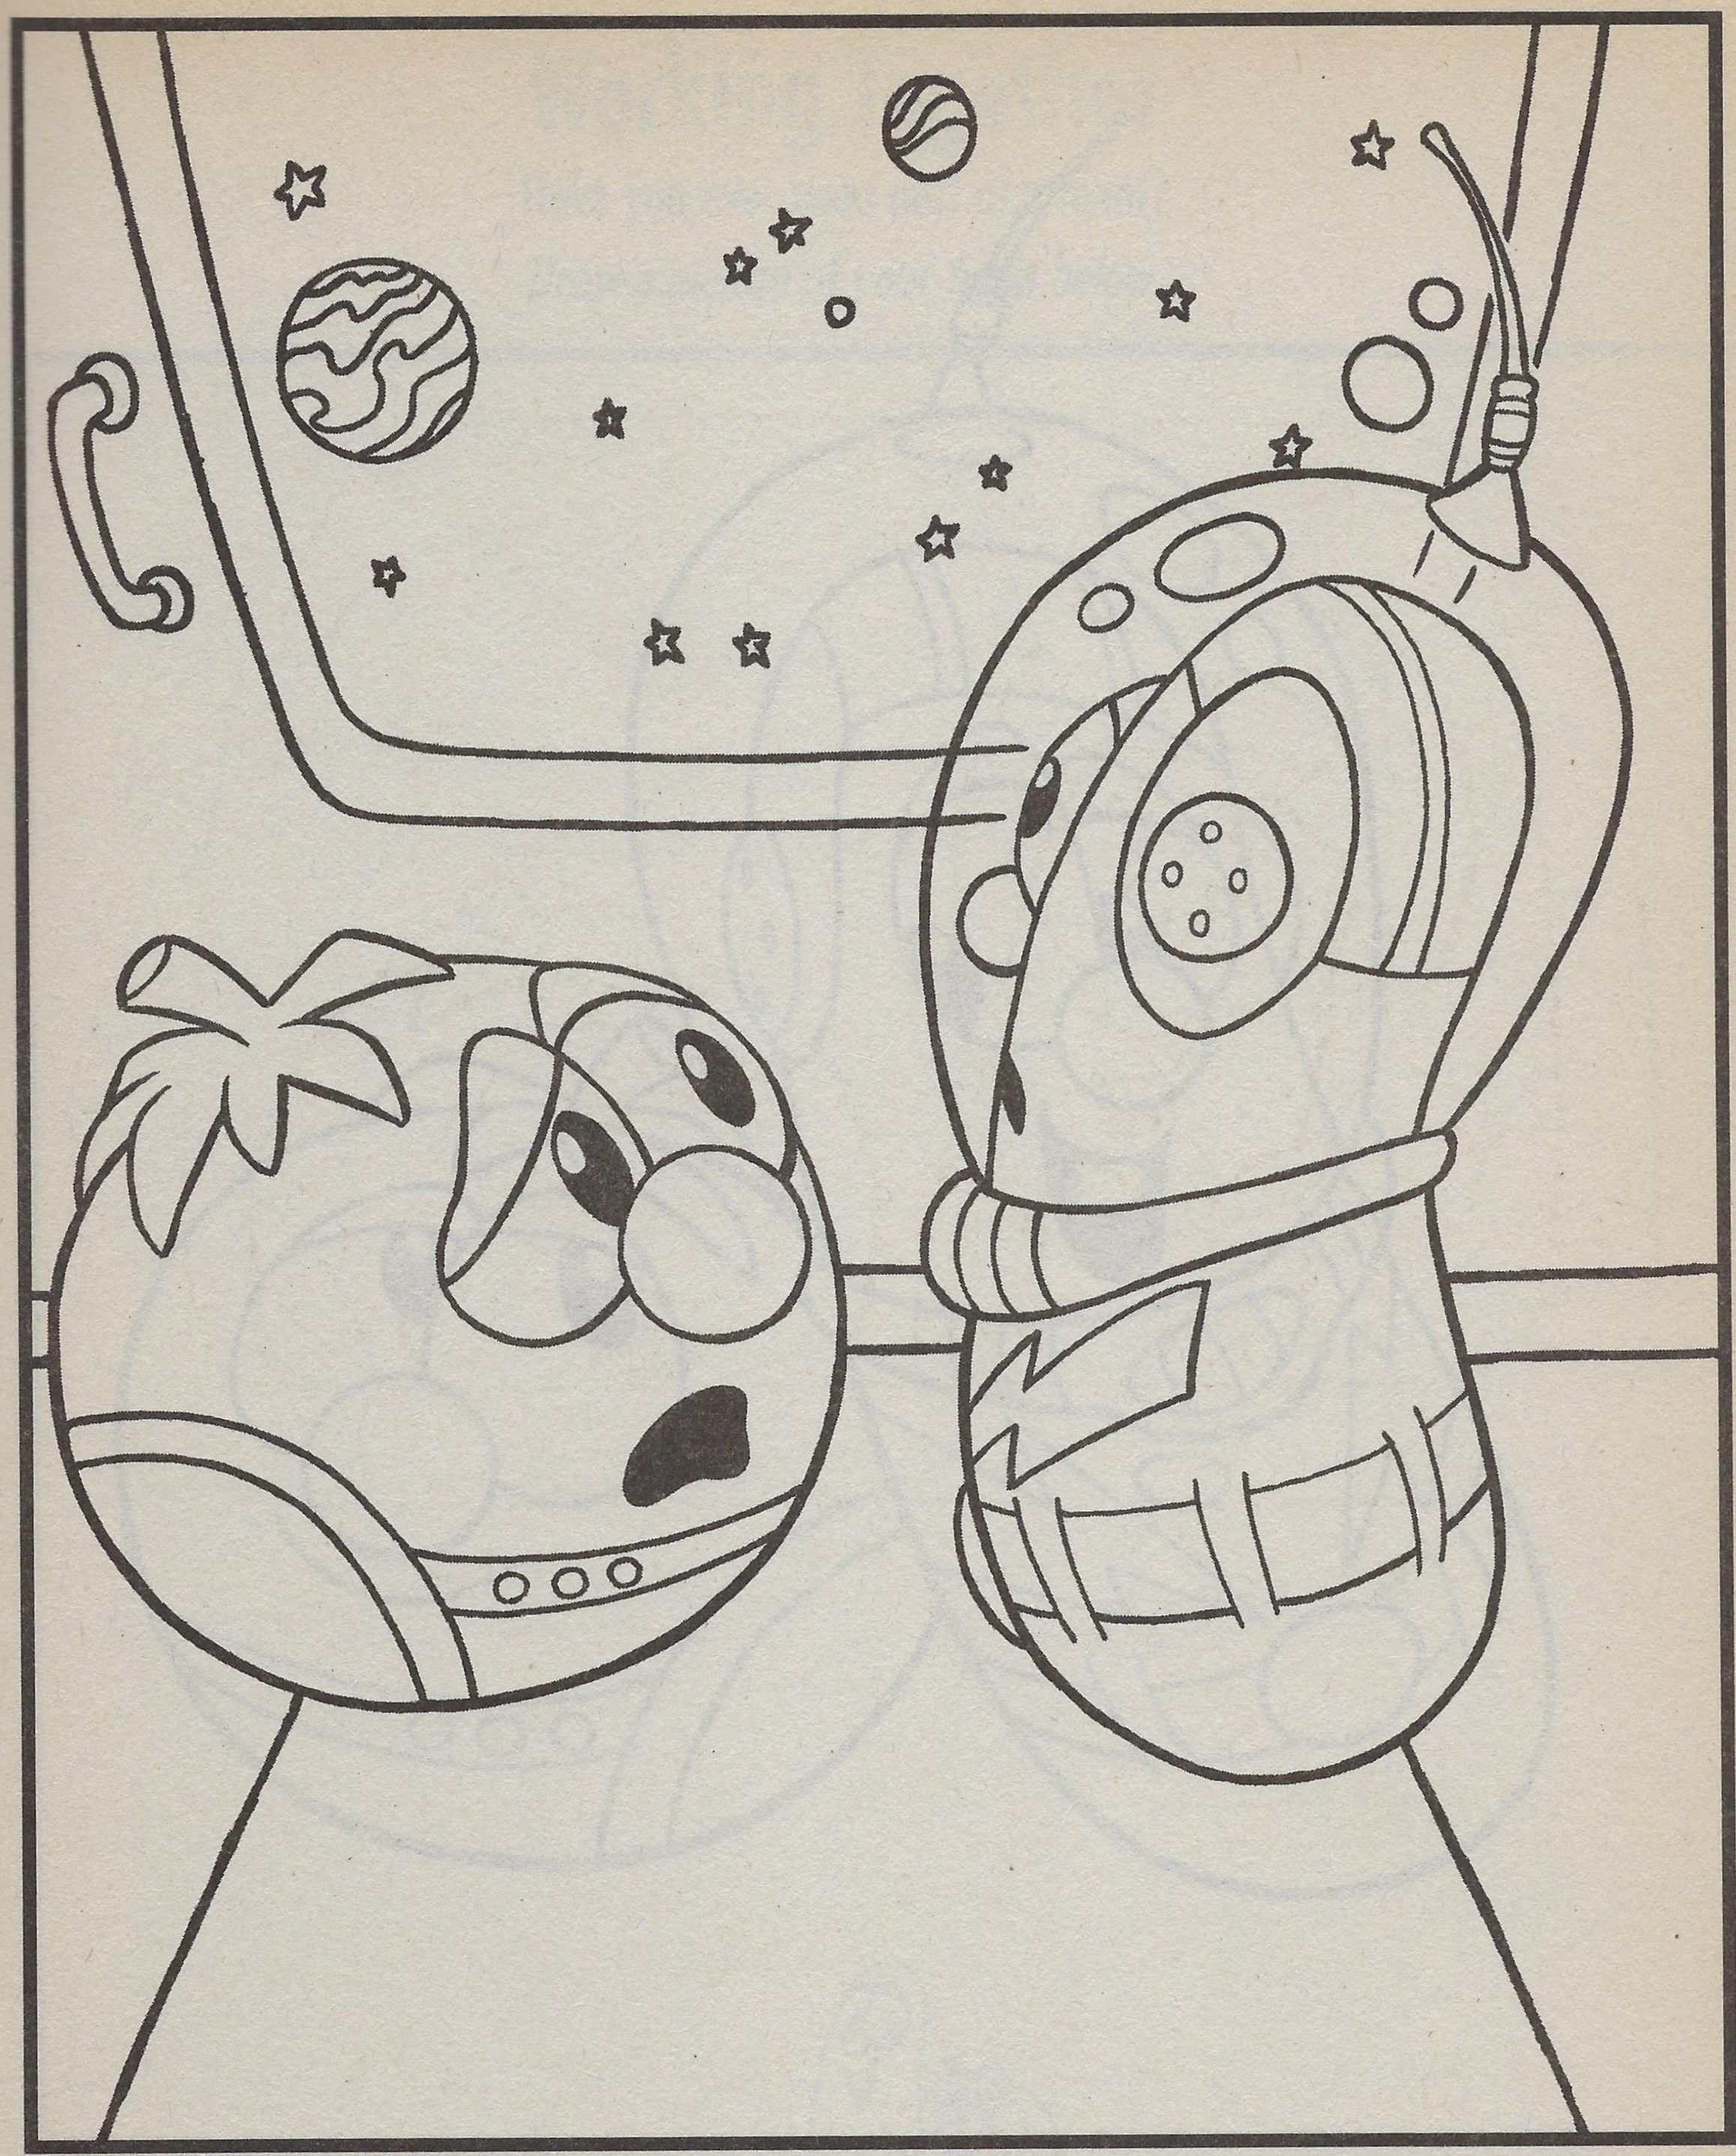


"See, teamwork is important no matter where you are in the universe," said Captain Bob.

© 2007 Big Idea, Inc.

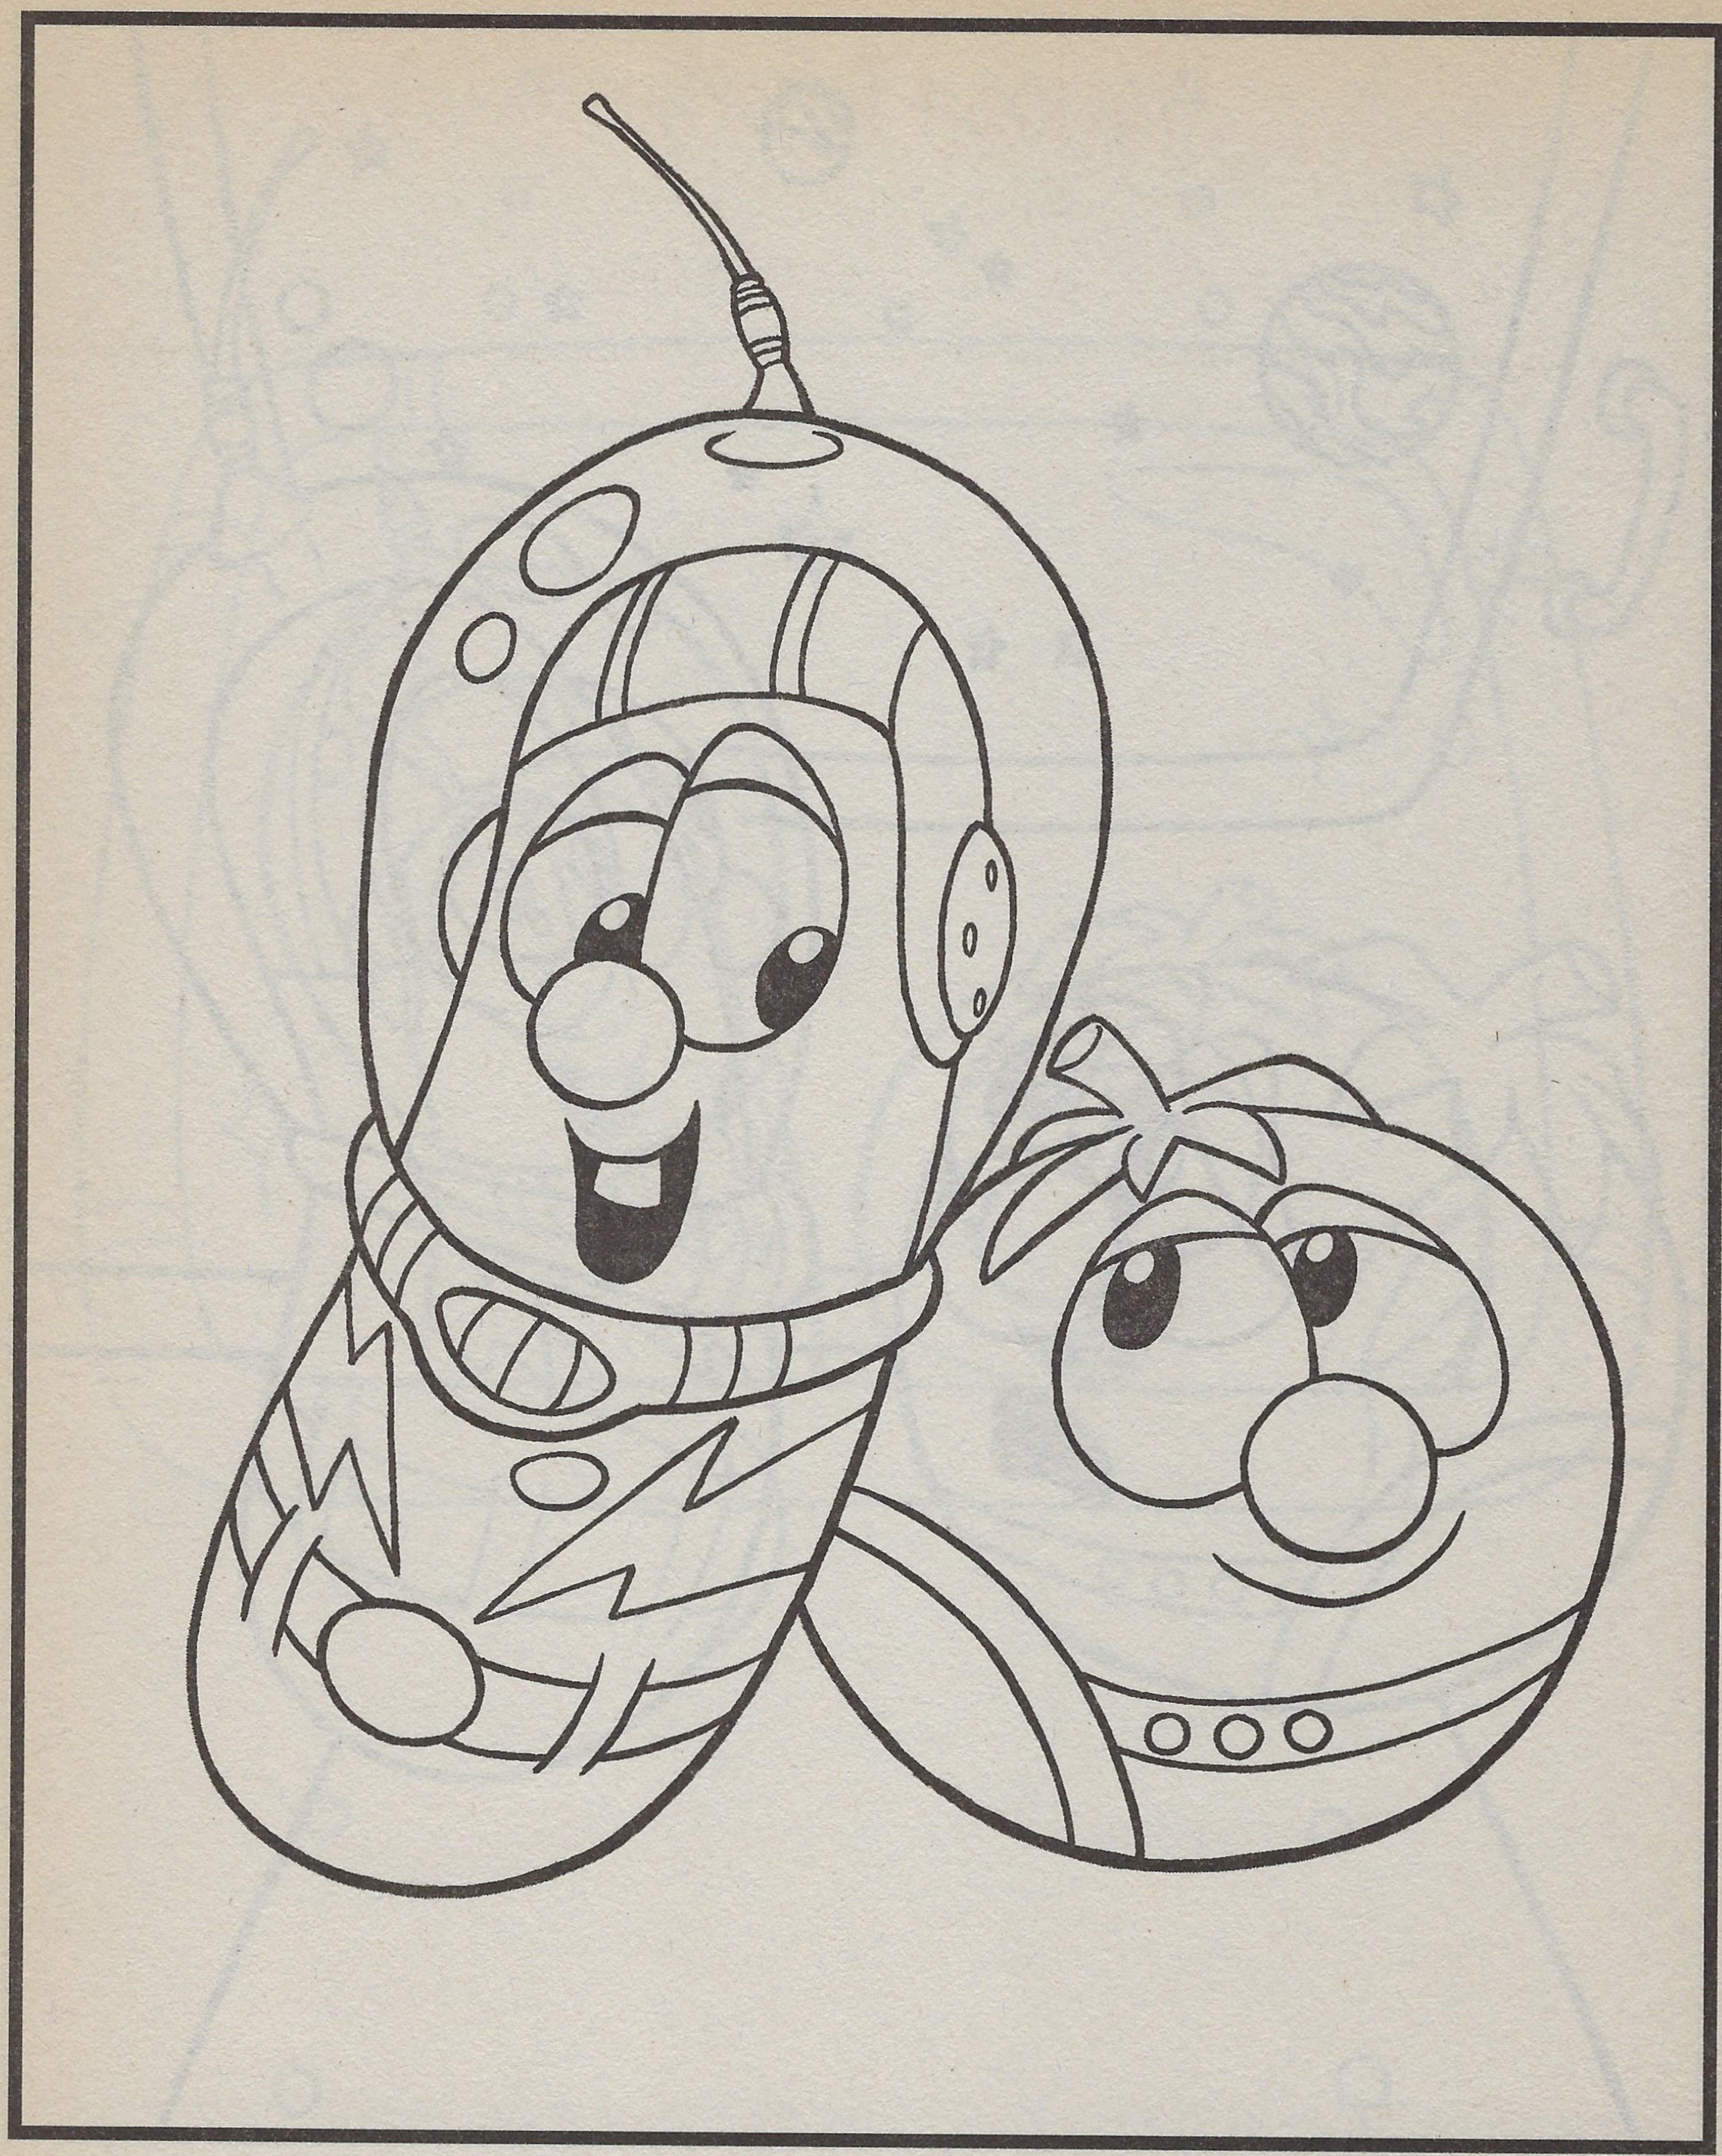


"Right," agreed Lunar Larry. "When we work together, the sky's the limit!"



"Actually, we're in space, Lunar Larry," replied Captain Bob.
"The sky is *not* the limit."

© 2007 Big Idea, Inc.



"Exactly, Captain Bob," said Lunar Larry. "With your brains, and my good looks, we're the perfect team."
